Business Is Light On Stock Exchange
 NEW YORK, Nov. 8.—(A. P.)—Tuesday's recess (election day) and prospects of another holiday Armistice day caused a visible diminution of business on the stock exchange Monday. There was fairly active trading in bonds, however, some liberty issues mounting to new high records for the year before realizing sales by speculative interests caused a moderate setback. Other incidents included the renewed firmness of money rates, call loans rising from the initial 5 per cent rate to 6 per cent in the afternoon and the further acute collapse of German marks to a level below 3 for 1 cent. Eliminating the more representative foreign and domestic oils at gross advances of 1 to 1 1/2 points and irregular gains of certain of the motor, food

and miscellaneous specialties, the trend in the main was hesitant. Aside from the grangers and Pacific rails were non-existing and equipments, steels and the numerous issues having more or less direct relation to these groups moved within the narrowest bounds. Final prices were confusing, rallies in one part of the list being balanced by lower quotations elsewhere. Sales were 500,000 shares. The minimum figure touched by German marks during the session was .9025, precipitating further reactions in Austria and Hungarian bills. Of the most important remittances, sterling eased slightly with the French and Belgian rates, other European quotations showing little alteration, but far eastern rates continued to ease. Profit taking in liberty bonds and other government issues did not extend to the industrial list, some of that class, notably United States Steel 55,

showing strength. High-class rails also reflected substantial support. Internationals for the most part were higher. Total sales, par value, \$18,250,000.

Frost Reports Help Wheat Prices
 CHICAGO, Nov. 8.—(A. P.)—Material upturn in wheat took place yesterday owing to frost reports from Argentina and to indications of export demand from Japan and other non-European countries. The market closed unsettled, 1 1/2 to 2c net higher, with December \$1.04 1/2 to 1.05 and May \$1.98 1/2 to 1.99. Corn gained 5-8 1/2c to 1c and oats 3-4 1/2c. In provisions, there was a setback ranging from 18 to 32c.

At first the strength in wheat seemed hesitant, being based chiefly on news of Argentine frost, which was unaccompanied by any report of damage. Approaching midday, however, a sharp advance was scored on free buying, which was construed as due partly to short covering for Liverpool account. Simultaneously gossip became current that Japan and India had been purchasing liberally, Japan for the most part taking Canadian wheat. An error in the United States' visible supply figures relating to Baltimore stocks counted also to some extent as a bullish factor. Besides, country offerings in Canada and this country were reported light and smaller receipts were noted as compared with a year ago.

Corn and oats derived their gains from sympathy with wheat. Sales, both of corn and oats to go to store here, were announced.

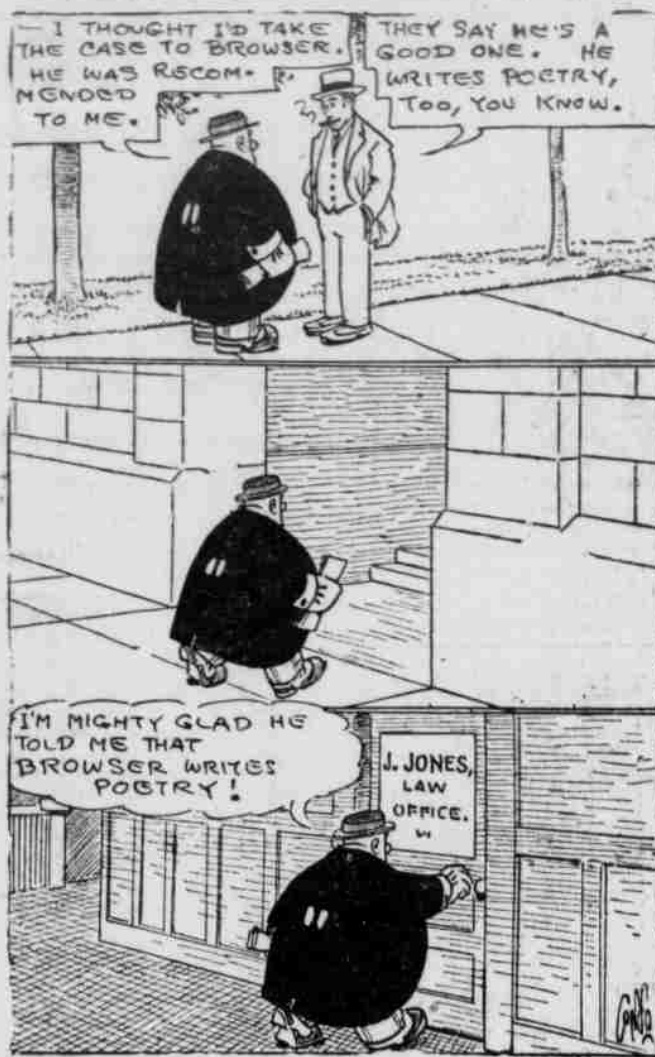

Lower quotations on hogs had a weakening effect on provisions. Lard especially was under selling pressure from commission houses.

DISARMAMENT CONFERENCE

The whole world will during this month have its eyes focused on Washington. It is occasion of the disarmament conference which will be attended by illustrious men of many nations.

What will it bring forth? The pessimist sees nothing but a complete fizzle; the optimist, peace and harmony without navies, perhaps. Neither will happen, but it is possible and it looks hopeful that plans will be laid which at least will mean peace and a better understanding of the needs of the common people, the men who till the soil, turn the wheels of industry and pay the taxes.

PRINCE'S VISIT TO INDIA IS IMPORTANT

LONDON, Nov. 8.—(I. N. S.)—Very high and far reaching results are expected from the visit of the Prince of Wales to India and the Far East. The Prince sailed from Portsmouth on October 26.

A great change in the outlook in India has occurred since the trip was first decided upon. The monsoons have broken the long drought and more than the average rain has fallen; the gloom in industry, and more particularly agriculture has been largely dispelled with the rise of the rupee; frontier fighting has almost ceased; the proceedings of the new Government have not been subjected to that bitter criticism which has been heaped upon it hitherto; but apart from that the feelings of the native tribes have not been assuaged in any degree by the advent of this Prince of Sahibs.

The Prince will especially investigate the conditions surrounding the student life of the young native, particularly at Benares and Aligarh.

The Prince left on the battleship Renown, the same vessel that conveyed him on his last trip to Canada and Australia. The stakes of the voyage were expected to be as follows: Gibraltar, Oct. 29; Malta, Nov. 1; Port Said, Nov. 5; Suez, Nov. 7; Eden, Nov. 12; Bombay, Nov. 17.

The cross-country tour will be from Bombay to Lucknow, with visits to Baroda, Udaipur, Ajmere, Indipur and Allahabad. From that point other towns of interest will be visited in the Granges Valley.

The tour altogether will last until March 17. Then the Prince will leave Karachi for Japan.

During his visit to India the Prince will take part in many spectacular events. An elephant hunt on a grand scale will take place at Nepal. At Gwalior later he will be met by a great procession on elephants; his own howdah will be of richly carved wood with trappings of rich silver cloth, the same as that used by his father on the occasion of the royal visit to the Delhi Durbar.

The Prince also promises to be present at the pig sticking contest 'hunting the wild hog with lances' at Kadir. The first prize-winner in this event in 1883 was Sir Robert Baden Powell, the chief of the Boy Scouts.

WIRE BUSTLE HIDING PLACE FOR BOOZE

WILLIAMSON, W. Va., Nov. 8.—To call Frances Hobbs, a woman resident of this place, a "boozler" would be slander.

The dictionary defines a "boozler" thus: "To sell liquor against the law; so called from the practice of carrying a flask in the leg of a boot."

But getting back to Frances Hobbs, Frances undoubtedly sold contraband liquor of a more or less uncertain quality, but she carried none of it in her boots.

She was arrested by the state police and fined \$100 and sentenced to sixty days in jail by Squire Meek.

Although the state policemen knew Frances had booze on her person they could not locate it until they had another one of the same sex as Frances to do the frisking. To the amusement of the police the woman was wearing a fairly good sized bustle made of heavily padded wire. In this Frances carried several half pints loaded with moonshine.

Just how Frances extracted her booty without trouble the police have not learned. But she was caught passing a half pint to a thirsty resident on a side street and taking his \$2 bill in payment.

Ghandi still holds sway among his Mohammedan brethren, and unless this modern prophet is covered into a better humor the visit of the heir to the British throne to his Britannic Majesty's Eastern domains will not be attended with that outburst of enthusiasm which characterized his visit to Australia and Canada.

The visit is not to be a mere duplication of the visits of other heirs to the British throne when they have wandered abroad to the dominions overseas.

The war has had its effect on the relations between the British Royal family and its Indian subjects. The Prince is therefore going to take every opportunity to show to the colored populations of India the indebtedness the Royal family owes to the native troops.

Will Witness Maneuvers
 The Prince intends to be present at the maneuvers on the Northeast frontier, where all the recent fighting has been taking place. There the famous native volunteer contingents of Hyderabad, Patiala and Kikander flourish. All these provinces are ruled by princes created by the British Government and there, at all events, a royal welcome is assured.

'ROYAL' CARRIAGE GOES UNDER HAMMER

HONOLULU, T. H., Nov. 8.—Recollections of the proud days of the Hawaiian monarchy were revived when the regal carriage which once belonged to the Princess Kaiulani and was later used by Queen Liliuokalani passed under the auctioneer's hammer and was knocked down to a local expressman for \$6.

The ex-regal equipage was brought to Hawaii from New England thirty-five years ago for the special use of Princess Kaiulani, a daughter of the then ruling house of Hawaii, and was used by her and later by "Queen Lili" for many years. It constituted one of the few remaining links binding Hawaii's present to its royal past.

Waiting for the Millennium
 Is it too much to ask that some paper may some day omit the jokes about girls who roll their hose?

Most of our friends are fortified for the winter with the crackling log and the snug teakettle singing its quiet tune. But none can boast a cricket on the hearth. We've never seen one. Sometimes we are almost tempted to doubt whether the little skeeas ever existed.

The war department will save \$40,000,000 this year. We would like to learn their system.
