### JAPS REFUSE TO GO TO SOUTH AMERICA

TOKIO, Feb. 27.—(A. P.)—Japanese emigrants have shown a decided disinclination to seek their fortunes in South America in the past two years despite the "overcrowding" in Japan and offers to bounties.

The Brazilian government pays 15 pounds to each Japanese emigrant, but nevertheless, Japanese labor contractors have found it impossible to fulfill their contracts with Brazilian coffee planters to furnish 5,000 Japanese laborers each year.

Last year the number of Japanese emigrants to Brazil was estimated at 300. These figures are given by an official of the Commercial Bureau at

## IRELAND EXPECTS RUSH FROM U. S. TOURIST

By CHAR. MCCANN. (United Press Staff Correspondent.) DUBLIN, Feb. 27.—Irish business men are awaiting the summer rush of tourists which they expect to be the first result of the new era.

Tradesmen, hotelmen, restaurateurs and manufacturers, in addition to the ever present "Jarvey," or driver of the Irish side-car, are waiting with open arms and hands for those who come back to a new passport.

The greatest hope is in the United States. British visitors are expected in hordes, and touring clubs in England are already mapping out routes through the lake districts in anticipation of a rush to this side of the channel by visitors to whom Ireland has been caused for seven years because of one war or another.

The treaty had not been signed a week before Dublin real estate agents had men on the way to the United States with description of almost every house and every castle in Ireland.

Ordinary Americans are expected to come, but the people everyone is really looking for are the Irish-Americans—the ones who have been working quietly and making money instead of speeches. Nearly everyone in Ireland has been to the United States or has a brother or sister here. It is seldom a visitor talks to anyone—even to ask a telephone number of an operator—that mention is not made of young Paddy, who went out to the states years ago and is now running a hotel in Cleveland or Keokuk, or wherever it may be. If Paddy and his brothers and sisters do not come back this summer, the season will be a complete failure for many families. If they do come back they are sure of a great reception.

The returned native son is one of the family; but the ordinary American is sure of a friendly welcome. If he is expected to have money, it is because the ordinary Irishman believes everyone in the States has money. He will not be robbed, however, and will not be expected to throw his money away.

## U. S. TO ERECT BUILDING FOR BRAZIL EXPOSITION

NEW YORK, Feb. 27.—(A. P.)—Five nations, including the United States, have started erection of palaces at Rio de Janeiro for the international exposition next fall in commemoration of the centennial of Brazilian independence, according to word received by Hello Lobo, Brazilian consul general. The foreign buildings are being constructed along the Avenida Wilson.

A fund of \$1,000,000 has been established to provide an adequate exhibit on the part of the United States. Supplemental to the national display, many American manufacturers will show their goods.

France, Great Britain, Belgium and Italy are the other countries which have buildings under construction and several smaller nations have arranged for exhibits in other structures on the exposition ground, so that the centennial will have the atmosphere of a world's fair.

The exposition is to be an expression of the economic and social life of Brazil during the last 100 years. Each of the 21 states of that republic will have separate displays of its achievements in commerce, industry and other aspects of civilization.

Among the buildings planned for the exposition are the hall of industry, hall of states, hall of fine arts, hall of administrations, hall of minor industries and the game and fish pavilion.

Military parades, international games and other spectacular entertainments are to be part of the program.

The exposition will open September 7 and close December 31.

## RIO WILL OPEN ITS BIG 3-DAY CARNIVAL

By MILES W. VAUGHAN. (United Press Staff Correspondent.) RIO DE JANEIRO, Feb. 27.—The Rio de Janeiro carnival, said by Brazilians and many foreign visitors to be the most brilliant in the world, will open tonight with a confetti battle in the Avenida Rio Branco and will continue for three days, closing with the grand parade of the carnival clubs on Tuesday night.

Already every available automobile in the capital has been leased for the period of the fiesta. Municipal authorities are winking at the city law controlling taxi fares, which have increased to about ten times the legal rate.

During the confetti battle, the Avenida will be roped off into two great lanes and cross town street car traffic suspended, so that the crowds will not be endangered in intersections.

Despite the year of hard times in Brazil, presidents of the scores of Carnival clubs today issued statements declaring that the feast in honor of Momus this year will lack nothing of its former brilliancy. Government aid has been extended as usual, despite the clamor of conservatives against this "waste" of money.

During the next three days practically all business will be suspended and the population will devote itself

entirely to pleasure. Everybody buys a costume.

Irrigated barley yielded 1368 pounds to the acre as compared with 944 pounds of irrigated oats, according to the census figures for Oregon. It will pay to grow more barley than oats unless the region is exceptionally frosty or cold. Barley is also far better to plant on land somewhat strong with alkali.—O. A. C. Experiment station.
