NEVADA HAY FOR NEW YORK.
FALLON, Nev. Sept. 29.—(I. N. S.)—Thomas Williamson has contracted to ship 100 to 150 tons of hay to New York via the Panama canal, for which he is to receive \$9 a ton f. o. b. Fallon. The rate to Oakland is about \$5 a ton and from there to New York is said to be \$12. With a surplus hay crop, it is expected that much Nevada hay will be shipped in this way.

FALSE DIAGNOSIS FATAL.
GENEVA, Sept. 29.—A tragedy of mistaken diagnosis has been enacted here.

The son of a wealthy Swiss banker was sent to Stuttgart to learn German. He fell ill and a woman doctor who as called in declared him to be suffering from hereditary disease. The boy returned here and physicians who saw him declared that the woman doctor had been mistaken. He was perfectly healthy.

WAS INFLUENCED BY HER SON'S RECOVERY

After Suffering for Fifteen Years Portland Woman Is Soon Restored.

"When I saw how wonderfully my son was helped by taking Tanlac, I began taking it too, and I have been benefited in every way," said Mrs. Jelsem's Cenci, 207 Sheridan St., Portland, Ore.

"When anybody has suffered like I did for fifteen years they know how to appreciate good health, and I believe I am the happiest woman in the State today. My trouble began with my stomach, and during all these years, I never knew what it was to sit down and eat what I wanted. Although I lived on a strict diet, never eating any fruits or starchy food, I still had violent attacks of indigestion at times. I had awful headaches too, and was so nervous I rarely got a good night's rest.

"Tanlac has made me feel the way I have wanted to feel for so many years, and I have not a trace of any of my old troubles. It certainly is the grandest medicine in the world."

Tanlac is sold in Pendleton by Thompson's Drug Store and by leading druggists.

Do you know what constitutes a strong constitution?

To have sound, healthy nerves, completely under control, digestive organs that are capable of absorbing a hearty meal, means you have a strong constitution! Your general attitude is one of optimism and energy.

But an irritable disposition, frequent attacks of indigestion, and a languid depression, indicate your system is not in correct working order.

Probably you are not eating the proper food. Probably the nutritious elements are not being supplied to your system in the proper way.

Grape-Nuts is the wholesome, delicious cereal that promotes normal digestion, absorption and elimination, whereby nourishment is accomplished without auto-intoxication. A mixture of energy-giving wheat and malted barley comprise the chief elements of Grape-Nuts. A dish at breakfast or lunch is an excellent, wholesome rule to follow.

You can order Grape-Nuts at any and every hotel, restaurant, and lunch room; on dining cars, on lake boats and steamers; in every good grocery, large and small, in every city, town or village in North America.

JAP DIPLOMAT SCORES ARMY IN HAWAIIAN ISLE

BY DUKE N. PARRY
International News Service Staff Correspondent

TOKIO, Sept. 29.—Claims that the United States is maintaining a larger garrison in the Hawaiian islands than is necessary and that American soldiers in that place, were made in a letter written by Mr. Takeo Tanaka, member of the Japanese Imperial Diet, who recently made a tour through the principal cities of the United States. Mr. Tanaka's letter, published recently in the Tokyo Jiji Shimpo, is written from New York City to his friend, "Mr. Y." in Tokio, Hawaii, says Mr. Tanaka, has become a camp for soldiers. Sugar plantations, according to his observations, are serving chiefly today as sites for new barracks. Mr. Tanaka says that he understands the garrison of 10,000 men is kept there as a precautionary measure to guard against the Japanese residents there. His letter, the result of observations made while Mr. Tanaka, with other members of the Diet party, was en route to the United States, follows:

"Yankes Defective."
"New York, July 4.
"My Dear 'Y':
"How are you? There is no change

on the whole to be noted in America, save that, compared with the country of five years ago, it has taken on a very militaristic appearance. As soon as we landed at Honolulu we noted a great number of soldiers. We learned that in that town alone there were 10,000 soldiers. For 10,000 soldiers to be quartered in that small, saucer-like place seems to have become a problem even to America, I was told, to be sure, that the Japanese are in the majority there. But, at any rate, it seems to be the common view that it is a foolish thing to keep so many soldiers in Hawaii.

"Moreover, these soldiers occasionally annoy the daughters of respectable families in the islands, thus increasing the problem. The remarks of the Japanese in connection with this are interesting indeed. 'We would rather have more of those soldiers,' they say. 'You see, Mr. Tanaka, in directing these barracks and in other work, Japanese labor is needed. If the soldiers continue to come we can do more business in selling things here.'"

"I wish you would study these ironical and yet logical remarks of the Japanese in the islands. Before the labor power and essential strength of our countrymen the authority and influence of America are powerless at present unless America succeeds in driving the Japanese altogether away from the islands. Hawaii has been built up by the strength of Japanese. Let America build barracks there as fast as she wants, let her increase the soldiers there, let her invest her money in repairing Pearl Harbor and building docks. In reality all these undertakings serve only to fill the coffers of Americans who are keen in their business deals.

"What an interesting picture, in-

deed, that the Americans who are opposed to such enterprises do not grumble at such a state of things. If this were in Japan certainly such matters would cause political trouble. Indeed the Yankes are defective in some ways, but what a great nation they are!"

RENTS REMAIN HIGH

SYRACUSE, N. Y., Sept. 29.—(I. N. S.)—There are not many desirable flats, apartments or single houses available in Syracuse. The cost of rents remains high. Desirable houses are quickly rented, at existing high rentals or advances. Some instances are reported where advances of upward of 19 per cent were made in present year leases, effective May 1, 1921. Here and there a "To Rent" sign may be seen, but if the place is

modern and the neighborhood good the flat or apartment does not remain long unoccupied. In spots throughout the city a dwelling is under construction. A single house here, a double house there; occasionally an apartment house, which may accommodate half a dozen families, may be observed. Construction of dwellings is not particularly active.

Flats which in pre-war times commanded \$20 to \$25 are now renting at \$45 and \$50, while apartments, with heat, are showing increases of anywhere from 50 to 100 per cent above the 1914 figures. Other "home" rentals are in like proportion. The few flats, apartments or single houses which may be available are made so by the unemployment situation, which has caused many workers to seek positions in other cities.
