Wheat Prices Go Higher On Broad Demand

CHICAGO, Nov. 9.—(A. P.)—Bullish sentiment became more apparent in wheat Tuesday than for a considerable time. Some renewal of transatlantic buying of United States breadstuffs, together with a falling off in receipts, helped as a stimulus toward confidence. The finish, although unsettled, was 1 3-8@ 1 3-4c net higher, with December at 1.04 1-2@ 1.04 5-8 and May 1.09 1-2@ 1.09 3-4. Corn gained 1-8 to 1-8@ 1-4c, and oats 1-8@ 1-4c. Provisions varied from 17c decline to 5c advance.

With Holland reported as having purchased hard winter wheat at the Gulf of Mexico and with Sweden said to have taken a liberal amount of rye, wheat moved upward readily, subject only to moderate occasional setbacks. Gossip was current that Italy would be a buyer next week and the market was unaffected by reports that an Italian firm was in financial difficulties. Country offerings proved small and this circumstance, when taken in connection with the much smaller receipts at all points, was deemed of especial significance in some quarters. Much attention was also given to complaints from the southwest that prolonged dry weather was injuring the outlook for the winter crop. Corn and oats were firmer with wheat. Exporters appeared to be after corn as well as wheat and rye. Acute weakness in the hog market carried hard and ribs down to the lowest quotations this season. Later, however, the provision market showed something of a rally, owing to the strength of grain.

Sheep—Receipts, 6000 head. Lambs yearlings and light ewes, steady; top fed lambs, \$8.50; light ewes, \$4.25; heavy ewes, dull and weak; feeders strong; top feeding lambs, \$7.50.

CONFERENCE TO DISCUSS CONTROL OF BIRTH RATE

NEW YORK, Nov. 9.—(I. N. S.)—Mrs. Lewis L. Delafield holds that the movement to control the population of the world is the most important movement in the world today and in the forthrightness of that belief is actively engaged in the labor of helping prepare for the First American Birth Control Conference, which will be held at the Plaza Hotel, New York City, November 11 and 12, and which will close its sessions with a mass meeting at the Town Hall Sunday, November 13.

"The birth control movement has greater bearing, not only on the lives and happiness of women today than any other movement, but it is also connected with the disarmament problem, which is the statesman of the world are considering," said Mrs. Delafield. "Women have been successful in their fight for the suffrage movement and the next great movement for them to become interested in is at hand and crying for their attention—birth control. Woman has been responsible in the past for the explosive populations of the world, and her responsibility has been through ignorance. It is now up to her to acquire knowledge and to do so obstacles that have been put in the way of making the communication of such knowledge legal must be removed."

their fight for the suffrage movement and the next great movement for them to become interested in is at hand and crying for their attention—birth control. Woman has been responsible in the past for the explosive populations of the world, and her responsibility has been through ignorance. It is now up to her to acquire knowledge and to do so obstacles that have been put in the way of making the communication of such knowledge legal must be removed.

"The limitation of population bears directly on the problem of national defense and disarmament. It is safe to say that with proper information communicated to the women of the world half a century ago the world war would and could have been avoided."

"Birth control is a problem for the race and the women must help solve it. The next step in the movement will be to make it legal to have clinics where the information can be given women who desire it. It is also important that physicians be granted greater freedom in communicating this information and, while discretion should be used in giving it, it is the right of every married woman to have it."

An impressive array of speakers has been assembled and a worth-while program has been prepared for this conference, under the supervision of Mrs. Margaret Sanger, the leader of the birth control movement in America. The chief speaker of the conference will be Harold Cox, former member of the British parliament and editor of the Edinburgh Review. He will speak on the question of "Over Population." He is held to be the leading authority on economics and population in the world today. He reached Montreal last week and will come to New York City the latter part of this week.

IMPOLITE POSTAL CLERKS

WASHINGTON, Nov. 9.—(I. N. S.)—Will Hays' postal clerks are becoming so imbued with the chief's "humanizing" doctrines that they're liable to be jerked into court for scaring someone to death. A business man writes the Post Office Department that the clerk said "thank you" when he purchased stamps at the Hudson Terminal station.

THE WORLD ONE NATION

Wells, the great English thinker and writer, advocates the obliteration of boundaries and fusing of all republics, kingdoms and empires into one great nation, thus doing away with tariffs, customs, armies and navies and having only one monetary system and a world's police.

A mere dream now, yet this may eventually be the answer to the intricate problems coming up before the disarmament conference to be held at Washington during this month.
