## Steels Take Boost in Price

NEW YORK, Jan. 19.—(A.P.)—The steel market yesterday followed in the footsteps of the course set by recent sessions, with the noteworthy difference that dealings were on a much larger and broader scale.

The movement again seemed to derive its chief support from bull pools and other speculative interests. There were few, if any, signs of pronounced public participation save among high-grade dividend-paying shares.

Steel and affiliated equipments were outstanding issues. Their further advance of one to almost six points, under lead of Gulf States Steel, was attested by reports that various markets were approaching a definite stage.

Motors and their subsidiaries, metals, textiles, leathers and food specialties were prominent at gains of one to three points. The several miscellaneous unclassified groups, comprising chemicals, fertilizers and utilities, also rose one to three points.

Rails were a negligible factor, despite favorable traffic conditions, as

indented by increased car loadings at certain terminals, and oils, notably the foreign group, reflected steady pressure. Sales were 300,000 shares.

The money market presented no new features, call loans remaining fixed at 4 1/2 per cent. More short-time loans were reported at 4 1/4 per cent, but the open rate for these accommodations ranged from 4 1/2 to 4 3/4 per cent.

Early foreign exchange rates were irregular, due in part to cables which suggested banking difficulties in northern Europe. Later rates were firm however, including bills on Sweden, Denmark and Norway.

Irregularity in the bond market included the liberty group and some investment cuts, as well as domestic industrials. Foreign government bonds and war floatations registered slight changes. Total shares, par value, aggregated \$17,275,000.

## Slightly Higher Prices Paid For Wheat

CHICAGO, Jan. 19.—(A.P.)—Wheat prices showed an upward tendency yesterday, chiefly as a result of

prospective better European demand, together with talk of green bugs in Texas, Oklahoma and Kansas. The market closed unsettled, at the same as yesterday's finish to 1-2c higher, 3 1/2c, \$1.12 1/2 to \$1.12 3/4, and July \$1.09 1/2, to \$1.09 1/2. Corn gained 1-3 to 1-4c, oats unchanged to 1-4c up, and provisions at 2 1-2c decline to a like advance.

Wheat averaged higher except for a brief period shortly after the opening. The main influence was that a liberal quantity of wheat on ocean passage and other amounts available for deferred shipment was said to be changing hands. Reports of the presence of green bugs in the southwest attracted fair attention, but the effect of the news was lessened by assertions that it was too early for damage to develop.

Corn and oats paralleled wheat. Exporters were after corn and took 250,000 bushels here.

In provisions, packers' selling nullified an advance caused by an upturn in the value of hogs.

## SEVENTEEN, AND ENGAGED, BUT MISS MAYBELLE STILL MUST ATTEND HER SCHOOL

ALBANY, N. Y., Jan. 19.—(I. N. S.)—While pretty Maybelle Greenwood, seventeen, was planning for her wedding day she was haled to police court by a truant officer and told she would have to attend school or go to the Humane Society.

"You will have to attend school," the judge told her.

"But I'm going to be married," sobbed Maybelle.

"That doesn't make any difference, and if you persist in staying away from school I will have to send you to the Humane Society," replied the court.

Maybelle, attired in fashionable clothes, and fur coat, told the court that she had been working for some time as cashier in a shoe store. She said she wanted to hold the position until she was married, but that she couldn't do it if she had to attend school.

But when the judge mentioned the Humane Society Maybelle changed her mind. She returned to school at once.

"And, though I had at first determined to buy stuff for a new coat, I went away resolved to wear my old one a little longer. Reader, if thou wilt do the same, thy profit will be as great as mine. I run, as ever, there to serve thee.

RICHARD SAUNDERS."

This writ, preached and practiced Benj. Franklin, nearly two hundred years ago, and conditions since then have not very much changed, for it holds good this very day that "silks and satins, scarlet and velvet, put out the kitchen fire," and again "it is hard for an empty bag to stand upright."

## DOES LAUNDRY WORK AND HOUSEWORK TOO

Surprised to Find Himself Feeling So Well

Taunton, Mass.—"I used to have pains in my back and legs so badly, with other troubles that women sometimes have, that my doctor ordered me to stay in bed a week in every month. It didn't do me much good, so one day after talking with a friend who took Lydia E. Pinkham's Vegetable Compound for about the same troubles I had, I thought I would try it also. I find that I can work in the laundry all through the time and do my housework, too. Last month I was so surprised at myself to be up and around and feeling so good while before I used to feel completely lifeless. I have told some of the girls who work with me and have such troubles to try Lydia E. Pinkham's Vegetable Compound, and I tell them how it has helped me. You can use my testimonial for the good of others."—Mrs. BLANCHE SILVIA, 59 Grant St., Taunton, Mass.

It's the same story—one friend telling another of the value of Lydia E. Pinkham's Vegetable Compound.
