MONTHS OF SUFFERING

How a Baltimore Girl Recovered Her Health

Baltimore, Maryland.—"For several months I suffered with severe backache and general weakness. I could not sleep comfortably at night for pains in my back. I found your book at home one day and after reading it began at once to take Lydia E. Pinkham's Vegetable Compound. I have had very good results and some of my girl friends are taking it now. You may use this letter to help other girls, as the letters in your book helped me." — ROSE WADNER, 3018 Roseland Place, Baltimore, Md.

That is the thought so often expressed in letters recommending Lydia E. Pinkham's Vegetable Compound. These women know what they have suffered, they describe their symptoms and state how they were finally made well. Just plain statements, but they want other women to be helped.

Lydia E. Pinkham's Vegetable Compound is a medicine made from medicinal roots and herbs, and without drugs, to relieve the sickness women so often have, which is indicated by backache, weak feelings, nervousness, and no ambition to get anything done or to go anywhere. It has helped many women. Why not try it?

THYRE FAILS TO THROW NELSON IN TIME LIMIT

Ray McCarroll's stock went up a notch Tuesday night when Ted Thyre of Portland failed to win his wrestling match with Carl Nelson at Walla Walla. Thyre had agreed to throw Nelson twice within 75 minutes, and he wrestles McCarroll here tomorrow night and has agreed to put the local boys' shoulders to the mat twice within 60 minutes or forfeit the match.

Thyre's first fall against Nelson Tuesday night came after 53 minutes of fast hard work, a double wrist lock and a leg scissors proving the undoing of the Walla Walla man. They came back for the second trial, but the bout went 17 minutes without Thyre securing a fall, and he lost. McCarroll was referee for the go in Walla Walla.

Interest in the go here Friday is very keen and local fans believe that the healthier atmosphere now prevailing in the wrestling game in local circles will result in the attendance being up to the standard that was established recently when Singh, the Hindu, won from McCarroll when the latter was unable to resume after two falls were evenly divided.

Walla Walla is very much interested in the mat game at present. Thirty-five tickets for Walla Walla have been reserved for the bout tomorrow night at the Eagle-Woolman hall. Milton-Freewater is also taking a keen interest in the game, and 12 tickets have been laid away for fans in the Twin Cities.

Thyre arrived in town last night from Walla Walla, and he is busy working out for the go. He is in first class condition and will be in for business from the start, he declares.

McCarroll and Nelson will meet at Walla Walla January 27 to decide the championship as between the two. McCarroll will have to make 165 pounds, ringside.

FIND KEY TO GOLD HIDDEN 150 YEARS

SPRINGFIELD, Mo., Jan. 12.—(U. P.)—The key to \$2,500,000 worth of Spanish gold, hidden in a cache in the wilds of the Ozark mountains in Arkansas more than 150 years ago by a party of settlers to keep it from falling into the hands of Indians, was reported found today.

Anthony Fenninger, who is forming a company in Denver to search for the hidden treasure said 22 years ago the Spanish government conducted an extended hunt for it, but the search, like others privately made since that time, eventually was dropped.

That he had discovered the key to the chartered cache was the assertion of Fenninger. He and a group of prominent Denver business men plan to search for the gold early in the spring.

"I knew nothing of the buried treasure until I went to Eden's Bluff in the White River country on a squirrel hunt last fall," Fenninger declared. "Across the river from the bluff I stumbled over a stone covered with hieroglyphics. I scurried the dirt and moss from the inscription and called the attention of the find to a native. This native told me an extended search for the treasure had been made by the Spanish government 22 years ago."

The settlers were killed by the Indians after the treasure had been hidden, according to Fenninger. A party of native Arkansas is supposed to have unearthed the tunnel to the cache 10 years ago, but abandoned the search after one of the members had been killed by a landslide.

THIS TEXAN ROPES DEER HUNTING ON HORSEBACK

SAN ANGELO, Texas, Jan. 12.—(U. N. S.)—Deer hunters who "acclaim" it's some feat to bring down a big buck by a rifle shot have a new trick to learn from Bascomb Cox, a prominent young Crockett county ranchman.

Cox goes deer hunting on horseback and "ropes" his game from the saddle. On a recent hunting trip near Ozona, Cox lassoed a big buck while on horseback, roped and tied the pawing buck to a fence and then, with the aid of his father, brandied the antlered monarch, using a pocket knife for a branding iron. The deer was then released.

HERMISTON MAN KICKED IN NOSE BY A HORSE

HERMISTON, Jan. 12.—Milo Bodie, of Mabton, Wash., had his nose badly broken by a kicking horse Sunday. Although the injury was painful, it was not serious. Fourteen stitches had to be taken by the doctor after the splintered bone had been removed.

A basketball game was played by the Hermiston High and an American Legion team last Friday night. Although a fast game was played by both teams, the superior weight and experience of the Legion won the game.

A new way to treat croup
Spasmodic croup relieved or warded off by rubbing on a vaporizing salve.

The old method of treating spasmodic croup with nauseating drugs is out of date. So is the vapor-lamp scheme that required the bedroom windows to be kept closed. Now mother rubs the little one's chest and throat with Vicks, arranges the bedding so that the arising vapors will be inhaled all night long, opens the windows to let in the blessed fresh air, and retires—confident of a good sleep.

Vicks has come to be the most universal treatment for children's cold troubles, because it does away with dosing. Vicks contains the old, time-tested remedies—Camphor, Menthol, Eucalyptus, etc.—combine by special process, so that while they penetrate and stimulate the skin, the ingredients are all released as vapors by the heat and are breathed right into the lungs.

Just rub it on and breathe in the vapors
