**OLD DEED FOUND**  
SACRAMENTO, Calif., March 21.—(U. P.)—An old deed given the land which is now the city plaza to the State of California, was recently found in the basement of the capitol building by Frank M. Jordan, keeper of the archives. The deed was made April 4, 1854. It was signed by the city officials, after the city had received the land from John A. Sutter Jr., at the time when it was believed the state capitol would be erected there. The document specified that the land must be used for the erection of public buildings. State officials were maintained in temporary quarters there at the time. Later, however, it was decided to move the offices to the present site of the capitol. Officials believe that, under the circumstances, the land automatically reverted back to the city. The deed was never cancelled, however.

**SUNDAY MOVIES QUESTION.**  
MOSCOW, Ida., March 21.—(A. P.)—Whether or not Moscow, people will have motion pictures in their town on Sunday is to be decided by a straw referendum ballot March 25, the city council having decided to settle the question that way, under a pledge to stand by the decision of the voters. This will settle an argument that has been going on ever since the local post of the American Legion circulated a petition for opening of the theaters on Sundays as a means of raising money for an American Legion building. The move brought immediate action and counter-petition from the ministerial association. The legion's petition, it is said, carried signatures of qualified voters in number greater than a majority at the last general city election. And the opposition petition has gathered considerable strength. Unable to decide yes or no, the city council voted the question a matter of "general discussion" with much difference of opinion expressed, and called for the referendum, the expenses to be paid by the city.

## Goodbye Boils!

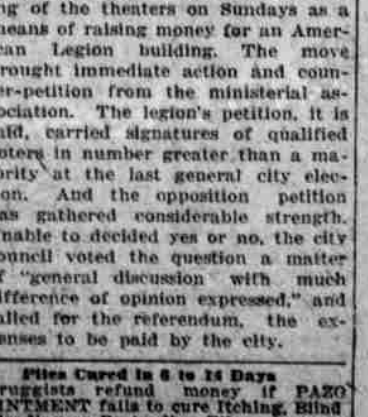

**S. S. S. Will Rid You of Boils, Pimples, Blackheads and Skin Eruptions.**  
A boil is a volcano—your blood is so chock full of poisons that these "boil" out into a boil. They'll keep "boiling up" until you destroy them completely by the use of S. S. S., one of the most powerful blood-cleansers known to science. S. S. S. has stood the test of time. The power of its ingredients is acknowledged by authorities. Its medicinal ingredients are guaranteed to be purely vegetable. Right off, it clears the skin of pimples, boils, blotches, blackheads, acne, eczema, rash and other skin eruptions, and does it thoroughly. It drives out of the blood impurities which cause rheumatism, makes the blood rich and pure, builds up lost flesh. It helps manufacture new blood cells—this is one of its secrets. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

### NEW BOOKS AT THE COUNTY LIBRARY ON LITERATURE

- BONI**—Modern Book of French Verse  
This volume containing not only the best of the old poetry, but a rich measure of modern and contemporary verse as well—much of it not heretofore easily obtainable—supplies an actual need long felt by those who desire a comprehensive and exhaustive collection in English of the poetry of France.
- Kilmer**—Candies That Burn

- Untermyer**—New Era in American Poetry  
Apart from its value as an appraisal, the volume is noteworthy as a summary of the leading "movements" and figures since Whitman. Its lavish quotations from the poets under consideration make it a sort of critical anthology.
- Walker**—La Fayette, Columbus, The Long Knives  
These plays, which have been tested by performance, give young players unusually picturesque and varied scenes, easily and cheaply made.

## LAND OPENED UP.

MISSOULA, Mont., March 21.—Thousands of acres of Missoula county land, much of it never devoted to any other purpose than grazing, may become homes for settlers if plans of the Northern Pacific railroad, just announced, come to fruition. Approximately 130,000 acres, practically all of the land owned by the railroad in the county, is to be sold. This is the first time since the road was built through here, nearly 40 years ago, that the company has offered any of its grants for sale to small investors. Price lists of the different tracts, ranging from one to twelve dollars an acre, have been received from the general offices at St. Paul, showing an area slightly in excess of 200 square miles to be disposed of, subjects to certain restrictions imposed by the company. Some of the land is good for farming, and other portions fit only for grazing. Oil and mineral rights are reserved in all cases. Prices are said to be much lower than those set when inquiries were made about the land several years ago.
