RUTH AND MATES MAY GET TO PLAY IN SOME OF PRE-SEASON GAMES

Judge Landis May Change Ruling in Order to Make Conditions Easier for Colonels.

NEW YORK, Dec. 19.—(I. N. S.)—Before Judge Landis issues the official order barring "Babe" Ruth, Bob Meusel and Bill Piercy from participating in championship games with the Yankees until after May 29 of next year he probably will modify it to permit the "Three Musketeers" to accompany the team on the Spring training trip and to take part in exhibition games before the regular season opens.

An arrangement of this sort will greatly relieve the present situation, which is causing some embarrassment. While the owners of the New York club assure Landis of their support in this case they are facing a heavy loss, which may be greatly lessened if the Judge will consent to a Spring armistice.

Even then the players would lose their world's series money and more than five weeks' salary, amounting to a few thousand more, but the club would have them trained and ready to go as soon as the suspensions are lifted. Such a compromise is no more than fair to the club owners, though there is little comfort in it for the real transgressors.

Judge Landis is not altogether familiar with conditions governing the control of Major league players on training trips. When he imposed his sentence on Ruth he probably estimated the total damage as a loss of pay from April 12 to May 29, plus the world's series money. It is believed that he will now down the official order by permitting the players to condition themselves next spring at the New York club's expense, but without any salary returns.

Once the Yankee colonels can convince the Judge that a Spring training loophole in the Ruth verdict will satisfy their task will be to persuade the three players not to take any legal steps toward recovering their world's series money, which amounts to more

And Here's Another

than \$10,000 and is now held in escrow by the National Commission.

Ruth, with a big salary dangled in front of him and other inducements pointed out, may consent to drop his claim to the world's series prize. This money could be made up to him in other ways. But Piercy, who doesn't expect to be with the Yankees next year anyhow, and Meusel, whose income does not begin to approximate Ruth's probably will not yield so easily. Meusel has already declared himself. Regardless of his future in baseball he will go into the courts to collect money he has already earned.

There are many perplexing angles to the Ruth decision. For instance, suppose Judge Landis decides the players can play ball on a training trip. Will he confine their ball playing to mere scrub games or will he permit these men to participate in exhibition games where admission is charged and the Yankees meet major league opposition?

The Yanks, after deducting heavy expenses, cleared about \$20,000 on their training trip last year. Without

Ruth as an attraction they could easily lose that much. A decision keeping him out of the Spring exhibition games will start the club off with a loss of \$50,000 before the pennant race begins.

FOOTBALL FINDS BIG FOLLOWING WITH HAWAII

HONOLULU, T. H., Dec. 19.—(I. N. S.)—Hawaii has gone football crazy!

The great American college game, which is just now occupying the centre of the stage on the mainland, is no less prominent in the sunny isles of Aloha. In the city of Honolulu, besides an interscholastic league which includes teams from five of the big schools with high school departments and the freshman team of the University of Hawaii, there is a city league of four teams, including the National Guard and the University of Hawaii varsity and other leagues at army posts near the city.

The quality of football put up by these teams, on which Hawaiians are prominent and in many instances star players, compares favorably with that played on the mainland, as attested by the close scores of games played between the University of Oregon and University of Hawaiian teams during the Christmas season of 1920. The coaching of former stars from Yale, Harvard and other big mainland schools is helping to develop high-class football in the islands, as is competition with mainland eleven, which, with Oregon making another invasion this winter, now seems assured as an annual event.

ARCADE SUNDAY AND MONDAY

Alfred L. Lennon, famous Scotland Yard inspector and accredited captor of Hop Toy and his notorious gang of London white slavers two years ago, after attending a private showing of "The House of Whispers," the latest Hedrickson release, to be shown at the Arcade theatre Sunday issued the following statement:

"There have been mystery plays and mystery plays, but this photodrama is the most baffling and entertaining exposition of criminal craft I have ever witnessed. The average mystery play is ludicrous, without plausibility—an insult to human intelligence. You may enter a picture house almost any day and see "Green Eye," alleged master criminal, baffle an entire metropolitan police force by using ultraviolet-rays to kill off his enemies. Or perhaps "Shifty Louis" will create international consternation by opening bank vaults with wireless. Or "Canny Mike," the make-up king, will kidnap the nation's secret-service chief, disguise himself as his captive and proceed to disrupt the service from the Federal Building in Washington.

sists of three large rooms, with a beautifully finished exterior and gardens. These gardens are the perfect handiwork of skilled landscape decorators. Climbing vines, flowers, graceful trees are beautifully arranged, and a pretty fountain graces the center of the little patio. All of this was set up on the studio stage floor.

Romance is the outstanding theme of the picture, and the setting, which is supposedly the home of Aunt Betty, a pretty woman of mature years who has been disappointed in love in her younger days, in design and effect is such that it inspires romance.

Ford owners!

Does your car crank hard and creep forward in this cold weather?

If the clutch adjustment is correct, your trouble is probably caused by using an oil that does not flow freely at low temperatures. The oil congeals between the plates of the clutch, binding them together as if your high speed were partially engaged.

Zerolene No. 1 (Light) flows freely at low temperatures and gives correct lubrication from the start.

Because of its low cold test it eliminates sticking of the clutch plates, hard cranking and excessive wear on bearings and cylinders while the engine is warming up.

Drain your crankcase, fill with Zerolene No. 1 (Light) and forget cold weather lubrication troubles.
