and second, filtration of the settled effluent through a gravel filter. The sedimentation will remove the floating solids which will later be disposed of as sludge and the filtration will produce the final effluent which will not putrefy or cause offense when discharged into the river.

Several possible sites for the proposed sewage treatment plant have been considered. These are all in the general vicinity of the state hospital grounds, west of the city and bordering the Umatilla river. The plan is to conceal the actual disposal plant by trees and shrubbery and to improve the surrounding grounds as a park. It is stated that the sewage plant, if properly designed, will be inoffensive and in no way interfere with the use of nearby grounds for park purposes.

To pay for the sewage disposal plant, together with the necessary property which must be acquired and to carry on a general plan of improvement in the west end of the city, the council has called a bond issue for \$125,000 to be voted on November 21.

Law Regarding Sewage Disposal.
Every person has the legal right to the fullest enjoyment of his life and health, and anything wrongfully done or permitted which injures or annoys another in the enjoyment of his legal rights is said to be an objectionable nuisance. The discharge of sewage by a person or a community into any body of water, by reason of causing foul odors or other unsanitary conditions, may be considered a nuisance and render the person or corporation causing the nuisance liable to legal action. The following court decisions are cited as illustrations:

"Putting deleterious and offensive substances in a stream is a nuisance and is ground of special damages to a land owner below."

"From the conflict of the right of the city to dispose of its sewage and to make reasonable use of public water courses for that purpose and that of the riparian owner to have the water come to him in substantially its natural state arises the well established rule that a city may empty its sewers into such bodies of water, but cannot do so in such a way as to create a nuisance, without incurring the liability to parties specially injured thereby, and being liable as well to indictment on behalf of the public, if the nuisance is a public one."

FIDDLER SUES RAILROAD FOR \$10,000 DAMAGES

ST. LOUIS, Mo., Oct. 29.—(J. N. S.)—Nero, who fiddled while Rome burned, was not a professional musician, and his "fiddling fingers" didn't amount to so much.

With P. D. Hood, of Perryville, it is different. His "fiddling fingers" were necessary to make a living, he says.

An accident on the Frisco Railroad he alleges in a petition filed at Poplar Bluff, impaired his fiddling fingers and left him so badly that he cannot "fiddle as good as he used to." He asks \$10,000 damages.

KANSAS CITY BUILDS TO BEAT LANDLORDS

KANSAS CITY, Oct. 29.—(J. N. S.)—Kansas City is building to beat the landlord profiteers.

This fact was made evident by a report recently issued by the American Contractors' Association, which shows Kansas City spent 220 per cent more in building during September, this year than the same month in 1920.

Kansas City leads all other Midwestern cities in building activities. Wichita has gained 110 per cent over last year and Omaha 50 per cent.

According to statistics compiled by the association mentioned previously, the building in Kansas City during September amounted to \$1,865,850. During the same month last year \$522,300 was spent.

BEAUMONT GIRLS MUST WEAR LOTS OF CLOTHES

BEAUMONT, Texas, Oct. 29.—(J. N. S.)—Police get some queer requests, but Day Sergeant Waldrop, of the local force, thinks one made to him recently takes the cake. It was shortly after a young woman had been arrested for appearing on the street with too little clothing on. The phone at headquarters rang, and a sweet voice said to the sergeant, "Won't you please come up to see me? I just got into town, and I want to be sure I have enough clothes on."

The sergeant pondered a moment and then replied, "You'll have to excuse me, ma'am. I'm a married man."

ATLANTA, Ga., Oct. 29.—(J. N. S.)—Six dollars was the price Martin Ballwin, colored had to pay for a nap in church, when fined this amount in the recorder's court after having been found peacefully reposing in a tent used for divine service in Edgewood avenue. CHICAGO WHEAT MARKET IS UNCHANGED TODAY

December wheat closed at \$1.08 1-8 today and May wheat at \$1.12 5-8, the December price varying but little from yesterday's quotation of \$1.08 1-2 and the May wheat being lower than yesterday's closing price of \$1.13 5-8. Following are the quotations received by Overbeck & Cooke, local brokers:

	Open	High	Low	Close
Dec.	\$1.08 3/4	\$1.09 1/2	\$1.08	\$1.08 1/2
May	1.13 1/4	1.14	1.12 1/2	1.12 1/2
Dec.	.48 1/2	.49	.48 1/2	.48 1/2
May	.54 1/4	.54 1/2	.53 1/2	.53 1/2
Dec.	.33 1/2	.33 1/2	.33	.33 1/2

Wheat—Had a strong tone until late in the session when the market was compelled to absorb considerable selling in the way of profit taking of the week end. News was quite bullish except the Minneapolis reported flour trade. Attention is being called to the small arrivals at all winter wheat markets, emphasizing the belief that the bulk of the wheat has been marketed, and that the remainder will not be pressed for sale. Cash market was strong at recent gains on the future. An eastern news agency had the report to the effect that Germany had arranged a credit of one billion dollars in the United States, but could not be confirmed.

Another decrease in the visible supply statement Monday would substantiate the idea the position of wheat has reversed itself.

Outs—Italed rather easy due to selling of December in the way of liquidation and of buying May by northwestern interests presumably hedged. The cash demand was fully equal to the offerings and prices are steady to 1-4 higher.
