## FRENCH ARMY DISCARDS THE BLUE FOR KHAKI

PARIS, Dec. 1.—(U. P.)—Khaki is to be the color of the uniform of the French "police" of the future. The horizon blue is doomed. The decision was arrived at by military experts and favorably passed upon at a meeting of the cabinet. The new regulation to come into effect when the surplus cloth manufactured for the army is exhausted. Such is the quantity of cloth in stock however, that it is estimated that the change will not take place for several years.

A good deal of sentiment attaches itself to the blue uniform for its personifies the hero of the great world war whose picture thus attired lives on in the memory of France, a symbol of the day when the flower of her manhood rose to defend.

## OREGON MAN AUTHOR OF GOOD BOYS' BOOK

The "Spell of the Shang Kambou" and other stories by Dennis H. Stovall has just been published by the Standard Publishing Co. of Cincinnati. It is a book that will hold much charm for young people, particularly boys. The stories are of the outdoor variety, full of life, adventure and mystery. They have genuine reader interest.

The author is an Oregonian and lives near Corvallis. He is an O. A. C. graduate and during his senior year in college was editor of the College Barometer, student publication. He has devoted most of his time during the last 20 years to writing juvenile stories for which he has an excellent talent. His stories have usually appeared in magazines and this is the first time his work has appeared in book form.

Here is the publishers view of the new book:  
Where is the average boy who can resist the lure of the mysterious, together with that of thrilling adventure? "The Spell of the Shang Kambou" is filled with both. The episode of "Arabian Nights" are no more startling or exciting than the story of the magic power of the secret drug known to the ancient Llamas of Tibet as the "Shang Kambou".

A draught of it, and our young hero is a warrior of centuries ago—a cliff dweller, together with the other stalwart men of his tribe, engaged in fierce battle with the arch-enemy, the redskins.  
The abduction of Major Willard, the veteran scientist and traveler, discoverer of the wonderful drug, and his rescue by the hero to whom he had confided many of his amazing experiences in foreign countries, supply thrill after thrill.  
The adventures experienced by the one lad, while under the influence of the magic fluid, play an important and unexpected part in the finding and release of the major. Full of action to the very end, "The Spell of the Shang Kambou" will delight all boys, from sixteen to sixty.

## FAMOUS FRENCH ACTRESS SELECTS BURIAL PLACE

PARIS, Dec. 1.—(U. P.)—With the purchase of a tiny islet in the Bay of Biscay, Sarah Bernhardt has practically completed preparations for her death. The little rocky island is only a few acres in extent, lying a number of miles off mainland near Belle Isle, where she has a summer home. Bernhardt has specified that she be buried on the island. The island was purchased from the French government for 1200 francs.

It is understood that Bernhardt has made detailed plans for her funeral and the design for the tomb to be erected upon the isle. It is well known that she has already purchased the casket in which she desires to be interred. Despite these preparations Bernhardt is as lively and vivacious as ever. She is appearing every night in "La Gloire" at her theatre and critics declare that her art is as great as at any time in her career.

## EDUCATION LEGISLATION IS BEING DISCUSSED

URBANA, Ill., Dec. 1.—(U. P.)—Leading instructors and professors in the United States, Congressmen and United States Senators were gathered here today in what is probably the first conference of its kind to give their views on the question as to what relation the Federal Government should have to education.

Should Federal legislation on education promote domination of State and local authority in education matters by Federal agents?

This question which is before the distinguished gathering is one which is being given much concern in the country today. A great many of the country's leading educators feel that such legislation is in the wrong direction and the opinion of educators and statesmen is being sought.

President David Kinley, of the University of Illinois, called the conference because of the increasing public discussion on such subjects as a Federal Department of Education, Federal aid to education and kindred topics.

The conference has brought here presidents of practically all of the universities of the Middle West as well as a large representation of schools and colleges throughout the country. Many State officials also are present.

United States Senator Thomas Sterling, of South Dakota, Congressman Horace M. Towner, of Iowa, and several of the country's leading authorities on educational matters are on the programme.

Among the latter are Samuel P. Capen, director of the American Bureau on Education, E. W. Allen, chief of the United States office of Experiment Stations; Eugene Vanoy, dean of the College of Agriculture, University of Illinois; W. O. Thompson, president of Ohio State University, and David Kinley, president of the University of Illinois.

Among the topics to be discussed are the following:

"The Early Effects of Congressional Appropriations for Education," "Review of Recent Federal Legislation on Education," "Relation of State and Nation in Educational Policy," "Problems of Administering Federal Appropriations in State Institutions," "Problems of State Universities in Administering Federal Funds," "Federal Aid to Education. Its Justification, Degree and Method," "Constitutional and Political Significance of Federal Legislation on Education."

The scene of the play is the United States, the time, present. The seniors are capable of presenting such a play in good fashion; this fact was shown last year, when they gave the junior play. The cast will be chosen in the near future, and preparations for practice will commence.  
The elected business manager is George Childs, the property manager is Arthur Frankum.

Three fast and snappy interclass basketball games were held in the gymnasium Tuesday evening. During that time the senior boys midgets defeated the junior midgets by the score

Up to this time the other classes have boasted that the seniors have no pep. This is not true, because at the games Tuesday night the senior teams were staunchly supported by rooters and they made more noise than any other class members on the floor.

## DARLING BABY BRIGHTENS HOME

### Children's Laughter a Pleasing Sound

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We had six children die almost at birth. From one hour to nineteen days in all they have lived. Before my next one was born I took a dozen bottles of your Vegetable Compound, and I can say that it is the greatest medicine on earth, for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Everybody says 'That is a very healthy looking baby.' You haven't consented to show these few lines to anybody."—Mrs. C. W. Benz, 131 3rd Avenue, Altoona, Pa.

**Mrs. Janssen's experience of interest to childless wives.**  
Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."—Mrs. H. H. JANSSEN, Blinton, Wis.

**Mrs. Held of Marinette, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:**  
Marinette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and you may use my letter as a testimonial."—Mrs. H. B. HELD, 330 Jefferson St., Marinette, Wis.

There are many, many such homes that were once childless, and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it acts as a natural restorative for ailments as indicated by backache, irregularities, displacements, weakness and nervousness.  
Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once darkened by illness and despair.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.
