SENATORS ARE ADVOCATING CASH BONUS; MOTHER-IN-LAW SHOT BY EX-SOLDIER

TARIFF GIVES WAY TO CONSIDERATION OF BONUS MEASURE

Lenroot Favors Issue of Treasury Indebtedness Certificates to Raise Money.

SENATE CERTAIN TO PASS BILL IS REPORT

Issue Should be Met Squarely According to Strong Sentiment Manifested Today.

WASHINGTON, April 21.—(U. P.)—The tariff bill will be shoved aside to clear the way for the soldier bonus, Senator McCumber announced today. The finance committee expected to start work on the bill today. As the committee began work on the measure, republican senators manifested strong feeling that the senate should meet squarely the issue of paying a cash bonus. Senator Lenroot and others have been advocating simplification of the whole problem by the issue of treasury certificates of indebtedness on which the money to pay the bonus would be borrowed, leaving for later determination the question of raising money to pay off the certificates when they come due. According to McCumber, there will be no more delay or discussion, with the senate certain to pass the bill if given an opportunity.

CLERGYMEN MAKE MOST DESIRABLE HUSBANDS

LONDON, April 21.—(U. P.)—Clergymen are the most desirable husbands, judged by marriage statistics compiled by social reformers. This was a statement made by the Rev. W. Major Scott, of Dundee, during the course of an address to his congregation on the subject of marriage. Business men and men on the Stock Market were regarded as less satisfactory husbands, he added. After clergymen came navy and army officers, professors and teachers. Authors and journalists were regarded as unsatisfactory, and artists were quite hopeless.

ATTEMPT TO ROB BANK FRUSTRATED LAST NIGHT

LACENTER, Wash., April 21.—(U. P.)—A determined attempt to rob the Lacerenter state bank early this morning was frustrated when bandits set off the burglar alarm and aroused citizens who routed them with a hot fire, which the bandits returned. None were injured. The bandits escaped in their car, which had been stolen, later being found riddled with bullets.

WILL CHASE BOOZE RUNNERS BY RADIO

DENVER, April 21.—The first prohibition radio station in the United States, it is believed, will be erected here atop the Federal customs building. Purchase and installation of the plant will begin as soon as formal approval of the project is received from Washington. E. H. McClellan, prohibition director and enforcement officer for the district of Colorado, announced that the radio system is to be employed principally for the detection and capture of "booze runners." "We are anticipating some bold attempts to bring bonded liquor into Denver this summer," McClellan said. "There is practically no bonded liquor in the city at this time. Booze running in winter from Canada is almost impossible because of the heavy snows in Wyoming. When spring begins to open up the Northern trails, however, there probably will be a rush of booze from Canada." "The radio will enable us to get many 'tips' of impending excursions into the United States and into Colorado over the Wyoming line from Canada." Numerous prohibition agents scattered throughout Colorado will be equipped with small, portable "radio stations" to keep in touch with Denver headquarters.

Digs up Rocks in Garden and Finds Indian Skeleton

To bring to light the skeleton of an Indian who entered the Happy Hunting Grounds many moons ago was an experience "enjoyed" by A. Peckavet recently. Mr. Peckavet lives near McKay and the other day while digging in his garden he struck a rock which he decided should be removed. It was while attempting to remove the obstruction to road gardening that the skeleton was discovered. The skull of the departed brave was flat and sloped back abruptly from the eyes. The man evidently was very large and strong, according to the bones. A thorough search of the burial place was made by Mr. Peckavet to bring to light any relics, but in this search he was unsuccessful. While Mr. Peckavet was here today he promised the skull to Lou Scharf, who, in addition to the business of banking, being president of the Commercial association and being a good fisher and hunter, is collecting Indian bones. Mr. Scharf now has in his possession a complete skeleton of an Indian which was discovered not long since on the Alfred Smith ranch. He has promised to show his trophies to friends on the first moonlight night when the atmosphere will be just about right for ghosts to walk abroad.

THOUSANDS OF ACRES OF LAND INUNDATED IN MIDDLE-WEST

CHICAGO, April 21.—(U. P.)—Flooded rivers, crumpled dikes and inundated farms and portions of towns in Illinois, Indiana and Iowa, according to reports to Red Cross headquarters here. The swollen Wabash spread over thousands of acres of crops in Indiana. Flood conditions are worst in Iowa. Water rushed over 40,000 acres of farm land near McClure, reports of hairbreadth escapes and thrilling rescues of marooned families coming from all quarters. Nopes go dead so far as checks have been made. The breaking of the Hartwell levee along a 23 mile front of the Illinois river near Carrollton flooded 30,000 acres of reclaimed farm land. The rising Mississippi flooded the lower portions of Clinton. Railway service at several points have been abandoned.

WHEAT CONTINUES TO ADVANCE IN PRICE

Wheat shows an increase today. May grain closing at \$1.45 1-2, July at \$1.27 1-8 and September at \$1.18 3-4. The closing prices yesterday were May \$1.42 1-8, July \$1.25 3-4 and September, \$1.18 1-2. Following are the quotations received by Overbeck & Cooke, local brokers:

PROFESSOR HASN'T RIGHT TO KISS HIS PUPILS

LONDON, April 21.—(U. P.)—The obligatory rights of a university professor have been determined in the London courts. George Joseph Jones, a junior professor of chemistry at the University of London, was dismissed by the board of trustees after it was charged that he had taken Miss Margaret Hughes Brown, one of his pupils, into a dark room at a university dance and kissed her. Jones, charging wrongful dismissal, was lost.

PORTLAND MARKET

PORTLAND, April 21.—(U. P.)—Livestock steady, eggs weak, butter firm. The McCaleb hatchery in Monmouth is turning out an average of 2500 chicks a week to meet a strong demand from persons entering the poultry business. Thirty incubators are in use.

Lloyd George Declared That Germany Must Annul Treaty or Accept Expulsion.

RESTORE NATIONALIZED FOREIGN PROPERTY

Soviets Will Satisfy Claims of Foreigners Where Property Can Not be Restored.

GENOA, April 21.—(A. P.)—If the Russians are granted recognition by De Jure and are given adequate financial help, they state in a reply submitted to entente today, they are willing to admit Russia's war and pre-war debts, waive counterclaims and restore nationalized property of foreigners to the former owners or satisfy the claims of foreigners in cases where the property cannot be restored. As justifying their contention that the allies could not as a matter of right demand compensation for the property, Russians cite the abolition of slavery in the United States, where neither the Americans nor foreigners were compensated. They also cite the adoption of prohibition in America as a case where no compensation was given the producers of alcoholic drinks.

RAILWAY CONNECTIONS BROKEN IN CHINA

PEKIN, April 21.—(U. P.)—Railway communication between Peking and Shanghai was severed and it is reliably reported here that armed conflict between the rival war lords—Chang Tso Lin, Wu Pei Fu for general of Northern China is under way. All freight traffic in Northern China has been stopped for a week by troop movements.

Local Men go to Pasco to Join in Irrigation Talk

To represent Pendleton and Umatilla county at the conference of friends and boosters of the Columbia Basin Irrigation project a delegation of seven Pendleton men left early this morning for Pasco where Spokane, Walla Walla, Kennewick and other Washington cities are represented in an all-day conference. Those included in the Pendleton delegation are Judge S. A. Lowell, Mayor G. A. Hartman, Roy A. Ritter, C. I. Barr, E. R. Aldrich, Pat Lowerman and Jim Sturgis. Lowerman and Sturgis picked up Walla Wallans on their way over, and the other five men made the trip in Ritter's car.

VONDERAHE MURDER TRIAL TO OPEN ON MONDAY IN COURT

Case of Man Charged With Jenson Killing Promises to be One of Keen Interest.

One of the most interesting criminal cases to be tried in Umatilla county during the past few years will occupy the attention of the circuit court beginning Monday, April 24, when Charles Vonderahe will face the court on a charge of murder in the first degree for the alleged killing of Matt Jenson last July. Especial interest has developed in the case for several reasons. For one thing, the tragedy of Jenson's death has been one of the deepest mysteries in the annals of Umatilla county crime, and it was only recently that the arrest of Vonderahe was effected. Jenson, who is said to have given information to officers on the location of stills in his neighborhood, was killed and his body thrown into an old open well on his ranch in the Government mountain district beyond Milton. The discovery was made in August. Fred Patterson was arrested and held in jail for a while but he was given his freedom after the state had exhausted all information which had at first caused him to be suspected as being implicated in the crime. Later, after the public had apparently forgotten about the killing, the grand jury authorized a further search to be conducted. Special detectives were employed on the case, and on a ruse, Vonderahe was enticed across the line from Washington where he had been living. On his arrival in Oregon he was arrested and charged with the crime. The grand jury indicted him. That a real legal battle will result

FIENDISH MURDER IN GOTHAM PUZZLES COPS

NEW YORK, April 21.—(U. P.)—The police today are without a tangible clue in the second fiendish murder of a woman to occur in New York within two weeks. Mrs. Elizabeth Brodowski was found slain, her body mangled almost beyond recognition last night in an apartment coal bin. Xelle was slain a few days ago by a "Jack the Ripper" and her nude body cast into a tenement hallway.

FLAPPER IS GIRL WITH BIG ENGINE AND 'FLIVVER' BODY

NEW YORK, April 21.—A flapper, according to Cosmo Hamilton, famous author is a girl with a twelve-cylinder engine and a "jitney" body. "She was caught in the unrest that followed the return of the boys from France," Hamilton states, "and in bursting with enthusiasm and vitality that she doesn't know what to do with."
