Formative Shoes Are Restful Shoes for Women.

They're good looking shoes. They're comfortable. They're well made, according to scientific principles which are for your benefit. The shank of every Formative Shoe is of the flexible type, permitting free, natural movement of the arch of the foot in every direction required in walking. Thus, the muscles are exercised, blood circulation made normal and the bones of the arch gently elevated to their proper position. We know how good these shoes are and we are going to continue advertising and selling them.
