Cigars.
Darkness (on her front porch).

A Mean Trick!
"Poor Maud! She got cruelly deceived when she married that old man," said Jones.
"Didn't he have any money?"
"Oh, yes, plenty of money, but he is 10 years younger than he said he was."

The Meaning of System.
A capable housewife was trying to impress upon her maid the need of system in her work.
After carefully explaining her own methods in her work, she asked: "Now, Olga, just what do I mean by system? Do you know what system means?"
"Ja, ja," giggled Olga, "see-steem mean doll' thrangs the hardest way."

An Ornithological Purist.
Publisher—In your story, I notice you make the owl hoot "To whom" instead of "to whom."
Author—Yes, this is a Boston owl.

The New Cook.
A man who tried to be funny got a surprise the other night. The car was crowded, and it was raining heavily.
"If any young lady wants a treat," he said, "she can sit on my knee."
To his surprise, a buxom woman accepted his offer. As the car proceeded he asked her where she was going, and was surprised when she mentioned a certain street and number in the suburbs of Boston.
"Bless me," said the man, "that's my house."
"Is it?" came the response. "Well I'm the new cook."

A Catty Answer.
A man had been taken to the hospital wounded in the head.
"How did this happen?" asked the surgeon.
"My wife threw a stone and hit me," murmured the patient.
"Well, that's the first time I ever heard of a woman hitting what she aimed at!"
"Oh, she didn't aim at me, doctor, you will have to pay for."

She threw the stone at our neighbor's cat, and I was standing behind her!
To Be Sure.
Dissatisfied Householder—Do you mean to say that this meter measures the amount of gas we burn?
Gas Collector—I will enter into no controversy, sir; but I say that the meter measures the amount of gas.

Little Willie had accompanied his mother to church, and on the way home he said:
"Mamma, why do they call the minister 'Reverend'?"
"He is called 'Reverend,' my dear, not 'Neverend,'" explained his mother.
"Well," said Willie, "I thought he would never end today."

PAST AND PRESENT.
GRANDPA ALWAYS WARNED HIS FEET IN THE OVEN.

DRAWING LESSONS FOR OUR KIDDIES

Did you ever notice how some people can tell you the name of almost every tree and they will be a half a mile or so away from it? Of course they tell by the shape of the tree. So if you are going to make a drawing of a tree, the first thing you want to do is to get the general shape of the tree marked out first. After that you will find it very easy to make a good drawing of most any tree.
