THURSDAY CLUB MEETS

Argentina was the subject for an interesting meeting of the Thursday A. M. Club yesterday afternoon in the library club room, with Mrs. Mary J. Lane and Mrs. A. L. Schaefer as guests.

Mrs. Stephen A. Lowell read a paper on the city history and geography of Argentina, and Mrs. John Halley a paper on Buenos Aires and the national characteristics of the inhabitants. Mrs. Benjamin S. Burroughs, delegate to the State Federation convention held here in June, gave a report of the same.

The musical program was most pleasing and consisted of a solo by Mrs. Lyman Rice, with piano accompaniment by Miss Pauline Rice, and a recitation from "Melisande" sung by Mrs. Harold J. Warner, with Mrs. Lee Alice Jones at the piano.

Margolds and yellow candles made a charming decoration for the tea table, where Mrs. Lee Morhouse presided during the tea hour. The hostesses were assisted in serving by Mrs. George Harman, Mrs. C. C. Whitman and Mrs. John H. Fitzgibbon. A few guests other than club members were present among them Mrs. Lillian Purdy, who is visiting Mrs. Lina Stur-

IDEAS FOR HOUSEWIVES

- ♦ The prosperity of Umatilla county depends partly on the active consumption of the products produced. Through the use of more milk and dairy products we encourage hay growing and dairying. Through using more bread and cereals we create a more active home market for wheat and grains. About nine-tenths of the manure building material in our diet comes from wheat and other cereals, while the addition of milk forms a balanced diet. Bread should possess the quality of retaining its flavor for several days or even a week.—E. V. D.

FIND SKELETON AMONG ROCKS

ELKO, Nev., Sept. 30.—(I. N. S.)—Forest rangers in the Ruby Mountains recently found two cairns of rock, one of which contained the skeleton of a man and the other that of a dog. Nearby was an old-style pack saddle. They thought that the bodies had been placed there not more than six or eight years ago, as fragments of clothing still adhered to the man's bones. Murder is believed to have been done and the dog to have been killed and buried following the death of his master, so that he would not attract attention to the spot. The bones were not disturbed, and county authorities are investigating.

MEXICAN GENERAL MAY BE ALIVE IS REPORTED

MEXICO CITY, Sept. 30.—(I. N. S.)—It is reported here that General Alberto Basavey Pina has been seen in El Paso. He was for some time the most active of the associates of General Candido Aguilar in efforts to start an uprising against the Obregon government along the border of Guatemala. His death was reported last winter, with much circumstantial detail. It was said he was betrayed and killed by treacherous followers.

Nothing has been heard of Basavey Pina for many months. It was supposed that the report of his death was true. There are persons here who still believe that he is dead. They say that quite often when a man of some reputation dies there are reports that he is still alive, especially if there is mystery or tragedy in his death.

Basavey Pina was such a tireless, reckless plottor that he could not have dropped into complete obscurity for so long a time, it is said.

They admit that if the general is still alive and on the Texas border trouble or vigorous efforts to make trouble may be expected in that direction.

running water equipment, gas connections for heating and cooking purposes, shower baths and many others are planned for the tourists who avail themselves of the accommodations of the camp.

NOVEL SCHEME USED TO MAKE CONVICTS WORK

RENO, Nev., Sept. 30.—(I. N. S.)—Reno's new chain gang, composed of "come-backs" at the city jail, started functioning recently.

Al Pfeffer, special officer, is in charge of the gang, and his answer to predictions that he cannot get the men to work is a system whereby a certain amount of work is allotted in a certain time, the men to be allowed to loaf if they finish inside the limit.

The result is that the men speed up their assault on weeds and debris in back streets and alleys, and then sit in the shade, roll cigarettes and discuss economic conditions.

Also, they get three squares a day instead of the two served to inmates of the city jail who do not work.

The gang will be maintained until the streets and alleys are cleaned up, at least, and Chief of Police Kieley proposes to find other "work for idle hands to do."
