GETTING BACK TO GOD WAS SUBJECT

(Synopsis of sermon by W. A. Gressman, at First Christian church, Sunday evening, the subject being: "Getting Back to God.")

William Jennings Bryan says that "the paramount need of the world today is whole-hearted, whole-souled, whole-minded faith in the living God." Indeed, the sense of responsibility to God is the most potent influence in life. Daniel Webster expressed it when he said: "The most important thought that ever entered my mind was that of my individual responsibility to God." In fact, all the sin and trouble in this world are caused by departure from God.

Getting back to God does not require that we must first have a full explanation of God. The atheist who says that he cannot believe in God unless he can see and explain Him is inconsistent. Such atheist cannot explain much about sunshine, nor see his brain, nor see and explain love, so how does he know there are such things?

To get back to God we must believe in God. The evolutionary theory which links man with the ape and still lower animal life is against the Bible and against God as the heavenly Father. If such were true, we would then have been farther from God as an intelligent being than we now are. The atheist begins no farther back than the nebular hypothesis, in explaining a creator. In this, he assumes the existence of matter and force, but he offers no explanation as to where these came from. The only rational explanation of creation is, "in the beginning, God."

Getting back to God requires a vision of God—a spiritual vision. "The pure in heart shall see God." A true Christian is pure in heart. By becoming a Christian, we get back to God; and by living the Christian life, we walk with God. We get back to God by way of the Bible, which is by the way of Christ.

Side Lights On Yesterday's Game

Was the ump all right?
All together now, YEA BO!

He sure looked good after seeing the last two games.
It was a tough game to umpire too.
He came from Dayton.

They haven't much use over there for Walla Walla since that protest last Sunday.

Timor says that protest was caused because Walla Walla fans had beat over 1000 bucks on the game.

They sure did hate to see it go slimmering.
Milton-Freewater didn't see first during the first inning.
They made up for it in the ninth.

Fisher was the BIG noise on first base for the Prune Pickers.

He even tried to coach the band.
Bill swung heavy the first two trips to the plate but only hit the air.

He will be better when his cue finger gets well.
Ole had better luck.

He was hit by a pitched ball his first trip to the plate.
"Chief" Bettles sure had a hard job handed him in the ninth.

He showed the fans some classy baseball.
The goat got tangled up in his rope.
That may be the reason he didn't bring victory this time.

Some men needed the money worse than the team.
They crawled through the fence near the tennis court.

The boys have a chance to get even with Walla Walla next Sunday.

Here's hoping they remember the Walla Walla umpire and lay heavy on the sticks.

The Prune Pickers pinch hitter in the ninth sure did start something.

The east end team has at last found some PEP and will give the other teams some trouble in the future.
