STOCKMEN PROTEST IDAHO LAND GRAB

BOISE, Idaho, Feb. 28.—President Harding was asked, through the medium of Idaho's congressional delegation, to veto house bill No. 17, by a massed assembly of 500 representative business, stock and sheep men and farmers, held in the house of representatives at the state house recently. This action was taken after the friends and the enemies of the measure were heard in debate that lasted six hours and during which the six hours were made that the bill constitutes a "land grab." A demand was made for the resignation of Hugh Sprout as president of the Idaho Wool Growers' association. Governor Davis, speaking on behalf of the people of Idaho, proposed convening the legislature in extra session that proper laws might be passed to safeguard the equitable distribution of the public lands of the state involved in the authority granted by the measure permitting the placing of Northern Pacific scrip on 250,000 acres of grazing lands in southern Idaho, obtained under a contract held by Fred Gooding, Homer Finn and James Clinton, officers and directors of the Pioneer Securities company. The assembly was one of the most remarkable held in the history of Idaho, due to the prominence of the men involved and the deep interest taken in the French bill, which gives sanction to a policy approved by the department of the interior, the department of agriculture and the forestry department as well as the entire Idaho congressional delegation, to permit the turning back of the government and its national forests, odd sections land granted to railroads and accepting in lieu thereof grazing and non-irrigable lands upon which scrip may be placed. Crawford Moore, president of the First National bank of Boise, and Scott Anderson, a prominent sheep man, and Miles Cannon, state commissioner of agriculture of Idaho, led the attack on the measure, declaring that it granted an absolute monopoly to a few and is against good public policy. They were supported by D. R. Hubbard, speaking in behalf of the Idaho state graziers, by cattlemen who charged that the law means the abrogation of the two-mill limit law, by business men and by lawyers. The bill was defended by Messrs. Gooding, Finn, Clinton and S. W. McClure, ex-secretary of the National Wool Growers' association; Hugh Sprout, president of the Idaho Wool Growers' association; Paris Martin, an attorney of Boise, and others. Governor Davis, appearing after the holders of the option had insisted they would divest of the land coming into their power on equitable terms to all stockmen rather than use it to their own advantage, made this offer: "If Mr. Gooding and his associates will agree to assign their options I will call a special session of the legislature to obtain the lands, make the exchanges and pass such a law as is necessary to allow for distribution of the lieu lands by the state land department, thereby giving everybody an opportunity to get these lands. The change of public domain belong to the people of the common wealth and not to individuals or a small group of individuals." Stock operators interested in Nevada and Oregon ranges also declared the bill, if permitted to become a law, would open the door for similar exchange of large quantities of railroad scrip lands in other states.

CHARLEY OLSON HAS RECORD OF DEFEATING BEST IN THE COUNTRY

Smoker Scheduled for Friday Night Promises to be Full of Excitement and Fight.

Friday night, has a long string of victories to his credit. Olson has met the best in the game throughout Canada and the United States. He won the Olympic wrestling championship at Stockholm, Sweden, in 1912. Not only has he obtained falls from men of his own weight but has planned many wrestlers heavier than himself to the mat. Fast footwork and an excellent knowledge of the game are the two factors that make Olson "The Terrible Swede."

SEALS START TRAINING AT BOYES SPRINGS

SAN FRANCISCO, Feb. 28.—(U. P.)—The Seal squad is in active training at Boyes Springs. The hurlers, and a lot of young players who are being given a try-out, have been at work since February 20.

Older members of the team have begun to arrive and are going into training. The complete squad is due to be hard at work in a day or two. Jack Miller, the new Seal manager, is busy directing operations, and has expressed himself as pleased with the material he has to work with.

A whole flock of new pitchers have been signed by the Seals in an effort to make up for the loss of Johnny Couch and Lefty O'Doul, who have gone to the big leagues—Couch to Cincinnati, and O'Doul to the Yankees.

Among the new pitchers are Combe, from Cincinnati, and Mitchell, both southpaws; and Davis, Gilmerwater, Gears, and Hanson, who eat beans and play ball with their right hand. Herbert McQuinn, the youngster, is also being given a try-out under the special supervision of Nick Williams, veteran Seal scout and coach.

Among players trying for an outfield berth this year are Joe Kelly, center; Maury Cebnick, who will probably land in left field, Jimmy

As Death Rides Through Famine-Stricken Russia

Russians in the Volga region are starving to death in such numbers that coffins cannot be procured and bodies in piles await grave-diggers. Here open dead wagons are shown driving through one little town in which 78 bodies were collected.

O'Connell, high-priced short, will probably play right field in accordance with the wishes of Manager McGraw of the Giants. This will leave Justin Fitzgerald as a utility man and pinch hitter. McGraw doesn't want to take any chances on his \$75,000 star, Bert Ellison, who is a good hitter, will probably hold down second base. Al Lefevre, who comes from the Giants, will be given a try at short, and if he makes good can have the job permanently. Hal Rhone is also out for the short job, and promises to give Lefevre a run. If Ellison doesn't stay at second Lefevre will probably be moved to that position.

Willie Kamm will play third, and Miller himself will probably play the initial sack most of the time. Sam Agnew, Archie Yelle, and "Fat" Atkinson will be the men to don the mask and belly-protector.

CHARLEY PADDOCK HOLDS TEN WORLD'S RECORDS

LOS ANGELES, Feb. 28.—The official tally sheet gives Charley Paddock, sprinter, ten world's records—which in itself is a world's record.

In addition to this, since he started running in grammar school, Paddock has run over 120 races, ninety per cent of which he has won.

All of which should insure his niche in the Hall of Fame—such as it is! Here are the world's records which Paddock holds.

- 100 yards—Berkeley, U. S. C. meet, Berkeley oval, 1921, 9 3-5 seconds. 100 yards—A. A. FAMILY IS SEPARATED BY IMMIGRATION LAWS

SPOKANE, Wash., Feb. 28.—(A. P.)—Mrs. Marie Romilly and her three youngest children are here; the father and two older children are in Canada; all because of the complications of the American and Canadian immigration laws.

Worse, Mrs. Romilly cannot go to Canada to visit her husband and older children, and her husband cannot come to the United States to see his wife and the children who are here. And all this is true because Romilly sought charity from the city and county.

The breaking up of the Romilly family is one of the unusual cases in the annals of the immigration service. The father was deported as an undesirable because he sought charity, under the usual rule that an alien who is a charge on the state can always be deported.

The Romillys were married in Canada in 1911, Romilly being a Canadian. The wife is said to have been married twice before, the first time to an American, who died, and the second time to an Englishman. When the matter of deporting the family came up, a year ago, the Canadian authorities refused to admit the woman, claiming she was British and not Canadian. For that reason she is forced to stay in America, away from her husband and the two daughters who, having been born in Canada, were deported with the father.

MOVIES AID POLICE. LONDON, Feb. 28.—(U. S. S.)—The cinema has been adopted by the English police as a means of detecting criminals. Two dead babies were sent through the post from Ramsgate to Ireland, and the sender has not yet been discovered. As a last resource the police are showing on the screens at cinemas throughout the country the label with the request that anyone recognizing the handwriting should at once communicate with the police.

Back in the brave old days of '49. And when a miner found gold in his pan he had a lucky strike worth talking about!

LUCKY STRIKE!

When we discovered the toasting process six years ago, it was a Lucky Strike for us. Why? Because now millions of smokers prefer the special flavor of the Lucky Strike Cigarette—because It's Toasted! which seals in the delicious Burley flavor. And also because it's manufactured by The American Tobacco Co.
