# GUNMEN IN IRELAND KILL SEVERAL AND WOUNDED MANY OTHERS TODAY

## PARTY LEADERS PLAN MEETING WITH PRESIDENT HARDING ON SUNDAY FOR SOLDIER'S BONUS

All Republicans Called to Washington in Readiness For Vote on Monday.

SPEAKER GILLETT IS OPPOSED TO GAG RULE

There is Small Chance of This Bill Being Railroaded Through the House.

WASHINGTON, March 18.—(A. P.)—Republican house leaders expect to confer with the president tomorrow night regarding the procedure for handling the compromise soldier bonus bill. They hope that he will approve the plan for passage under the suspension of rules.

WASHINGTON, March 18.—(U. P.)—Speaker Gillett today appeared unalterably opposed to considering the bonus bill under the "suspension of rules," so called "gag" rule, when it comes up Monday. There is small chance of the bill being "railroaded through."

100 Out of City WASHINGTON, March 18.—(I. N. S.)—Republican Leader Mondell wired all republican congressmen to be back in Washington Monday to push the bonus bill through. It is estimated that more than a hundred republicans are out of the city.

CANADA SUBSIDIZES HOGS CALGARY, Alta., March 18.—(I. N. S.)—Premiums of 10 per cent will be paid by organized Canadian packers on bacon hogs this year. This is the announcement of G. H. Hutton, president of the Western Canada Livestock Union. All the large packers in the west, it is declared, have agreed to the plan. The premium, it is believed, will give a great impetus to hog raising and tend to counteract the menace to the export trade caused by the new tariff rates of the United States. The bacon hog has been a favorite of Canadian breeders since the beginning of the country's agricultural history. This is doubtless due to some extent to English tradition and to the fact that originally Canada found its best market for hogs in the British Isles.

ED SCHILLER PINCHED BY POLICE AS ROBBER SUSPECT IN CAR MIXUP

8-5-5-sh-sh-sh! Ed Schiller was pinched last night. "Shact, all right. The cops got the young man for taking another man's car. It all happened after dark right out on Main street, and even though he was "nabbed" and had to explain, the cops refused to keep him. The story reads about as follows: Ernest Alloway parked his car on Main street early in the evening. Later when he returned, he found his machine gone. He turned in an alarm to the police. The cops found that it belonged to Ellis-Schiller, and they called Ed and caused him to dress and come to the garage. There they found Alloway's car which Schiller had mistaken for his own. Schiller then returned to Main street to secure his own car. The cops, not being informed of the latest developments, grabbed him. When he told them the facts they grinned and let him go. Ed's been explaining today.

## SAMPLE MARKET IN PORTLAND ONE HOPE OF WHEAT GROWERS

Probable That Hearing Will Result in Reduction of Moisture Content 14 to 12.

The establishment of a sample market at Portland and the reduction of discount and charges in connection with wheat, is one of the principal hopes of Oregon grain men who hope to see these improvements in the future, following the final grain hearing at Spokane, says Fred Bennion, county agent, who yesterday attended the Walla Walla meeting. A sample market, such as all large grain buying centers have, is much to be desired, says Mr. Bennion, because millers and buyers can see the wheat and grade, and as a result the farmer often receives a better price. For example, if a Blue Stem crop tested 57 pounds, it would be classed as No. 3, if, however, this weight was low because the wheat was pinched, the wheat would have a high gluten content and the farmer would receive a good price despite the No. 3 classification. Mr. Bennion believes that there will be considerable trouble in the matter of the lowering of the test weight of White Club from 60 to 58. He states that while White Club growers want the decrease, Northwest growers of Marquis want the Hard Red Spring test weight raised from 58 to 60, and middle western growers want it lowered to 57.

Mr. Bennion is practically sure that the hearing will result in the reduction of the moisture content from 14 to 12 per cent; combination of White Club and Common White into one class, White Wheat, with three subclasses, Hard White, Soft White and White eastern; abolition of the limitations on Hard Red Winter and Hard Red Spring with reference to mixtures, and the increase of the minimum requirement for smut.

	Open	Low	High	Close
May	\$1.29	\$1.28 1/2	\$1.37 1/2	\$1.28 1/2
July	1.20 1/2	1.21 1/2	1.18 1/2	1.21
