HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

- Green Tomato Pickle
- 1 gallon of green tomatoes.
- 1/2 dozen large onions.
- 3 cupsful of brown sugar.
- 1/2 lemon.
- 2 pods of red pepper.
- 2 cupsful of vinegar.
- 1 tablespoonful of whole black pepper.
- 1 tablespoonful of whole cloves.
- 1 tablespoonful of allspice.
- 1 tablespoonful of celery seed (crushed.)
- 1 tablespoonful of mustard seed.
- 1 tablespoonful of ground mustard.
- Slice the tomatoes and onions thin. Sprinkle over them one-half cupful of salt and let stand over night in a crock or enamel vessel. Tie the pepper, cloves, allspice, and celery seed in a cheese-cloth bag. Slice the lemon and chop two pepper pods very fine. Drain the tomato and onion well. Add all seasoning except one pepper pod to the vinegar, then add the tomato and onion. Cook for one-half hour, straining gently at intervals to prevent burning. Remove spider-bait to prevent darkening product. Pack in pint jars and garnish with slender stripes of the red pepper, placing them vertically on the opposite side of each jar. Process for fifteen minutes (75°-114°).—V. D.

MARKED DECREASE MADE IN HOURS OF LABOR

WASHINGTON, D. C., May 16.—The Department of Commerce calls attention to the fact that the returns of the 1919 census of manufactures indicate a general and marked decrease in the prevailing hours of labor. Of the 9,096,372 wage earners reported by that census, 4,118,692 or 45.3 per cent were employed in establishments where the prevailing hours of labor per week were 48 or under, while in the previous census, covering the year 1914, the number employed in this class of establishment was only 332,330 representing 11.5 per cent of the total number of wage-earners.

The establishments in which the hours of labor were 48 per week in 1919 employed 32.6 per cent or about one-third of the total number of wage earners, and those in which the hours were less than 48 employed 16 per cent of the total.

In 1914, 74.6 per cent of the total number of wage earners were employed in establishments where the prevailing hours of labor per week were not less than 54, and 26.9 per cent in establishments operating not less than 60 hours per week. In contrast with this the census of 1919 reported 31.9 per cent employed in the former class

YOUNG MOTHER NOW STRONG

Her Mother's Faith in Lydia E. Pinkham's Vegetable Compound Led Her To Try It

Kenosha, Wisconsin.—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother had great faith in it as she had taken so much of it and when I had trouble after my baby was born she gave it to me. It helped me so much more than anything else had done that I advise all women with female trouble to give it a fair trial and I am sure they will feel as I do about it.—Mrs. FRED. P. HANSEN, 562 Symmonds St., Kenosha, Wisconsin.

A medicine that has been in use nearly fifty years and that receives the praise and commendation of mothers and grandmothers is worth your consideration.

If you are suffering from troubles that sometimes follow child-birth bear in mind that Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is especially adapted to correct such troubles. The letters we publish ought to convince you; ask some of your women friends or neighbors—they know its worth. You will, too, if you give it a fair trial.

EMPLOYMENT SHOWS INCREASE IN APRIL

WASHINGTON, D. C., May 16.—President Harding's Conference on Employment, through its Secretary, Edward Eyle Hunt, issued the following bulletin today concerning the increase in employment through the United States:

"From all figures available, employment is showing a steady and sustained gain. April reports are the most encouraging of the year and clearly indicate the upward trend of industry and business.

"Based on returns from the United States Employment Service, April has shown the greatest gain of any month in 1922. For every 100 jobs listed during the month there were 159 applicants, as against 182 in March, 205 in February, and 228 in January. This is a decrease of 33 per cent in the number applying for work during the first four months of the year.

"In April, 54 applicants for employment were placed for every registration, as against 45 for March, 41 for February, and 35 for January—a gain of 42 per cent.

"These figures cover reports from 31 states and the District of Columbia and include the principal cities.

GRAIN EXPORTERS MADE 38 TO 58 PER CT. PROFIT

WASHINGTON, May 16.—(I. N. S.)—Swollen profits made by grain exporters and practical control of American trade by foreign owned companies were featured in a report of the Federal Trade Commission submitted to the senate in pursuance with a resolution asking investigation of the grain export trade.

The average profits of grain exporters during 1920, 1921 ranged from 38 to 58 per cent, the commission said, while some companies turned their capital over "more than a hundred times a year."

OFFICERS ELECTED

F. L. Jewett, representing Umatilla county, was chosen president of the Oregon Co-Operative Hay Growers' Association at a meeting held in Hermiston last night. The association is made up of growers from Umatilla, Morrow and Deschutes counties. Hawley Bean of Hermiston, was chosen vice president. These officers, with A. W. Cobb of Boardman, Lee Savelly of Butter Creek, F. A. Baker of Stanfield, George Boddow of Columbia, Ed Winesett, of Hermiston, and Fred Bennion, county agent, make up the executive board. Mr. Bennion represents the public's interests and is chosen by O. A. C. Reports at the meeting showed that the financial condition of the association is "good and that it has been a factor in stabilizing the hay market. Formerly, Yakima hay growers received about \$1 more than other growers, but this year association members received \$1 more than Yakima growers. The members were saved 50 cents a ton by the co-operative buying plan. Profits were slightly lowered by the shipment of hay to the Atlantic seaboard. L. A. Hunt is manager of the association.

THE COST Per Year

The Automatic

Uses less ice!

When you consider the life of a genuine Automatic refrigerator, which is at least 15 years—
—and when you consider the amount of money you actually save because of using less ice—
—and when you consider the saving in foods, which never mildew or spoil in an Automatic—
THEN, it is easy to figure out for yourself that the cost per year for an Automatic is a trivial amount.
