37 PERCENT DECREASE IN LIVESTOCK FOUND

PORTLAND, Ore., Feb. 22.—The value of livestock on farms and ranches in Oregon decreased from \$101,434,000 to \$63,834,500 (37.1 per cent), during two years from January 1, 1920 to January 1, 1922, according to reports just issued by the U. S. bureau of markets and crop estimates. For the entire United States the decrease was from \$8,165,194 to \$4,779,957,000, or 41.3 per cent.

The report indicated a tendency toward raising more colts this year than for several years past. "The high price of tractors and tractor implements, combined with the low price

of farm products has caused some tractor farmers to return to horse power on their farms," says the report. The situation in regard to milk cows, beef cattle, sheep, and hogs, poultry is covered as follows:

General Comment

Horses and Mules—But little change in recent years. Reporters have frequently indicated that very few colts are being raised. This applies to the past few years as well as the year just past. It now seems probable that more colts will be raised during the year 1922 than for several years past. The high price of tractors and tractor implements, combined with the low price prevailing for farm products, has caused some tractor farmers to return to horse power on their farms. If the present ratio continues between farm implements and the price of farm products, it appears very probable that the demand for horses will materially increase in the very near future.

Milk Cows—Results of our special inquiry would seem to indicate some increase in numbers of dairy cows in the state. However, it is the opinion of some well-informed men, in the

dairy industry that numbers for the state as a whole have decreased. In the northwestern part of the state this decrease is placed as high as 25 per cent in two or three counties. We know there has been some shifting of dairy animals from the western to the eastern portion of the state. Reports also indicate some increase in numbers in the coast counties. On the whole, we are inclined to believe that no very marked change in the number of dairy cows in the state, has occurred during the past year.

Sheep—In the largest sheep producing county of the state some estimates indicate the number of sheep was reduced about 25 per cent in 1920, with a further 25 per cent reduction in 1921 but other estimates from the same county indicate no reduction in numbers. Individual farm reports indicate a decrease of about 5 per cent, which checks with the regular field reports.

Sheep marketings were above the usual during the summer of 1921, the total receipts at the Portland Stock Yards showing 43 per cent increase in 1921 over 1920, for sheep of Oregon origin. The financial situation caused a change in the ownership of many thousand head of sheep but we have been unable to learn of any great movement of sheep to points outside of the state.

Hogs—All indications point to a considerable decrease in the number of hogs during the past year. The individual farm reports indicate a decrease of about 15 per cent, 1921 receipts of hogs of Oregon origin at the Portland Stock Yards, decreased 35 per cent over the receipts for 1920. Reports indicate some increase in the number of young hogs on hand January 1st 1922, over January 1st, 1921. This condition would seem to indicate the probability of an increase in the state hog production for the year 1922, over 1921. The supply of hogs has been insufficient to meet the packers needs during the past year. The Portland Union Stock Yards reports the receipt of 44,343 hogs from the states of North and South Dakota, during the year 1921. During the month of January 1922, 10,591 hogs were received from the state of south Dakota alone.

WESTON DRAYMAN BUYS COMPETITOR'S BUSINESS

(East Oregonian Special)
WESTON, Feb. 22.—John Banister Sr. was a business visitor in Pendleton Saturday, motoring down, but had to return to Weston on the train on account of road conditions.

Mrs. Hattie Wilsey returned Saturday from an extended visit with relatives and friends in Walla Walla. Gilbert G. Ellis is again Westons only drayman having purchased the entire equipment and business and good will of John Hazelwood. Mr. Ellis will respond to all orders and is prepared to do general team work as well as draying.

Mrs. Harrison Kirk was hostess to a number of happy youngsters at a delightful little birthday party given in honor of her son Wendell Kirk. Refreshments were served by Mrs. Kirk and Mrs. Lewis Van Winkle. Those present were: Conrad Thorsen, Eldred Price, Clark Fontaine, Elberdize Maynard, Floyd Maynard, Ralph Graham, Harrison Godfrey, Clarence McGibbon and Wendell Kirk.

Mrs. L. I. O'Hara was a charming hostess Saturday afternoon when she entertained at home, members of the Saturday Afternoon Club. Decorations appropriated to the valentine season, embracing, scarlet and white carnation hearts, arrows and cupid's appear-

ed throughout the rooms and were a feature which won much favorable comment. A lively business session was followed by a program which included, "Yankle Doodle," sang by club members and a paper "Nationalizing America," by Mrs. H. Goodman. Mrs. W. S. Price conducting a quiz on matters pertaining to the Oregon Constitution. During the social hour the ladies gathered around attractively appointed table, place cards and favors being in keeping with the Valentine motif.

A delicious collation was served by Mrs. J. A. Lundsten and the hostess. Several club members and one guest Mrs. Nelson Jones shared in an unusually interesting session. In a letter from Okotoks, Alberta, N. P. Johnson reports fine winter weather in that locality with hardly any snow and a moderate temperature. The lowest point reached by the mercury was 22 degrees below.

S. S. Nelson, O.-W. agent in Weston, left Saturday for Portland to consult a medical specialist. Mrs. Nelson accompanied him. A large and deserving family who reside in the upper end of town were recently found to be straitened circumstances, the industrious head of the household having been unable to secure sufficient work to provide food for his dependent ones. Kind hearted neighbors went to their relief and enough provisions to keep the wolf from the door for several weeks are said to have been provided. Help was also extended by certain local organizations. A boy in the family is

said to be suffering from tumor, requiring prompt surgical attention. The case has been brought to the attention of the Umatilla County Red Cross.

Henry Engemann and family who have resided some months in Weston are leaving soon for their former home in Kansas. The Mrs. Gerkins cottage on Franklin street who they will vacate will be occupied by Mr. and Mrs. Otto Purcell. Joe Gibson a divinity student at Columbia College was a guest Tuesday of Rev and Mrs. John B. Coan.

TROPICS OPENED TO WHITES BY SCIENCE

MANILA, Feb. 22.—(U. P.)—Dr. Lim Boon Keng, president of the new university of Amoy, told the American chamber of commerce here today that the work of the American scientists at the bureau of science in Manila has opened the tropics to the white man. These men evolved treatments for amebic and bacillary dysentery which have removed the dread of those diseases in the tropics. He said this work alone justified all the expense on account of the bureau of science, but many other notable things have been achieved by it, for example, spread of general scientific knowledge of the efficacy of Choulmoogra oil in treating leprosy, a task in which Filipinos has assisted.

BIG FUN SOCIAL K. of P. Hall The D.O.K.K.

Will entertain the Knights of Pythias and ladies at the new club rooms. Every Brother and his Lady expected to be present. If you don't come you will regret it.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!
Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

OUR EVER-BLOOMING PLANT.

EX-SERVICE MEN SUPPLY BLOOD NEEDED FOR TRANSFUSION OPERATION

Hospital Has Called Upon Barracks Number of Times; Never Fails to Get Reply.

CLEVELAND, O., Feb. 22.—Not all the blood of patriots was spilled in the war. Unemployed ex-service men living at the American Legion barracks here are supplying almost all the blood needed for transfusion operations at Lakeside hospital. A quart or so means nothing in the life of these doughty persons.

The hospital has called upon the barracks a number of times in the last two months, and has never failed to get volunteers. "One, call came at 8:25 in the morning, and twelve minutes later 25 men reported at the hospital for duty," said a Legion official in charge of the barracks. "Almost all the men in the building offered to go, though they did not know that the blood would be bought and paid for."

Walter Malaska, who served two years overseas, is one of the regular volunteers. He seems to have an excellent supply in his veins. Recently his blood was accepted for transfusion into the veins of an out-of-town patient. "I was not particular about being paid for a little act like that, but that he wouldn't mind if someone would help him find a job. He is a machinist—a very red-blooded machinist."

AMERICAN BIBLE SOCIETY OUTLINES ITS POLICY

NEW YORK, Feb. 22.—(U. P.)—The change that has been announced in the manufacturing policy of the American Bible Society seems to have been misunderstood in some quarters and the officers of the society have issued the following statement:—

The American Bible Society, contrary to certain reports has not given up its publishing business in which it has been engaged for more than 100 years, and has had no thought of so doing. It will continue as a publishing house, issuing the Scriptures in more than 150 languages and dialects. Leaving its work done through various printing concerns. It will continue to control its own plants, so as to preserve the accuracy of its versions for which it has received recognition and acknowledgement.

This change of policy in its printing program has been dictated by the fact, that the society is convinced that it can do its printing more economically elsewhere than it can by conducting its own printing establishment.

There will be an actual increase in the society's output and this change of policy marks a distinct advance and is in no sense a retrenchment in its program of Scripture publication. The society has no thought of moving its headquarters from New York. Its executive offices continue in the Bible House, Astor Place, New York City. The officers of the society are: Duichill H. Cutting, President; William L. Haven and Frank H. Mann, General Secretaries; Gilbert Darlington, Treasurer.
