

News Notes of Pendleton

Labor Day Jan. 29.
January 29 has been designated throughout the United States as Child Labor Day. It will be observed in Oregon, and on January 30 will be observed in schools and colleges.

Degree Team to Visit
The Pendleton team of the Knights of Columbus will go to Walla Walla Sunday where it will confer the second degree in initiatory work on a class of 20 candidates. The Walla Walla, Spokane and Pendleton teams will do the work of putting on the three degrees.

Today Friday, The 13th.
Today is Friday, the 13th and the date upon which Lady Luck comes close at hand her rabbits foot, her horseshoe and her lucky penny. The coincidence of Friday known as the unlucky day of the week, and 13, supposed to be an unlucky number, will be repeated again during the year, on October 13.

Drives From Portland
One of the first Pendleton men to motor from Portland to Pendleton since the storm which blocked the Columbia Highway is Dr. H. B. Lemert, who arrived here yesterday by auto. He went from Portland to Vancouver, Washington, thence to Stevenson and crossed on the ferry to a spot about seven miles below Hood River, making the remainder of the trip via the highway. He reports the roads passable. There is one drawback to the new route, however, Dr. Lemert states

as the cost for crossing on the ferry is \$8 for small cars and \$12 for larger machines.

Get Building Permits
The following building permits have been granted at the office of the city recorder with the endorsement of the city council: David A. Peebles, 542 Main street, new front and repairs, \$1,000; Hamley and Co. remodeling second floor of their building, \$1,500; Robert J. Jones, administrator, partition in building on Johnson street, \$97.

Huntley Gives Advice
Every married person, living with husband or wife, in order to claim the exemption of \$2,500 and \$400 for each dependent minor allowed in the 1921 income tax law, must make a return although his actual net income for 1921 may have been only \$2,000, according to Clyde G. Huntley, collector of internal revenue. These returns must be filed not later than March 15, 1922, or the delinquent taxpayer will be liable to heavy penalties provided in the law for failure to do so.

Saddle Horses Bought
Eight new horses, all suitable for the hunt and declared to be of show ring class, have been purchased by members of the Portland Hunt club from the stables of Matt G. Ennis of Walla Walla, who is well known in Pendleton. The horses are either thoroughbred or standard bred or crosses between the two lines, the deal constituting the first sizeable consignment of high grade horses ever bought in the northwest from a northwest dealer. The pick of the lot is said to be "Armanent," half thoroughbred and half standard bred, golden sorrel in color, 16 hands high and four years old.

Mrs. Folsom Convalescing.
Mrs. Percy Folsom is convalescing after a recent illness. She is at St. Anthony's hospital.

Conference Closed
A very successful conference closed yesterday at the Church of the Redeemer, the conference being that of the Province of the Pacific. Seven ministers, representing the board of religious education, were present.

Commander to Return.
Adjutant and Mrs. C. A. Peterson, of the local post of the Salvation Army, and their three children will return tomorrow from San Francisco, where they attended the congress over which Commander Evangelina Booth presided.

To Meet Saturday
The annual meeting of the stockholders of the American National Bank will be held at the bank Saturday night. A report of the business of the past year and election of directors and officers will be part of the work of the meeting.

Officers Are Elected.
At a meeting held last night the following officers were elected by the directors of the Inland Empire Bank: President, J. W. Maloney; 1st vice president, Will H. Bennett; vice-president, L. L. Rogers, cashier, R. M. Mayberry. The only change in the status of the officers is that R. M. Mayberry is cashier instead of assistant cashier.

Judgment Is Sought.
Monroe and Crisell have brought suit against Nick Johnson in which judgment for \$184 is sought on a note. Peterson, Bishop and Clark represent the plaintiffs. A note is also the basis of a suit brought by R. W. Carrell against Arnold Bushman in which Raley, Raley and Steiner and H. J. Warner represent the plaintiff.

Says Frost Damages Sidewalks
That the action of the frost has resulted in "bulges" in the sidewalks in parts of the city is a statement made today by C. A. Crabtree, street commissioner. He expressed the opinion that the damage probably would not be permanent, but temporarily, the frost has caused some trouble. The weather at no time has been very cold, but the frost has remained for several weeks with slight variation in temperature.

Next Game in February.
The first game of the season to be played at home by the Pendleton high school basketball team now will be February 3 and 4, according to a statement today by Coach Richard Hanley. The schedule as originally made out called for two games here tonight and Saturday night with Baker, but the recent action of the Baker schools in suddenly withdrawing from interscholastic athletics left a hole in the schedule which it was too late to fill. One more double header remains to be played during January when the Buckaroos go to La Grande to play.

No Fire Loss.
A fire alarm signal was given this morning shortly after 8 o'clock. It came from the house of Rudolph M. Crommelin, Lincoln and Jackson streets where a furnace became overheated. The danger of loss was a matter of history by the time the department had made the run and there was no fire at any time. The cold weather makes the danger of fires from this source a constant menace. Chief Ringold declares, and in a statement today he urges property owners to exercise the greatest possible precaution to see that no undue risks are taken.

Receipts at High Mark.
During the year that closed December 31, receipts at the office of the county treasurer were \$2,042,991.03, according to a report which has just been completed by Miss Grace A. Gilliam. The disbursements during the same period were \$1,675,185.12, which leaves a balance unexpended of \$367,715.91. The greater part of these funds which are unexpended remain in special funds. The county income included \$21,825.14 which was received as interest on money which the county has loaned from various sinking and special funds. During the past five years the receipts of the office have increased three-fold, Miss Gilliam has found. She entered the office in 1917 when the receipts were \$660,000. Her bond is for \$50,000 which was recently filed with the county clerk.

To Wrestle Tonight
The machinery has been oiled for a quick snappy program at Eagle-Woodman hall tonight when Ted Thye of Portland and Ray McCarroll meet in a wrestling bout. Thye has agreed to throw McCarroll twice within one hour or forfeit the match, and whether he can do this is what local fans are interested in seeing. Good preliminaries have been arranged. The bill will start at 8 o'clock and the offerings will be passed through with quickness, according to McCarroll. At the first meet held here when Smith and McCarroll grappled, there were some delays between events which made the fans nervous, and this defeat will be remedied tonight. The platform in the hall has been finished and everything is in readiness for the go. The ticket sale, which started the first part of the week at the Cosy Billiard parlors, has been good.

In white or colored outing with or without feet. These garments were regular \$1.50 to \$2.95. January White Sale Price 79c

EXPERIMENT TO FIND VALUE OF ATHLETICS

SOUTH BEND, Ind., Jan. 13.—(A. P.)—Whether college athletics really develop physical perfection or merely produce men with some few highly developed muscles is a question which athletic authorities of the University of Notre Dame will attempt to answer, at least in part.

Rev. Bernard Lange, whose numerous articles on physical training have given him a standing as an authority on the subject, is using the Notre Dame freshmen as material in carrying out his experiments which will form the basis for scientific study of the value of athletics.

An accurate record is being made of the physical condition of every freshman this year and next June, at the end of the school year, measurements will be taken to determine the extent to which intelligent training can be relied upon to correct physical weaknesses. The experiments are expected to give definite information as to the value of corrective exercises and also upon the kind of physical perfection produced by athletics.

Experiments conducted last year by Rev. Lange were designed to show the value of athletics as a developer of the student's mind as well as his body. In connection with these experiments a contest was conducted to determine the best built man in the university. Leonard Shaw, football tackle and western conference shot put champion, won first place.

STATE MAKES RECORD IN OIL PRODUCTION

SAN FRANCISCO, Jan. 13.—During the year just closed California established a new record in the production of crude petroleum. According to estimates prepared by R. E. Colton, State Oil and Gas Supervisor, California production for the year 1921 will be close to 114,000,000 barrels. This production exceeds that of 1920 by over 3,000,000 barrels. It is the greatest quantity of oil yet produced in a single year in California. California's production record for 1921 will exceed that of any other oil-producing state.

In the fact of the greatest production in the state's history the oil business in California has remained fairly steady, although the local overproduction, general industrial depression and a sympathetic adjustment to the slump in Eastern oil fields caused two drops in the price of crude, at the well, during the year. However, the oil business in California was not subjected to the violent fluctuations which affected the industry elsewhere in the United States. It is probable that the existing price of crude oil, at the well, will be increased in 1922.

Big Monthly Output.
California entered the year 1921 with available stored oil reduced to a minimum and the oil business exerting itself to increase production to a pace in keeping with the indicated demands for 1921. However, there came a curtailment in demands for petroleum and early in 1921 marketing companies started running part of the crude oil into storage. For the first eight months of 1921 production averaged 10,100,000 barrels per month. Early in 1921 the state oil and gas supervisor predicted a production of over 120,000,000 barrels for 1921. These figures were not met, however, because of the oil workers' strike in the San Joaquin Valley fields during the part of the month of September and all of October, which retarded producing operations to the extent of leaving over 7,000,000 barrels of oil in the ground which, under normal activity would have been produced and run into storage. The San Joaquin Valley oil fields produced 53 per cent of their normal output during the strike. The Elk Hills oil field, which early in 1921 was producing as much as the combined production of Calumet, Geiridge and Lost Hills, produced almost to full capacity during the strike.

"A GOOD OLD-FASHIONED PHYSIC"
Foley Cathartic Tablets, a wholesome physic, thoroughly cleanses the bowels, sweetens the stomach, tone up the liver. For indigestion, biliousness, bad breath, bloating, gas, or constipation, no remedy is more highly recommended. Wm. O. E. Bielke, Hancock, Mich., writes: "I have given Foley Cathartic Tablets a thorough trial and I can honestly recommend them as a mild but sure laxative. They work without griping." Give stout persons a trial.

10,450,131 Barrels in May.
The maximum monthly production for California, in 1921, was reached during May. The production was 10,450,131 barrels. During May forty-two wells in the Elk Hills produced 1,794,156 barrels of oil, that is, less than 1-2 of 1 per cent of the oil wells of California produced 17 per cent of its oil.

In District No. 1, which includes, among others, Los Angeles and Orange counties, the production was considerably increased during the year by the discovery of several new fields and the unusual development of such fields as Huntington Beach. Shell Company of California, contributed the Long Beach oil field by bringing in a well on Signal Hill. Union Oil Company of California, greatly extended the productive area at Santa Fe Springs.

CASCARETS 10¢

For Constipated Bowels—Bilious Liver

The nicest cathartic-laxative to completely will empty your bowels completely by morning and you will feel splendid. They work "while you sleep." Cascarets never stir you up or grips like Salts, Pills, Calomel, or oil and they cost only ten cents a box. Children love Cascarets too.

Headache Biliousness
Colds Indigestion
Dizziness Sour Stomach
is a candy-like Cascarets. One or two Children love Cascarets too.

THE SEWER PIPES

are the most important in the house. They must be absolutely air and water tight. The traps must be kept free and clear. Upon their condition health and possibly life itself may depend. If you have the slightest suspicion that there is the least thing wrong with your sewer pipes, send for us at once. Delay in such a matter is doubly dangerous.
