Neither Greb Nor Gibbons Dempsey's Match

BY HENRY L. FARRELL (United Press Staff Correspondent.) NEW YORK, March 22.—Neither Tom Gibbons nor Harry Greb are ready to be thrown in the cage with Jack Dempsey.

and can punch. Against slow, second rate heavies he is a skilled, great fighter, but against Greb recently he looked sluggish, slow thinking and wild.

Jack Britton, welterweight champion, who had seen Gibbons working in the gym, advanced the theory that he was stale from too much labor boxing and not enough road work.

On his showing against Greb, it seems that Gibbons would be easy for Carpenter and that he could not whip Gepe Tunney.

It may be all right to figure that Dempsey will lose some class with increasing age, but both Greb and Gibbons will be getting older at the same time and both have two or three years on the champion.

Friends of the Pittsburgh boy point out that he missed up the champion considerably when he was sparring with him before the Dempsey-Brennan fight. He may have bothered him then and he would annoy the champion for a while if he went into the ring now, but it would be only for a while.

Move Made to Give U. S. Better Olympic Teams

BY HENRY L. FARRELL (United Press Staff Correspondent.) NEW YORK, March 22.—More good moves to prepare for the 1924 Olympic games are being made by American athletic heads.

The need of distance runners and field men is so generally recognized that special efforts will be made this year to develop stars in these departments.

The intercollegiate athletic association recently added the discus and javelin throw to the program for the college championships and it is likely that the five mile race and the 440 yards hurdles will be included on the card for this year's championships at Harvard.

The discus and javelin events were added for the sole purpose of interesting college men in a line of athletics that has been neglected. America hasn't a man in either event that can come up to the stars of several European nations and it is extremely doubtful if any American can ever reach the point of perfection with the javelin that marks the throwing of the Finns.

WESTON FARMER IS POISONED BY MEAT

(East Oregonian Special.) WESTON, March 22.—Ernest and Ruth Smith of Athena were last week end guests of Ada and Margaret Calder.

slight scratch on one of his fingers. Wednesday evening he motored to Weston with Mrs. Winn to attend choir rehearsal at the Methodist church.
