UNITED STATES WILL SUPPORT CHINA'S AIMS FOR AN "OPEN DOOR" IN ORIENT

GARDNER WILL NOT BE TRIED ON HIS PHOENIX ROBBERY

Federal Government Will Indict Him on Other Charge; Remove Him to Leavenworth

EXPRESSED SATISFACTION AT NOT BEING RETRIED

Had Little Doubt But That He Could Raise \$100,000 Bond Money for His Freedom.

UNDATED, Nov. 17.—(U. P.)—The federal government will not try Gardner for attempted robbery of the Phoenix mail car, nor for the attack on Inderled, the mail clerk who captured him, though it will indict him on the other charge and will remove the bandit to Leavenworth immediately.

Gardner expressed satisfaction at the prospect of not being tried for the attempt at Phoenix. He had little doubt but he could raise \$100,000 bond money for his temporary freedom.

Will Not Go to McNeil's PHOENIX, Nov. 17.—(U. P.)—Roy Gardner, the famous bandit, captured while robbing a mail car, will go to Leavenworth and not to McNeil's Island, the department of justice instructed the local officers. Gardner will probably not be charged with robbery for his latest escapade.

However, he is preparing to raise a \$100,000 bond to secure his freedom while the authorities investigate this point.

Escapes Will Be Ended. "If we get Gardner to Leavenworth," said United States District Attorney Joseph Dillon today, "his escapes are ended. Leavenworth is not McNeil's." Dillon admitted he would feel "lots easier" when the prison doors clang shut on the bandit. Dillon will himself escort Gardner to the prison, in addition to two other guards, it was announced. The party will leave Saturday night. Federal authorities denied the news of a report crediting them with seeking the death penalty for Gardner under the old Arizona territorial law providing capital punishment for an attempted train robbery.

Not in Tight Mind. SAN FRANCISCO, Nov. 17.—(U. P.)—Dolly Gardner, wife of the notorious bandit, working in the toy department of a San Francisco department store said today she did not believe her husband is in his right mind. "If he were he would not try to do these things after the train after getting away from prison such a short time ago shows his mind is not right. I knew many years ago I would have to face this. If he had known what he was doing he would not have thrown away his chance for freedom like that."

Arrested for Assault PHOENIX, Ariz., Nov. 17.—(A. P.)—Roy Gardner, the mail robber, was accused today in a warrant with criminal assaulting Maria Munoz here October 24. The sheriff said the girl identified Gardner as the man who attacked her.

WASHINGTON, Nov. 17.—(A. P.)—The department of justice today ordered Gardner tried on a charge of attempted mail robbery instead of sending him to Leavenworth.

HINDLEY DELIVERS ABLE ADDRESS TO PENDLETON COMMERCIAL MEETING

HOT HINDLEYISMS. Merchandising gave birth to moral consciousness. Exchange brought forth the excuse for honor and other virtues. We are only American and Christian as our business is American and Christian. When you folks vote to equip an auto campground, I hope you equip it with comforts and even with some luxuries. My family and I will drive through Pendleton next June on our way to San Francisco, and while we are your guests, we want to be comfortable. The products of the consumers of this country are better sold than the products of any other country. Selling goods is just as important as growing products or making goods. Never let us on advertising when demand becomes slack. Advertise and so help to increase demand. Normalcy will come when we see selling restored. Keep your dollars at home.

Speaker Dwelt on Relative Importance of Merchant in Present Organization of Society. In the beginning of civilization, merchandising gave birth to moral consciousness, the standards used by our merchants now determine the degree to which we are Americans and Christians; and our return to what has been termed normalcy will be decided when selling is restored, were three keynote declarations by Dr. W. J. Hindley in a speech before the membership of the Pendleton Commercial Association at the Elks lodge room last night. Dr. Hindley, ex-mayor of Spokane, and at present director of education of the Washington State Retailers' association, dwelt on the relative position and importance of the merchant in the present organization of society, and he presented facts and figures which have been discovered by the merchants' organization in Washington showing that the man who is the chief figure in the process of distribution has not been given the credit due him.

SEVERAL CASUALTIES OCCUR IN DISTURBANCE

BOMBAY, India, Nov. 17.—(A. P.)—Coincident with the procession of escorting the Prince of Wales through Bombay today, serious disturbances occurred in the native quarters, attributed to agitation by the followers of Mahatma Gandhi, "non-co-operation" leader. There were several casualties. The procession, however, was not marred by any untoward incident.

SPIRIT OF PENDLETON MANIFESTS ITSELF ADMIRABLY IN RESPONDING TO ANNUAL RED CROSS ROLL CALL SAYS CITY CHAIRMAN

Rev. G. L. Clark, city chairman of the Red Cross Roll Call, is well pleased with the results of the campaign in Pendleton.

"The spirit of Pendleton is manifesting itself admirably in responding to the opportunity offered to become members of the Red Cross," said Rev. Clark. "No head-line advertising has been done; that is unnecessary. The people know what the Red Cross has done and is doing—it is you, Friend Citizen, working among those who need help, whether by sickness, by accident, by war or by misfortune of any kind. The Red Cross is YOU."

"By Saturday evening the city will have been thoroughly canvassed by the large corps of workers who have put their own work aside and have gone all over Pendleton giving the people an opportunity to join.

"Large amounts are not insisted upon. The annual membership is but one dollar per person and the goal is 4000 membership in Pendleton. Some are gladly doing more than taking out an annual membership. There are some whose hearts are larger than their pocket-books and if it were possible they would gladly do more. But God forbid that it should ever be said, truthfully, that there are those in Pendleton whose hearts are smaller than their pocket-books. The Red Cross is not begging. It is giving an opportunity to do good, to help and to show citizenship and loyalty to humanity. Indeed it is—

"The Union of all who Love In the service for all who suffer. For your love and for your service humanity thanks you."

On Saturday Pendleton workers will establish booths at the Hotel S. George and Hotel Pendleton, for the purpose of securing memberships. Until November 24, booths established at drug stores, banks and department stores will be used by workers in taking the names of members.

PLAIN WARNING GIVEN LOCAL MEN NOT TO BUY FROM WALLA WALLANS

That is behooves Pendleton men to "trade at home" when buying intoxicants, if they intend to do that illegal practice, is the moral drawn in the following story which appeared in the Walla Walla Bulletin.

And here are the hoodluggers going to make a living if this goes on? This is the question at least one professional bootlegger is asking himself today.

It all happened one night early this week when three or four Walla Walla residents made a pilgrimage to Pendleton. Before leaving one purchased a bottle of white wine from a local bootlegger at his usual "stand." On the way to Pendleton one professional bootlegger consumed about half of his bottle and uttered just about as much of a "bun" as he thought best to carry and being a frugal man, he thought of a plan. Arriving in Pendleton he made his way to a water tap, filled the half-empty bottle with mountain water and proceeded to go forth and sell the bottle of resulting beverage for exactly the same price he paid in Walla Walla. One of his friends took him to task because he did not make a profit on the transaction.

U. S. DELEGATES SUPPORT CHINA IN HER PROPOSALS

Suggestion Made for Reconvening Far Eastern Conference at Stated Intervals.

CHINA IS DISPOSED TO SHOW SECRET TREATIES

Japanese Delegates are Unwilling to Have China do This, Being Anxious to Forget.

WASHINGTON, Nov. 17.—(U. P.)—The United States will support China's aims for an "open door" and her proposal of an agreement for a peaceful settlement of international disputes in the far east, and her suggestion for reconvening the far eastern conference at stated intervals for the "determination of common policies."

China Would Offer Treaties. China seems disposed to bring forward some secret treaties for the conference's consideration. Japan is unwilling to have China do this, being anxious to forget the past. China, in an effort to insure the conference according to her recognition of territorial integrity, is anxious to offer treaties and documents tending to show Japan, as one of the allies, flirted with Germany in 1916, but never concluded the treaty; that the Japanese served in the Russian army which took the Mongolian capital; that Japan, instead of being a trustee for Shantung, really secured economic supremacy there. Japan is willing to surrender her political and military occupation of Shantung, but insists the conference recognize her special interests in Manchuria whose Manchuria was dealing with the Chinese affairs.

Oppose Naval Holiday Program. WASHINGTON, Nov. 17.—(U. P.)—The United States in the future sessions of the arms conference will generally oppose Britain's suggested modifications for a naval holiday program. The American delegation, while approving outlawing the bigger submarines, will oppose Britain's suggested cut of 50 per cent in the submarine tonnage allowed this country and the Britons.

Ask For Short Delay. WASHINGTON, Nov. 17.—(A. P.)—Admiral Baron Kato today asked and received from the heads of the delegations of the nine participating powers, a delay of several days to allow an examination of the Far Eastern proposals submitted to the conference yesterday by China. The French attitude was set forth as follows: First—France desires earnestly to aid China realize her aspirations, territorial, political and commercial. Second—France would give up Kouang Tchenn, which she leased from China in 1895, provided Great Britain gave up Wei-Pei-Wei and Japan Shantung, leased by the Germans at the same time, and the Port Arthur Peninsula. Third—France is not unwilling to surrender her extra territorial privileges were other powers willing to do the same.

With today's meeting the far east discussion and those relating to armament began to follow entirely independently and there was a growing impression that sooner or later all interested nations would come to view that fortunes of the two are not inseparably linked. American delegates do not feel that the armament's program need be a failure if the Far Eastern discussion fall short of the agreement.

Will Meet on Wednesday. The next conference public session has been tentatively fixed for Wednesday, November 23, when Premier Briand of France, will have an opportunity to discuss land armaments before leaving for home. The heads of all the delegations are meeting as a sub-committee to discuss China's proposals made yesterday. The admiral's committee continue to study the proposed modifications of Secretary Hughes' naval program. The American advisory executive committee is in session.

Completed in Two Months. WASHINGTON, Nov. 17.—(U. P.)—One of America's four delegates today estimated the arms conference would finish its work within two months. There has been better progress so far than the delegates expected.

WASHINGTON, Nov. 17.—(U. P.)—Japanese ambassador Shidehara's illness will delay the consideration of the Chinese problems two days, according to reliable information. The conference desires to decide upon Chinese status before turning to other Far Eastern problems.

HARDING SIGNS BILL. WASHINGTON, Nov. 17.—(A. P.)—President Harding signs a bill extending the emergency tariff until permanent tariff legislation is enacted.
