QUALITY IN CARS; QUALITY IN SERVICE

Fine quality in any automobile remains a source of satisfaction to the car owner only as long as that factory-built quality is reflected in perfect performance.

Responsibility for this lies strictly with the local dealer. He is in business to see that the ideals of the manufacturer and the expectations of the owner are realized in actual every-day car performance.

BLOODHOUNDS PUT ON TRAIL OF ASSAILANT

EVANSVILLE, Ind., Oct. 14.—(U. P.)—Fifty men with bloodhounds today scoured the woods near the home of Jesse Kincaid, a coal operator of Lewisport, Ky., in search for the man who attacked Kincaid's daughter Ruby, 21 years of age, left her bound and unconscious on a bed in her home.

DISGUISED AS SWEET CIDER, 'MULESHOE' IS STILL WITH US

LOS ANGELES, Oct. 14.—(U. P.)—An investigation by police officers has revealed the existence of a new drink in this vicinity—a drink with such a terrible "kick" and more terrible effects, that it has been given the name of "Muleshoe."

For several weeks men have been picked up in the old saloon district suffering with distress. At a receiving hospital they were treated for alcoholic poisoning, swollen throats and in a few cases blindness. All of the men treated declared they had drunk nothing but what they believed was sweet cider.

The police investigators found certain soft drink vendors have been buying in considerable quantities a heating substance containing wood alcohol, grease and an unknown chemical to keep it from burning too rapidly.

The substance was designed to heat chafing dishes, but the unscrupulous cider men have been mixing it, the police say, with the cider. "I thought I had swallowed liquid fire," said one poor fellow after the doctors had worked with him several hours and brought him past the danger zone.

The police believe they have a line on all the vendors who use "Muleshoe" and expect to prevent its use in the future.

Prices Go Lower For Wheat at Chicago.

CHICAGO, Oct. 14.—(A. P.)—Bears had the advantage in wheat yesterday, owing chiefly to price breaks which took place the day before in the northwest when the Chicago exchange was closed. The finish here yesterday, although steady, was 2c to 2 3/4c net lower, with December 1.12 1/2 to 1.12 3/4 and May 1.17 to 1.17 1/4. Corn lost 7/8c to 2 3/4c and oats 1/2 to 1 1/8c. In provisions the outcome varied from unchanged to 3/4c down.

Wheat depression, due to holiday factors, was given additional emphasis by bearish views expressed regarding a talk in which Secretary Wallace declared himself as being for competitive United States markets and said legislation was no cure for low prices.

A new low price record for German marks acted as a further handicap to bulls. Subsequently, reports of a good demand for flour at Minneapolis helped more or less to check the weakness of wheat here, but was offset largely by word of congestion of terminal facilities at Galveston, with a 14-trad embargo in prospect for that port unless European demand for United States wheat improved.

No stimulus to prices here resulted from estimates that 1,000,000 to 2,000,000 bushels of Canadian wheat had been bought for Europe during the last 48 hours.

Corn and oats declined with wheat. Clear, cool weather was counted upon as favorable for drying out the corn crop. Lowest prices this season were reached for current deliveries of ear and husk. Weakness of grain and hogs and in foreign exchange appeared to be responsible.
