Including Pendleton Prices and Associated Press Reports

**Top Price For Hogs, \$10 at Portland**  
(From The Oregon Journal.)

North Portland received 193 cars over Sunday, compared with 112 a week ago, 163 the previous week, and 34 cars a year ago this same day. Hogs ruled weak, with losses of 25 to 50c, cattle showed strength in the steer division, while in the mutton alleys the situation was somewhat mixed in character.

North Portland appears to have received its signal somewhat late. With a drop of 25c to 25c in the price of hogs here, with leading killers in control, that much higher prices were indicated at the opening of the Chicago market.

Tops at North Portland dropped to \$10 during the Monday morning trade, this being a loss of 25c from the previous top. Early Chicago tops were around \$8.25, which means a landed price here around \$9.50. Therefore, even at the lower figures, North Portland prices continue higher than the landed cost of midwest hogs on the coast.

General hog market range:  
Prime light ..... \$ 9.50 @ 10.00  
Smooth heavy, 230-300

While there was steadiness and even strength in the steer division and one lot of stock sold at \$6.50, or an advance of 25c above recent extreme values, the position of the cow market was unsteady with here and there dullness and even weakness during the early Monday trading at North Portland.

No early price changes were made in the cattle alleys at North Portland Monday. Total run over Sunday included 2322 head compared with 2499 head last week and 1759 head a year ago.

Lambs showed a weak tone at North Portland for the week's opening. Just the reverse was indicated in the mutton division, sheep generally indicating a steady tone, with initial Monday prices unchanged from last week's final figures.

Run of 2021 head was shown in the mutton and lamb alleys over Sunday, as compared with 2170 last week, 2100 the previous Monday and 2425 head this same day a year ago.

General sheep and lamb range:

### Liberty Bonds Show Gains, Exchange Weak

NEW YORK, Nov. 1.—(A. P.)—Fluctuations in the stock market yesterday were confusing. Issues of the same description frequently were fairly large, but again subject to the maneuvers of professionals.

Money rates furnished an excuse for the market's course. Call loans opened at 5 1/2 per cent and hardened to 6 per cent in the final hour.

Developments offered little encouragement to the bull accounts. Railroad tonnage showed irregular decreases and business gains at prominent centers were neutralized by further price reductions for important industries. Independent steel producers were reported to be contemplating lower prices for structural steel and other fabricated materials and substantial cuts were announced by manufacturers of motor trucks and rubber tires.

Among market leaders Mexican Petroleum was heaviest at an extreme decline of nearly eight points, the stock being under the greatest pressure in the last hour and unsettling the list.

Rails lapsed into the dullness shown by that group prior to the strike settlement and equipments, motors and food shares were heavy. Wilson & Co., common and preferred, made gross declines of 5 to 15 points. Officials of the company were quoted as being unable to account for the weakness of those issues. Sales were 700,000 shares.

Foreign exchanges were irregular, the French rate being the only important remittance to display strength. German, Scandinavian and Central European rates were visibly lower.

Trading in bonds was moderate with an uneven tone. Liberty issues closed mostly at slight gains, rails were uncertain and mixed changes ruled among internationals. Total sales, par value, \$14,375,000.

all upturns seemed to be a signal for selling by houses with northwest connections. In the end, the prevailing sentiment was rather bearish, the outstanding factor being news that millers at eastern points were acquiring wheat from Canada and that the Canadian visible supply total had been heavily enlarged. Besides, export inquiry continued sluggish, and there was no stimulus in private estimates of farm reserves, the estimates proving similar to the government report of October 1.

Absence of any aggressive support tended to weaken corn and oats. Trading was almost strictly local.

Provisions averaged higher in line with hogs.

To Our Bissel Carpet Sweeper

The steps I step with thee, dear heart,

This little rhyme leads us to say further that we believe the magic carpet sweeper to be the real conveyance of the globe trotter. Besides, with the carpet sweeper we can nigrabulate, and what is more conducive to an active mind than an active body? We ask you.

Probably Henry Ford is inventing that synthetic cow to feed his diversified stock.

### Wheat Shows Slight Decline.

CHICAGO, Nov. 1.—(A. P.)—Notwithstanding a substantial decrease in the United States visible supply total, wheat yesterday underwent a slight decline owing chiefly to imports of duty paid Canadian wheat. Prices closed easy, 1-8 to 1-2c net lower, with December \$1.07 3/4 to \$1.08 and May \$1.12 3/8 to \$1.13 1/2. Corn finished a shade to 1-4c off, oats unchanged to 1-4c lower, and provisions varying from 2 1/2 to 12c advance.

At first, bulls in wheat appeared to have some little advantage on account of correct anticipations of the change in the domestic visible supply figures, but demand failed to broaden out and

## The New Public Service

With so many people driving automobiles, the position of the automobile dealer becomes more than that of a mere merchant with a commodity to sell.

Wherever he is, he is obligated to see that automobile transportation shall be comfortable, safe and satisfactory for all who own and drive cars.

We not only sell Buicks, but we try conscientiously to measure up to this larger conception of the motor car dealer's responsibility as well.
