MISS WOODWARD WEDS

A pretty home wedding was solemnized on New Year's Eve when Miss Eva Woodward of Walla Walla became the bride of Clarence E. Evans. The ceremony was solemnized at the home of the bride's mother, Mrs. Laura Woodward, at 8 o'clock, the Rev. A. R. Liverett, pastor of the Christian church officiating.

The bride and groom were attended by four grandchildren of the Woodward family. Misses Delpha Woodward and Laura Elizabeth Woodward were bridesmaids. Miss Mary Jane Woodward, strewed the pathway of the bridal party with rose petals from the basket she carried, and Master Don Woodward was ring bearer. Preceding the advent of the party, Mrs. David Stone of Athena sang two solos, "O Promise Me," and "Her Rose." She also played Mendelssohn's wedding march.

The bride was becomingly gowned in a white Canton crepe dress with hand embroidered work. She carried a bouquet of bride's roses. Immediately after the ceremony a luncheon was served by Mrs. Casper Woodward and Mrs. George Woodward. The ceremony was witnessed by relatives and very close friends, and after a visit there, they will go to Halsey, Oregon, where the groom is engaged in the business of raising purebred Holstein cattle. Mrs. Evans is a former Umatilla county girl. She is a graduate of the Weston Normal, and has been prominent in church work. A number of relatives from Pendleton were present at the wedding.

WHEAT OUTLOOK

(Continued from Page 1.)

the first of December. The growth of plants very small. Sherman—The present moisture supply for this time of year is more than usual. Had over 4 inches in November. Nearly all wheat is up but not as far advanced as last fall. Some early sown wheat will have to be reseeded.

Umatilla—(Pilot Rock)—The moisture at early seeding wasn't very plentiful. At the present there is plenty. Farmers that took chances on the early dry seeding, have grain that looks better than it has for the past few years in this part. (Pendleton)—Our crop is in poor shape on account of weeds and spotted. We reseeded about 15 per cent and expected to reseed more but on account of snow had to stop. Snow helped a lot.

Union—Ideal seeding conditions where summer fallow was plowed early. Some dry land had to be worked on after rains. Moisture plentiful now. Wheat well along. Stand too thick in a few places, weeds bad in others.

Wallowa—Was very dry at seeding time. Only about 50 per cent came up. Have plenty of moisture at present. Plants are very small and puny.

Wasco—The early sown wheat is quite uniformly poor due to dry ground at seeding time. Some grain was reseeded on that account. Rains did not come until late causing much extremely late seeding which was barely up when the snow came.

BELFAST TOO LIVELY.

BELFAST, Jan. 2.—(U. P.)—Night shooting and bomb throwing opened the new year here. One person was wounded. Shooting sounded all through the city during the night hours.

OUR bread is a good food. It is well made of the finest materials obtainable and is baked by master bakers in a modern sanitary bakery. It is a bread that never disappoints.

Harmony

It's something more than beauty of material and color which makes the woman well dressed! The secret of the really effective ensemble is in the apparent relation of every part to every other part. There's a harmonizing note of Russian peasantry in this Erpf and Garbe blouse and Idare hat.
