### GOLF HAS MANY MORE CONVERTS AT SPOKANE

SPOKANE, Wash., May 16.—Golf in Spokane this year boasts 25 per cent more converts than last year. With the immediate result that two of the three greens of the city are being standardized, and the third lengthened, at an aggregate cost of nearly \$30,000 for land and improvements.

Golfers of the Manito Golf club have given up the nine-hole green leased by them for a number of years, and have bought a new green site at a cost of \$21,000. Work of building the links is already in progress. Play on the first nine will start probably sometime in July, and the second nine will be finished in time for the 1923 season.

Ground for an additional nine holes on the Downriver municipal links has been purchased by the park board for \$8,500. The second nine, completing the 18-hole standard course, will be finished by December 1, 1922. Local golfers contributed \$2500 of the purchase price as a community gift, the board not being able to include the first payment on the land in this year's budget.

The upper nine of the Spokane Country club course is being lengthened about 80 yards. The course already was standard, but the increased distance is expected to help improve the play.

Plans are being made for organization of women golfers on the municipal course.

### Woodring Is Fastest Man In The World

BY HENRY L. FARRELL

(United Press Staff Correspondent.)

NEW YORK, May 16.—While sprint records and field marks have been consistently shattered in the past two years, the quarter-mile record of 47.4 seconds made by the great Ted Meredith in 1916 is one of the few that have remained beyond the reach of the present day super-stars.

How long Meredith will remain as the fastest man of all times at 440 yards seem to be up to the willingness of Allen Woodring, of Syracuse University, the Olympic 200 meters champion, to go out for it.

Not excepting Charley Paddock, the Pacific Coast flyer, Woodring has been regarded as the fastest man in the world today at 220 yards, but owing to his rather slight build he had not been considered a record-making possibility at a quarter-mile until the Penn relay games recently.

Running as an anchor man for Syracuse in the one-mile college relay championship, Woodring got away seven yards behind Bill Stevenson, Princeton captain and the national quarter-mile champion. Woodring ran him off his feet and won the race after doing a quarter in the unorthodox time of 47.4-5, equalling the world's record.

Considering the fact that the timers all caught him the same and that the event was run late in the afternoon, when the track was chopped to pieces by two days of incessant pounding and cutting, the performance was phenomenal.

If he maintains the form he had in that race, there is little doubt that Woodring will be able to make a new record for the quarter on the Harvard track in June, if he goes out for that event in the intercollegiate championships.

### TRACK AND FIELD STARS TO COMPETE

PORTLAND, Ore., May 16.—Track and field stars of the Pacific Northwest will have an opportunity to contend for new honors at the annual Pacific Northwest track and field championships to be staged here by the Multnomah Amateur Athletic club June 3, as the athletic feature of the Portland Rose festival.

The event will be an open meet. Individual athletes holding membership in the American Amateur Athletic union will be eligible without representing any club or school. Invitations have been extended stars from the University of Washington, Washington State College, University of Idaho, University of Oregon and Oregon Agricultural College.

Verne Windnagle, former Cornell distance man, now chairman and coach of track at Multnomah, holding here, has been placed in general charge of arrangements for the meet.

### \$3000 IN PRIZE MONEY OFFERED AT SHOOT

SACRAMENTO, Calif., May 16.—(A. P.)—More than \$2,000 in prize money has been offered winners in the California-Nevada trap shoot in Sacramento May 23-25, during the "Days of '49" celebration. Invitations have been sent sportsmen in all parts of the Coast and from reservations already received it is thought the event will be the greatest of its kind ever held on the coast.

In addition to money prizes, a \$200 diamond medal, a lion's skin and a \$100 puppy, as well as a long list of novel prizes, have been offered.

George Winfield, of Reno, and Alden Anderson, Sacramento, are among prominent trapshooters who will participate.

### 3000 Hours of Solid Comfort

Your legs are the two best reasons for wearing PARIS Garters. You can be sure of 3000 hours of trim socks and happy legs for 35 cents if you say PARIS when you next buy Garters.

### Not a Trick Photograph

You might think this double exposure photograph, but it isn't. Scrambled twins—Lawrence Blockstock, Winston Doty, Lester Blockstock and Weston Doty—just two of the nine pairs that attend one school in Los Angeles.

Lamb Feeding Profitable

Lamb feeding experiments conducted for two seasons at the Eastern Oregon branch station by Robert Whithycombe, and reported by H. A. Lindgren, extension specialist in livestock, were not only highly profitable but they shed light on the problem of what constitute a proper ration for fattening lambs. The summary of the results as they apply to the feed are as follows:

1. Alfalfa hay and barley constitute a very satisfactory ration for fattening lambs.
2. Lambs fattened on alfalfa hay with and without silage made satisfactory gains and while the silage increased the gains slightly the advisability of its use in the fattening ration must be determined by the cost per ton to produce it.
3. Lambs in the feeding tests this year returned a clear profit of \$6 a head. The spread in prices between feeders and finished lambs however, was larger than normal, the price of lambs having doubled the feeding time.—O. A. C. Experiment station.

### FOR SKIN TORTURES

Zemo, the Clean, Antiseptic Liquid, Just What You Need

Don't worry about Eczema or other skin troubles. You can have a clear, healthy skin by using Zemo obtained at any drug store for 35c, or extra large bottle at \$1.00.

Zemo generally removes Pimples, Blackheads, Blisters, Eczema and Ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid. It is easily applied and costs a mere trifle for each application. It is always dependable.

### He-Flappers Are London's Latest

BY WILLIAM M. SWEETS

(United Press Staff Correspondent.)

LONDON, May 16.—London has discovered the he-flapper. A trousered but no otherwise over-masculine prototype of the American flapper has sprung up in large numbers.

Cartoons and conversations dwell upon the latest link.

Male vamps of tender years are making miserable the lives of film producers. Each thinks his plastered locks destined to glisten on the celluloid screen. And aren't those youths, persistent, though? Simply won't take no for an answer.

These he-shifters are not to be confused with the Nut. The Nut is an old established British tradition, like Nelson's telescope or tossing the pancake at Westminster College. He is the young man who sets the fashion and follows it assiduously. He is the one excuse for the superstition that Englishmen are welders.

The he-flapper is of a different category. He is stage-struck and makes lounge lizards seem hard working business men by comparison.

The he-flapper runs to:  
Sandals.  
Long, sometimes jeweled, cigarette holders.  
Sport shirts with string ties.  
Purple velvet hats.  
Absinthe and vermouth at Regent-street cafes.  
Wide colored scarves about the waist instead of "braces" or a belt.  
The pest is most prevalent in London's West End, but out in the suburbs the police unearthed a sort of training school for he-flappers. Headquarters of a band of boys, sworn to secrecy, and pledged to perform one "exotic" deed a day was raided, and some sound spankings administered.

### Waistline at Hips

The waist line seems to have set tied at the hips and is secured there by means of the tie-on blouse so popular for sports this summer.

# Straw Hat Time Is Here

This store for men is acknowledged headquarters for Hats of all types at prices that will please your purse.

Sailors are the right style this year in Senits and Rough Braids with soft innerbands to fit every head.

### Bigger Yields on Fordson Farms

THE big yields Fordson farmers enjoy are the envy of the community. The only reason other folks don't get as many bushels is because they don't work the land so well.

Plow and disc and culti-pack without delay. That's what makes the perfect seed bed that brings big yields. Every farmer knows that is the thing to do, but those who farm with horses can't seem to find the time.

The difference is all due to one simple thing; the man who uses a Fordson Tractor and an Oliver No. 7 Plow will plow seven or eight acres while his neighbor is plowing two acres with a team. The Fordson farmed land can be plowed at just the right time.

Over 200,000 Fordson Farmers Use Oliver Tillage Implements
