CHILD WELFARE IS THEME.

Child Welfare was the theme for a meeting of the Pendleton Women's Club yesterday afternoon in the library, the topic being dealt with by Miss Frances S. Hays, field representative of the State Child Welfare Commission; Mrs. Millie R. Trumbull, secretary of the Child Labor Commission; and Judge I. M. Schanep, of the county court.

Miss Hays, in her talk stressed the needs of the children of the state and declared that every individual child appeals for aid. She stated that the commission depends greatly on the people of Oregon for help, and reminded her hearers that the first step toward the foundation of a commission was taken by the National Congress of

Mothers and the Parent Teacher Associations, Oregon being the first state in the union to respond.

"The aim of the commission," Miss Hays stated, "is to make Oregon the best state in the union in which to rear children."

She explained that the commission consists of five people, namely Dr. Rosenfeld, physician appointed by the State Medical Society, Professor Philip A. Parsons, University of Oregon professor who is prominent in child study; William D. Wheelwright, Mrs. Helen Ladd Corbett and Mrs. Edmund Giltner, all appointed by the governor. She stated that the commission supervises all agencies in the state which care for children; supervises maternity homes, and passes on all adop-

tions. Under the topic "Think," Mrs. Trumbull's talk was largely concerned with a discussion of the part that women play at the polls. She deplored the seating of Newberry in congress and criticized Oregon senators for their vote. She urged women to keep in close touch with the affairs of the state and nation and to read closely the bills presented to the legislature and in congress. She urged women to serve on juries.

Quoting Dr. Burton, an Eastern college president, Mrs. Trumbull said that the students in American schools were the most superficial in the world.

"If the bulwark of the nation is the home," said she, "then the home is the place for the teaching of the intimate things of life. Parents should teach sex hygiene to their children rather than having this subject taught by teachers in schools."

Judge Schanep dealt briefly with the perils of the present day as regards the youth of the country and urged mothers to keep in close touch with their children. Horace Sykes, deputy state fire marshal, and William E. Ringold, city fire chief, gave illustrated talks on fire prevention.

Musical numbers were most pleasing. They consisted of two choruses by the fifth grade of Washington school, under the direction of Mrs. S. H. Forshaw; two vocal solo numbers by Mrs. David Stone of Athena, and two by Mrs. James Hill of Pendleton. Mrs. Stone was accompanied on the piano by Mrs. Omar Stephens and Mrs. Hill by Mrs. E. F. Averill.

For the social hour, Miss Hays and Mrs. Trumbull presided. The tea table was centered with spring flowers and lighted by yellow candles.

Mrs. W. D. McNary, who is prominent in child welfare work, was in charge of the program, assisted by members of the child welfare committee of the club. Hostesses for the afternoon were Mrs. William Dunn, Mrs. A. C. Ebert, Mrs. Albert Eklund, Mrs. James Estes, Mrs. J. S. Harvey, Mrs. Ivan Dimick, Mrs. Benjamin S. Burroughs and Mrs. Clara Froster Smith.

DOING HIS DUTY.

"For two years I suffered agonizing pains in my stomach, belching up sour and bitter fluids and gas. Tongue always coated. Doctors were unable to help me. The first dose of Mayr's Wonderful Remedy made me feel 100 per cent better, and I am now feeling better than at any time in my life. I deem it my duty to advise other sufferers." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

- * Adequate sleep is essential for the growing child. A normal child of two or three years will sleep 12 to 14 hours if it is comfortable and left alone. A child of four to eight will sleep ten to 12 hours. Children under 5 should have a daily nap in a quiet place regularly. It is better to have them take it early in the afternoon so that their evening bedtime will be early.—V. D.

FIFTY YEARS AGO

A woman in Lynn, Mass., was steeping herbs on her kitchen stove according to recipe of her own, to furnish medicine for the women of the neighborhood. Today, a stone's throw from the little house where she lived, there is a four-story laboratory, making the same medicine for the women of the world. During the last year almost 500 tons of carefully selected herbs were used in the manufacture of Lydia E. Pinkham's Vegetable Compound.

A woman's medicine for woman's ailments. Have you tried it?
