IDEAS FOR HOUSEWIVES HOME DEMONSTRATION

- Home Prepared Cleaning Agents
- All surfaces should be polished with a smooth, fine substance to avoid the scratching which gritty cleaning agents often produce.
- Silver Polish
- 5 pounds whiting.
- 1 quart boiling water.
- 2 ounces castor oil.
- 1/4 package pearline.
- Mix the whiting and pearline together; add the boiling water and stir until all lumps are removed. Lastly add the castor oil and mix well. Store in covered jars and in a cool place.
- Furniture Polish
- 1 pint linseed oil.
- 1 pint turpentine.
- Combine the oil and turpentine and mix thoroughly.
- Dustless Dust Cloth Preparation
- 1 cup linseed oil.
- 1 cup turpentine.
- 1 cup kerosene.
- Saturate a piece of cheese cloth in the mixture above.
- Shake the cloth out well, iron it and expose to the air for a few hours. Dust clothes so prepared may be washed several times without retreating.
- Dustless Mops
- 1 cup kerosene.
- 1 cup melted paraffin.
- Dip the mop into this until it is thoroughly saturated. To keep the mop moist it should be enclosed in a large paper bag when not in use.

SURE and QUICK Relief from **COUGHS COLDS CROUP**

Best for Children and Grown Persons

Statistics show that even though home building has increased the number of garages built is considerably above the number of dwellings. This condition obtains in Brooklyn, according to the last report of the Bureau of Buildings, and real estate authorities and Building Department officials declare that the same condition obtains in the Bronx. These two boroughs are the home centers of Greater New York.

But even though the garage comes first in the list of new buildings some relief is being afforded the harassed home-seeker. New dwellings are going up steadily and have been since the passage of the tax-exemption ordinance last February made it profitable for builders to commence operations.

Throughout the city prospective dwellers have field plans for 12,389 dwelling houses, accommodating 100,000 persons, since February. To be sure, the city gains population at the rate of several hundred thousand persons a year, which means that a big shortage will still exist; but the situation represents a great improvement over the same period last year, when 5,164 building plans, accommodating

only 7,632 persons, were filed. Brooklyn leads this year in housing construction, having provided homes for about 12,000 families since the first of the year, or more than all the other boroughs combined. The Bronx, which makes a specialty of apartment house construction, comes next, with 106 of these, and 933 dwellings. Last year only seventeen apartment houses and 375 dwellings went up in the Bronx.

Permanent Muscular Strength cannot exist where there is not blood strength. Young men giving attention to muscular development should bear this in mind. Hood's Sarsaparilla gives blood strength and builds up the whole system.

KANTLEEK

It Can't Leak, Because It's Made in One Piece

EVER been scalded by a leaking hot-water bottle? This can't happen with a Kantleek.

Kantleek Hot-Water Bags can't leak. They are "one-piece" water bags—moulded from pure soft rubber into a single piece—no joints or seams. Most hot-water bottles are made in sections and cemented. Cement cracks—bag leaks!

We guarantee a Kantleek for two years—or a new bag free. Ask to see the Kantleek. You may need it tonight.
