Inquire Into Bridge Plans.

Plans and maps for the bridges that are to be constructed over irrigation ditches in the west end of the county by the reclamation service were examined today by members of the county court and Engi-neer Lee Shannon. According to an arrangement recently entered into by he county court and the reclamation service, the federal department has agreed to construct the bridges according to plans approved by the county on an understanding that the county is to be responsible for the maintenance of the bridges. Several structures are to be built under this

The railroad official indicated that he will recommend that the company raise the bridge and straighten it so that the water will effect clearance to better advantage than is now the case. He also expects to have the company clear away brush on its right-of-way under condition that the farmers do the same. That the county will be glad to take such action was stated today by members of the county court. The bridge he been a source of trouble to the rallroad for several years, and several vashouts have resulted this spring.
