**IDEAS FOR HOUSEWIVES**  
**HOME DEMONSTRATION**

Housekeeping is a fascinating and interesting game if a woman uses her best intelligence in choosing and placing the tools and equipment she uses. Stoves, tables, tubs, ironing boards and sinks should be the right height and the small utensils arranged on a rack above the table or in some convenient cupboard; a careful study should be made to reduce labor and time without hurting the result. If a schedule were made of the exact time the various duties of the household required, most women would find that certain occasional tasks such as mending, house cleaning, etc., could be planned around the regular tasks to make for better efficiency.—E. V. D.

**INTO HOME**

By Lydia E. Pinkham's Vegetable Compound, Restoring Mrs. Benz to Health

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We have had six children die almost at birth. From one hour to nineteen days is all they have lived. As I was going to have another, I took a dozen bottles of your Vegetable Compound and I can say that it is the greatest medicine on earth, for this baby is now four months old and a healthier baby you would not want. I am sending you a picture of her. Everybody says, 'That is some healthy looking baby.' You have my consent to show this letter."—Mrs. C. W. BENZ, 131 3rd Ave., Altoona, Pa.

No woman can realize the joy and happiness this healthy babe brought to the home of Mrs. Benz, unless they have had a like experience.

Every woman who suffers from any ailments peculiar to her sex, as indicated by backaches, headaches, bearing-down pains, irregularities, nervousness and "the blues" should not rest until they have given Lydia E. Pinkham's Vegetable Compound a trial.
