

DAILY MARKET NEWS, LOCAL AND GENERAL

Including Pendleton Prices and Associated Press Reports

Popular Issues

Go Higher in Value.
 NEW YORK, Nov. 10.—(A. P.)—Large buying orders from speculative sources came into the stock market over the election day recess and prices of various popular issues, especially oil, steel and kindred shares, were substantially enhanced.

The broad demand for oil was materially assisted by more advances for the crude products in almost all parts of the country. In the case of Mexican Petroleum, however, which dominated the market at a net gain of 7 1/2 points, the movement was based mainly on technical conditions, shorts paying heavy tolls.

Rails, steel and like issues drifted aimless, but came briskly forward in the last half of the session. Purchases of these stocks were accompanied by the weekly surveys of trade authori-

ties, which emphasized the more hopeful feeling in that industry.

Shares of concerns which may reasonably hope to benefit by increased holiday business, such as the department stores, also strengthened, but tobacco and several more obscure specialties were heavy or irregular.

Leaders were undeterred by the rise of call money from 5 1/2 to 6 per cent in the final hour, many closing sales being at or near the day's top. Sales were \$65,000,000.

Cables stating that Germany is preparing to meet her next reparation payment accounted for the moderate rally in marks. Sterling was firm, but remittances to most of the other allied countries were moderately lower on small trading. Danish bills were very heavy and far-eastern quotations continued to ease.

Liberty and most other active bonds

were irregular on further profit-taking, the international group also showing on market trend. Total sales, par value, were \$12,675,000.

Low Receipts Tend To Strengthen Prices.

CHICAGO, Nov. 10.—(A. P.)—Wheat displayed fresh strength yesterday, all points showing a falling off in receipts. The markets closed strong, 1 1/2c to 2 1/2c net higher, with December \$1.06 1/8 to \$1.06 3/8 and May \$1.11 1/2 to \$1.11 5/8. Corn gained 5/8c to 3/4c and oats 1/8 to 1/4c. Provisions were unchanged to 2c lower.

It was with but little effect that bears in wheat tried to explain away the evident curtailment of receipts. One assertion was that the falling off was due partly to the coming drop in freight rates, shipments being held back to take advantage of the new rates. It was said also that bad condition of country roads had been more or less responsible. The fact remained, however, that primary receipts were much smaller than a year ago and there were predictions that total primary receipts this week might not exceed 6,000,000 bushels as against recent totals of 9,000,000 or 10,000,000. Notice that no moisture of consequence was reported from Kansas, Oklahoma or Texas despite rain and snow elsewhere, counted as an additional bullish factor. Such setbacks as took place in values proved transient and appeared to be due chiefly to profit-taking.

Corn and oats sympathized a little with wheat, but held within narrow limits, traders doing little while awaiting the government report. Government figures were about as had been generally expected.

Upturns in hogs and possibilities of labor troubles at the stockyards here gave only temporary firmness to provisions. Toward the last quotations had a downward slant, because of absence of demand.

Hogs and Lambs Strong at Omaha.

OMAHA, Nov. 10.—(United States Bureau of Markets.)—Hogs—Receipts 6500 head. Market steady to strong. Bulk, medium and light butchers, \$6.75 @ 7; top, \$7.50; bulk packing grades, \$6.25 @ 6.60.

Cattle—Receipts, 4500 head. Beef steers and she stock mostly steady; top grade, 1944-pound steers, \$9.50; bulls and veals weak; stockers and feeders steady.

Sheep—Receipts, 5500 head. Lamb—strong; bulk \$8.40 @ 8.60; top, \$8.65; sheep slow; ewes \$4 and down; feeders strong; feeding lambs \$8.

OUTBURSTS OF EVERETT TRUE

OFFICE CAT

BY JUNIUS

A Light Lunch
 He eagerly swallowed every word she bestowed upon him; he fed upon her every look, he lived upon the smiles she gave him.

Some men kiss their wives; others don't shave.

And Why Not?

An aviator must shudder when his motor stalls at a height of seven and three-quarters miles. At such an altitude, however, he has a good deal of time to study the book of instructions.

Nothing so unsettles a man's mind as a lot of unsettled debts.

We suggest for the young lady who is giving the intelligence tests in Pendleton schools the old, old one about "Which is heavier, a pound of feathers or a pound of lead?"

"Good English Week" is for the ones who find their "Good English Weak."

NEW LATVIAN NAVY IS STRONGEST IN WORLD

LONDON, Nov. 10.—(I. N. S.)—What is probably the strangest navy in history has just sprung into being. The little Baltic State of Latvia recently decided that it must have some warships to protect its long coastline and prevent smuggling, and so it has now put into commission a battle fleet of three armed tugboats.

Not content with this armada, Latvia has decided to have a flagship for it. Her first "battleship," the Versatti, will be launched this month, and it will be a vessel of 525 tons, with a speed of seventeen knots.

The Versatti has had an interesting if inglorious career already, for she is nothing less than the old German guardship EM-68, which was sunk in Latvian waters in 1917 and has now been raised and renovated.

She is certainly the only guardship that has risen from the depths of the sea to the dizzy heights of becoming the flagship of a battle fleet.

YOUNG GIRLS NEED CARE

Mothers! Watch Your Daughters' Health

Health Is Happiness

From the time a girl reaches the age of twelve until womanhood is established she needs all the care the thoughtful mother can give.

The condition that the girl is then passing through is so critical and may have such far-reaching effects upon her future happiness and health that it is almost criminal for a mother or guardian to withhold counsel or advice.

Many a woman has suffered years of prolonged pain and misery through having been the victim of thoughtlessness or ignorance on the part of those who should have guided her through the dangers and difficulties that beset this period.

Mothers should teach their girls what danger comes from standing around with cold or wet feet, from lifting heavy articles, and from overworking. Do not let her overstudy. If she complains of headache, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, make life easier for her. She needs thoughtful care for a few years.

In all such cases Lydia E. Pinkham's Vegetable Compound should be given as it is especially adapted for such conditions. It contains nothing that can injure and can be taken in perfect safety.

Read how Mrs. Eicher helped her daughter. She says: "At the age of sixteen my daughter was having trouble every month. She had pains across her back and in her sides. Every month her back would pain her so she could not do her work and would have to lie down. My married daughter recommended Lydia E. Pinkham's Vegetable Compound and I read the books which were left at my door. She took it faithfully and I read the books, and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter in your little books and in the newspapers."—Mrs. KATIE EICHER, 4034 N. Fairhill St., Philadelphia, Pa.

Mrs. Williams will profit by her own experience. She says: "When I was thirteen years old I had sick spells each month and as I was very backward I would bear the pain and my mother knew nothing about it. I read in the daily paper about Lydia E. Pinkham's Vegetable Compound and took my own spending money and bought a bottle. It helped me so much that I took it regularly after that until I had taken two bottles and I did not have any more pain or backache and have been a healthy, strong woman. I am now 30 years old and have a little girl of my own, and when she gets old enough I shall give her none other than Lydia E. Pinkham's Vegetable Compound."—Mrs. C. E. WILLIAMS, 2437 W. Toronto St., Philadelphia, Pa.

For almost fifty years Lydia E. Pinkham's Vegetable Compound has been relieving women, young and old, of ailments peculiar to their sex. Ask your neighbor about it, for in every neighborhood there are women who know of its merits.

Thousands of letters similar to the above are in the files of the Lydia E. Pinkham Medicine Co. and for years such letters have been published. Surely it is worth your while to make a fair trial of Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

THE LARGEST CHAIN DEPARTMENT STORE ORGANIZATION IN THE WORLD

ARMISTICE DAY STORE CLOSED

OCEANS OF BOOTLEG LIQUOR IS SEIZED

CHARLESTON, W. Va., Nov. 10.—(I. N. S.)—More than 100,000 gallons of moonshine whiskey were seized in West Virginia during the first nine months of this year, according to figures obtained from the office of Prohibition Commissioner Walter S. Hallahan when he turned the office over to W. G. Brown, the new commissioner.

These figures do not include the "old hen," the "pick handle," home brew, wine and a variety of other concoctions of cruder manufacture seized, estimated at several hundred thousand gallons.

According to the official figures 106,500 gallons of moonshine were confiscated between January 1 and October 1. A total of 850,510 gallons of mash was destroyed during the same period. Still seized totaled 591 while 1,650 arrests were made.

That moonshine is not confined to the mountain fastness is indicated by the fact that Kanawha county, in which is located the seat of the state government, topped the list of counties in the number of stills confiscated, with a total of 214. Arrests in Charleston and Kanawha county numbered 214, while 266,275 gallons of mash were destroyed and 1,151 gallons of whiskey seized.

In one raid, on George's Creek, about six miles from Charleston, state prohibition officers seized six copper stills, some of which were in operation. The following day, in the same vicinity, three more were captured.

April, with 156, leads the months in the number of arrests made, with February taking first place in the number of stills destroyed—194. The largest amount of whiskey was seized in March, when 3,829 gallons were confiscated, the largest quantity of any of the nine months.

WIFE OF PRESIDENT BELIEVES GIRLS SHOULD LIVE IN THE OPEN AIR

NEW YORK, Nov. 10.—(A. P.)—Open air life and healthful games for girls are favored by Mrs. Warren G. Harding. In a letter to Mrs. Oliver Harriman, national president of the Camp Fire Girls, the wife of the President writes:

"I have never been able to imagine any reason why the Camp Fire Girls should not be just as useful an organization for the girls as the Boy Scouts. Moreover, it seems to me that girls need this kind of indulgence to open air life and healthful games and occupations, quite as much as the boys. The part that women play in the world has been greatly changed even in my own generation, it has been broadened and enlarged and we will be wise if we recognize that a larger consideration for the health and physical advancement of the girls will better fit them for the role they must assume."

SHIP FOR MISSIONARIES.
 LONDON, Nov. 9.—(I. N. S.)—A new departure in mission work has been made by the Salvation Army, which has chartered the Wilson Line Calypso as a missionary transport to contingent of missionaries and their families to India and Ceylon.
