Called by Illness.
Mrs. M. A. Ferguson left today for Portland where she was called by the illness of her uncle, John Bentley.

Returns From Canal Zone.
Panama and Colombia, Central America, are all right for anyone who likes a hot climate," says B. E. Kennedy, who is in Portland on his way to eastern Oregon after three years in the canal zone and Colombia. "If a person can get in the trade winds he remains reasonably comfortable, but otherwise the weather is too hot for the average individual. And speaking of rain, when it rains in Panama the cloudbursts of Eastern Oregon are like mist. I have seen it rain four inches in ten minutes. In the wet season your shoes are covered with mud over night and your clothing is soggy. One way of overcoming this is to place garments in a closet which is heated." Mr. Kennedy says that there is the richest kind of mining property in Colombia, the properties being richer than anything he has ever seen in the Baker district. The gold is not being taken out very rapidly as no one is willing to do it until what can be put off until tomorrow. For about a year Mr. Kennedy was in the government service in Panama. Once upon a time Mr. Kennedy was proprietor of the Baker Herald and later owned extensive wheat lands in Alberta. He came to Portland, became interested in poli-

Downs on Farm.

Baby Is In Hospital.
The 15-month-old baby of Mr. and Mrs. R. E. Turner is at St. Anthony's hospital where he is being treated for a number of complaints. An abscess in the ear has given the little chap great pain, and in addition to this trouble, he has been suffering with a gripe and croup.

Two "Maid Johnsons."
Mrs. Maud Johnson, of 115 Mark street, has suffered some embarrassment because of the recent appearance in police court of a Maud Johnson who was fined for being drunk and disorderly. Mrs. Johnson wishes to announce that she is not the woman who was fined but that it was some other woman who bears the same name.

Koepfen Is Editor.
Alfred Koepfen, of Pendleton, who is attending O. A. C. is art editor of the Orange Owl, college humorous publication. Koepfen drew the cover design on the Christmas number of the magazine and has several cartoons in the other issues this year. Alfred is a member of the Delta Kappa, local fraternity, sigma Delta Chi, professional journalism fraternity and aristoloite, national pharmacy fraternity.

Won't Shoot Tomorrow.
The Pendleton National Rifle club which had planned to open the season for target shooting tomorrow has decided to postpone the opening shoot. Inclement weather and too much mud are the reasons given for the postponement. New members to the organization are being secured right along. Some work still remains to be done on the shooting grounds before the club members will be in a position to shoot. They plan to get started as soon as the weather will permit.

Idaho Man Found Guilty.
Guilty on two counts was the verdict returned in federal court at Boise Thursday evening in the case of Harold Rice of Weiser, charged with having taken Edna Johnson from Pendleton to Weiser for immoral purposes. The trip was made last December, according to the testimony. After the girl arrived in Weiser she was sent back to Ontario, Ore. Rice is the proprietor of the Vendome hotel. He was indicted under the Mann act. The Johnson girl is 16 years old and is said to have acquaintances here.

Hospital Is Inspected.
Miss Jane Doyle and Miss Grace Phelps, both of whom were overseas nurses during the war and who are now members of the State Hospital Board, were in Pendleton yesterday inspecting St. Anthony's hospital. They are touring the state's investigating conditions in hospital training schools. Miss Doyle, who during the war was in charge of a long hospital overseas, is a prominent member of the Portland Post, American Legion, and is the only woman officer in that organization. She is also executive secretary of the Portland Red Cross. Miss Doyle and Miss Phelps left this morning for La Grande.

John Bentley Very Ill.
John Bentley, a pioneer of Umatilla county, is seriously ill at the Perkins. So grave is his condition that relatives have been sent for. Mr. Bentley, who was 81 years old last month, became suddenly ill upon receipt of a message stating that his brother, at Modesto, Cal., was dying. The brother, 95 years old, expired about an hour after Mr. Bentley received word of his falling. A nephew telegraphed Mr. Bentley, at the Perkins, to hurry to Modesto, but the Pendletonian replied that he was not physically able at the time. The news of his brother's fatal illness apparently brought on the illness of John Bentley. Mrs. M. N. Blumenstadt of Rainier, a daughter, arrived at the Perkins yesterday and R. N. Bentley of Pendleton, a nephew, has also arrived. John Bentley went to Pendleton when the town was little more than a settlement and was active in public life there. He was a sheriff of Umatilla county and chief of police of Pendleton. For years he has always been given star No. 1 of the Pendleton police, as a sort of compliment. Recently he has been in the insurance business.—Oregonian.

Turn Under Diseased Leaves
Where apple scab, pear scab, brown rot, and leaf spot of pears or cherries have been troublesome, or where the leaf spot of currants or gooseberries is bad, the dead leaves should be turned under before the winter buds begin to open. The first infections arise from this source every spring and distinct benefit is derived from the practice mentioned, except where an orchard is surrounded by other orchards where no such precautions are taken.—O. A. C. Experiment station.
