### ONE NEW YORK TEAM WINS; ANOTHER LOSES

NEW YORK, Sept. 28.—(U. P.)—The lead of both the New York teams in the major league pennant races was reduced yesterday by half a game. The pirates won while the Giants were idle, cutting McGraw's lead to three and one half games. The Yanks lost while the Indians were idle, their lead slipping to a game and a half. The Pirates have five games to play and the Giants four. Both the Yanks and Indians have four games remaining.

### UMATILLA FARMERS ARE ENGAGED IN SEEDING

The majority of the Umatilla county farmers are now engaged in seeding, fall rains having made the season early this year. In most sections seeding is well under way, while in some parts of the county farmers are waiting for weeds to get a chance to start and will blade them before beginning to seed. It is probable that seeding will be finished about November 1.

Thirty Umatilla county farmers are experimenting this year with new dry copper carbonate treatment of wheat for the prevention of smut, which has proved so successful in Australia. Each of the farmers will treat a sack of wheat with the copper carbonate and will stake off the ground seeded with wheat so treated. A smut count will be made to determine the results of such treatment.

Fred Bennion, county agent, expects the dry copper carbonate to revolutionize seed treatment in this county. It consists of mixing two ounces of the carbonate with a bushel of wheat. It is, he says, a less complicated treatment than the formaldehyde and bluestone treatments.

The carbonate treatment will not injure the germ, which Mr. Bennion points out, is a great advantage, as he believes that 30 per cent of the wheat in this county is killed through treatment. This amounts to about 75,000 bushels yearly. Formaldehyde is less likely to kill the germ than bluestone, he states, but either treatment requires more equipment and more irreplaceable than the carbonate treatment.

The scene was staged at great cost and necessitated the use of unique photographic "shots." It is one of the most thrilling race scenes ever filmed.
