CIVIL ACTIONS WERE DISMISSED BY COURT

(East Oregonian Special.)

WESTON, April 24.—The suit brought by O. A. Adams against Geo. R. Carmichael was recently dismissed, the account of \$200 claimed by the plaintiff to be due for garage work having been settled by the defendant when four shares of stock in the Weston Warehouse Co. were released, however, they were again attached, this time on an action filed in Justice Richards court at Athena by J. A. Lumsden for the recovery of an account of \$28.39. This action was also settled. The defendant's father claimed ownership of the stock, which had never been transferred on the books of the company, however and is said to have adjusted both the attachment proceedings.

Style plus quality plus savings equals pocketbook satisfaction and the fact that you're buying right!

It is not necessarily alone the price you pay that means pocketbook satisfaction. It's what you receive for the price that in the end proves the genuineness and extent of the satisfaction you experience.

It's the style, the quality and the workmanship in your purchase at a price, that determines the lowness of that price!

A quality-providing ability of this kind is the result of a store's buying power—whether the buying in the market was made for one store or hundreds of stores; whether the buying was done with a thorough understanding of the needs of the store's patrons or bought wildly and haphazardly to eventually be sold at so-called "sales."

The buying for our 312 department stores obtains lowest possible prices and the pick of style and quality. This results because of the vast quantities of goods our combined stores require.

By buying here you know you are buying right.
