Liberty Bonds Lose Some of Recent Gain.
NEW YORK, Oct. 12.—(A. P.)—Trading in stocks was dull and irregular. Speculative issues, chiefly junior oils and miscellaneous specialties, again made up the bulk of the dealings. Firmer money tendencies were sufficient to curtail business and check any effort at constructive operations.

Gains of 1 to 3 points among the domestic oils were offset by renewed selling of Mexicans. Food issues, notably American Sugar common and preferred and National Biscuit, lost 1 to 3 points and secondary rails, shipping and independent steels reacted to the same extent. Sales amounted to 42,500 shares.
Call loans opened at 6 per cent and held at that figure throughout. Time money was quoted unchanged, but offerings diminished, except for the shorter maturities and 30-day bank acceptances.
The principal foreign exchanges registered sharp recessions from their recent buoyant advance. Liberty bonds forfeited a material part of their gains and latest industrial developments were less encouraging. This latter condition was strikingly exemplified in the report of the Lackawanna Steel company for the year's third quarter, which disclosed a substantial increase of the deficit over the low three months before.
Net losses in liberty bonds on unusually heavy operations were most severe among the 4 1-4s, the first losing 15 1/2 points and others of that series 6 1/2 to 7 1/2 points, while the second lost 5 1/2 points. In the general bond list, rails of the speculative type were heavy, especially Seaboard Air Line adjustments and Minneapolis & St. Louis refunding 7s. Sales, par value, were \$19,650,000.
British, French, Belgian and Italian exchanges declined irregularly on easing of the buying demand and the Greek rate was again affected by adverse conditions in that country. Changes in the Scandinavian quotations were trifling, but mainly lower.

Wheat Rebounds to Stronger Postion.
CHICAGO, Oct. 12.—Chicago board of trade sentiment turned bullish yesterday and net gains were registered by the entire list. Wheat finished 1 1/2 to 4 cents higher, corn up 2 1/2 to 2 5/8c and oats 1 1/2 to 1 3/4c. Provisions gained from 2 1/2 to 15 points.

Wheat started off higher and, after a brief setback, took definitely to the upgrade. Factors which might have been expected to encourage selling in northwestern markets and expansion of a bullish government report within a few days of wheat stocks were the chief factors in the advance. A big Chicago interest was credited with picking up the early offerings through commission houses and a parcel to the buying side resulted from this rumor. Light country offerings from the southwest, combined with official reports that farmers already had marketed 72 per cent of their crop in Indiana, 66 per cent in Kansas, 55 per cent in Minnesota, gave the bulls further encouragement. Toward the close there was considerable covering because of the holiday and the close was at about the top figures of the day.
Corn reflected the strength in wheat and had a small boom, of its own improved export demand, coupled with announcement that Holland bought 400,000 bushels late yesterday. Cash houses bought December to remove hedges against export sales.
Oats trailed in the path of corn. Provisions were dull and moved in narrow limits, but were firm throughout. Trade was mostly local.

NEVADA CHILDREN TO HELP HONOR GENERAL

RENO, Nev., Oct. 12.—(U. S. S.)—Nevada school children are the first in the nation to be ready with their quota of 50 worth of pennies to buy a medal for General Ferdinand Foch, Grand Marshal of the Armies of France.
Two years ago the children were asked, as part of a national movement, to give a penny each to the amount of \$100 for a medal for General John J. Pershing.
This they did, and the money has since been available, but uncalled for. Last night the State Committee in Charge of the "Pershing Penny Fund" voted to give half of the money to help purchase a medal to present to the great French soldier when he visits America this fall, the other half to go to the Pershing Medal Fund.
Accordingly the \$100 has been forwarded to W. J. Hunting, State Superintendent of Schools, with a request that he send half of it to J. M. Halstead, of New York, president of the French Restoration Fund.
Replicas of the Foch medal will be presented to President Harding and General Pershing.
Under orders from the army engineers, Hell Gate has been partly closed. Of course, with our conscience clear, and all that, this bit of information means literally nothing at all to us. But we can think of a lot of people who will feel cause for jubilation.
As a general thing, when a girl discovers that she's got dimples on her shoulder blades she's going to dress that way.
