Train schedules are unworkable and the upper end of the Michigan peninsula is still sheathed in ice. Conditions almost as bad prevail throughout the northern sections of Wisconsin. The over flowing of its banks by the Pecatonica river near Freeport, Ill., caused fears of a disastrous flood in that section.

Local Rotary Club To Be Headliners At Big Convention

The Pendleton Rotary Club's stunt will be the headliner for the stunt program at the Twenty-second District Convention of Rotary to be held at Vancouver, B. C., April 3 and 4, according to a letter received yesterday by S. H. Thompson, president, from convention headquarters. Pendleton, aside from the honor of being one among the four out of 26 clubs whose stunt was accepted for the program, was given the double distinction of being first. The act, which will be known as "The Rotary Round-Up," was originated by Fred Bennion. On the stage will be a corral fence which will have the effect of including the audience. Pendleton Rotarians in Round-Up paraphernalia, will dispense snappy vaudeville patter and song, all permeated with a distinct Let 'er Buck flavor. About 20 local Rotarians will make the trip to Vancouver, estimates Lester Hamley, secretary. They will join the special train at Portland April 2.

ESKIMO PIE DAINTY BEING MADE HERE BY GOLDEN WEST CONCERN

Contract Entered Into Whereby Local Creamery Will Have This Territory for New Bar.

The Golden West creamery has entered into a contract with the Russell-Stover Co. of Chicago to manufacture a new confection which is known as Eskimo pie, according to an announcement made today by Dan P. Smythe of the creamery concern. The Russell-Stover company holds patents and copyright for the exclusive manufacture of the dainty. Eskimo pie is Golden West ice cream with a coating of chocolate. The chocolate is made according to a guarded formula which is the property of the Chicago concern to which the local company pays royalties. This product is the original ice cream chocolate coated bar. The growth of the industry is one of the romances of American business ingenuity and endeavor. The first bars were manufactured in Chicago in November and now they are being sold all over the United States. Rapid gains in sales are being constantly made. At present, 2,000,000 daily sales are being made, according to the latest figures. The product is rapidly being nationalized. One of the conditions to the contract which ice cream makers must agree to is that the pies must conform to the Russell-Stover standard of quality. The Golden West creamery sells only to dealers, Mr. Smythe declared. Practically all of the dealers in Pendleton and Umatilla counties are now handling the pies, and quantities are being shipped to La Grande and Walla Walla county. The present output of the local concern is 1000 bars daily and it is expected that this output will be materially increased as the weather becomes warmer. The patent of the Chicago concern has been passed on by leading firms of patent attorneys in the United States and declared valid. The makers of "polar bears," "Arctic" cakes, Alaska cakes and similar confections have been restrained. One of the promises made by Russell-Stover is to protect dealers against imitations.

COPS CARRY GREEN CARDS. OLYMPIA, Wash., Feb. 27. (U. P.)—If a man showing you a green card on the highways of the state of Washington desires to pinch you for any reason, go with him. If he wants to take you in and cannot show the green card, soak him on the paw but don't block traffic with too long a fight. Better still, turn the man over to a peace officer.

Such are the instructions emanating from the headquarters of the state highway patrol. Complaints have been made to Major Louis H. Lang that many motorists have been stopped by "fake" peace officers, who have sought to assess them for not having their cars equipped with new 1922 license plates. Major Lang pointed out further that no patrol officer is empowered to collect fines of bail money, merely issuing a summons.

SOVIET OFFICIALS TO ASK LOAN FOR RECONSTRUCTION

Delegates to Genoa Conference Have Instructions to Make Any Concession for Loan.

FAVORED RED ARMY FEELS FAMINE WAVE

A Big Loan is Only Thing That Will Save Situation; Millions of Peasants Starved.

MOSCOW, Feb. 27. (A. P.)—The soviet delegation to the Genoa economic conference will carry instructions to grant all concessions demanded provided a big reconstruction loan can be obtained. The basic reason for this attitude is the famine. Only within the last few weeks have the soviet leaders realized how desperate is the food situation. The peasants and remaining bourgeoisie have starved by millions but the soviet authorities were untouched. The famine is now slowly encroaching on their stronghold, Moscow, and the favored red army is threatened with starvation. If a big loan can be arranged the situation can be saved.

Many "flappers" can get their "smokes" from mothers' bond.

Jerome's job was that of official sleuth. Of them for not having their cars equipped with new 1922 license plates. Major Lang pointed out further that no patrol officer is empowered to collect fines of bail money, merely issuing a summons.

Fairchild of New York, for himself and in behalf of the American Constitutional League, to enjoin the Secretary of State from issuing and the Attorney General from enforcing a proclamation declaring the ratification of the amendment, and by Oscar Leser and other citizens of Maryland, constituting an organization known as the "Maryland League for State Defense." The former proceedings were based on the ground that the amendment had not been validly adopted, and the latter that the amendment was unconstitutional.

"The trouble is, Princess Mary is unfortunately English. Her taste is ultra-English and American women have a distinct failing for a Frenchy touch in clothes."

THEORY OF TAYLOR MURDER IS GIVEN

LOS ANGELES, Feb. 27. (U. P.)—Harry Fields, the Detroit forger, in a confession recently furnished the Los Angeles police and detectives with valuable clues which have enabled them to piece together the following theoretical story of the Taylor murder. Taylor had been fighting for months against the dope ring's influence on the movie colony. He was freely laid whether the dope man would "get" Taylor before he "got" them. Taylor caused many arrests and was successful in freeing an actress from the dopsters' clutches. He met one of the leaders at the actress's home just as the man handed her a package of heroin. A real movie fight followed, the dope man getting the worst of the encounter. War was then started in earnest, and ended with Taylor's murder on February 1. My face has been discovered to bolster this theory with truth.

IRISH FLAG QUESTION MAY CAUSE NEAR WAR

BY CHAR. MCCANN. (United Press Staff Correspondent.) DUBLIN, Feb. 27. (U. P.)—The question of a flag for the ship of state of the New Ireland is likely to cause a near war. British treaty signatories have declared that the new Free State may select its own flag and will not be bound to follow the Dominion's example of using the Union Jack with a distinctive superposition. It is taken for granted that the new Irish government will select the orange, white and green tri-color of the Irish Republic. But if they do, they will have a battle with the British treaty signatories, who maintain that the Republican flag is just what it implies—the flag of a republic.

PRESIDENT TOO BUSY TO SEE LEGION LEADER

American Legion Officials at Washington to Attempt to Force Bonus Legislation.

NATIONAL COMMANDER'S LETTER IS UNANSWERED

Excess Profits Tax May be Revived to Raise Money; The Sales Tax is Dead Issue.

WASHINGTON, Feb. 27. (U. P.)—President Harding this morning declined to see Harford MacNider, national American Legion commander, who came to the white house to demand an end to the present bonus deadlock in congress. MacNider said that George Christian, the president's secretary, told him to come back this afternoon, when he "might be able" to see the president. House members are studying the bonus bill today to prevent incorporation of "jobbers" which might throw open government lands to other than veterans. The sales tax as a fund-raiser is now regarded dead.

Christian explained that President Harding was too busy to see MacNider. The president is known to resent the recent MacNider letter in which the legion commander strongly demanded action on the bonus. The letter is as yet unanswered. MacNider and other legion leaders are here with the avowed purpose of forcing bonus action. Chairman Fordney after the white house conference indicated a possible revival of excess profits taxes as a means of raising funds.

Balance upon the unpaid World War debt bonds as a means of raising the soldiers' bonus would be insufficient as the sales tax. Bonus Leader Mondell held today following a conference with Chairman Fordney of the house ways and means committee, and president Harding. President Harding's amendment for the forenoon was filed. They said they would return later in the day. MacNider said the Legion opposed any further delay. Mondell and Fordney said that the house would pass a bonus bill during this session.

WASHINGTON, Feb. 27. (A. P.)—Mondell and Fordney informed President Harding of the rejection of the sales tax bonus plan.

THEORY OF TAYLOR MURDER IS GIVEN

ALBANY, Ore., Feb. 27. (U. P.)—Spring is coming on, followed, in due season, by summer, and even the girls in this age of sex equality want to get out into the tall timber and sit upon a mountain peak watching for smoke streamers of forest fires. Supervisor C. C. Hall, of the Benton national forest, is willing to have girls, if they qualify. He has a very simple little test. "See that?" he asks, and draws the fair maiden's eyes to some twisted parts of what had once been a magnet. "Well, that magnet got all mushed up when lightning struck a lookout's cabin in the Santiam forest. Now if you care to report."
