LET HOOVER DO IT, IS MOTTO IN CABINET

By RAYMOND CLAPPER (United Press Staff Correspondent.) WASHINGTON, Peb. 9.—(U. P.)— "Let Hoover do it," appears to be one

of the most popular Harding siogans.
At any rate, if there is anything to
be done by the administration, Hoover usually does it, or has an important part in doing it.

Seldom does a problem involving fi-nance, business, or international af-fairs, particularly if there is a conmercial angle, come up at the White House without Prestient Harding sending an S. O. S. for Hoover -his trusty secretary of commerce. Herbert Hoover, of California, the

man who was almost kept out of the cabinet by the politicians, was invited by President Harding in Florida just a year ago to become secretary of com-merce—the cabinet post that ranks next to the bottom of the list. It has always been an obscure post--a pothat the litical shelf for somebody party had to take care of. President Harding had taken care of his political cabinet timber in the higher rankportfolio was still vacan.

"There's Hoover." President elect Harding remembered. "He's a valuable man and I ought to have him in the cabinet. I think I'll make him secretary of commerce.

Hoover's friends went into a rage. "He deserves a bigger job than

that," they protested.

But Hoover accepted it—after
Harding promised that he would be

given plenty to do. So, a year later, Hoover, who slipped in at the back door of the cabinet and was given a job near the kitchen sink, emerges as the most prominent advisor of the administration-next to the secretary of state.

Scarcely a problem of consequence has come to President Harding's atten-tion that Hoover has not been con-

suited about.

Here is a list of some of the matters Hoover has had a hand in deal-ing with since March 4, 1931
