

DAILY MARKET NEWS, LOCAL AND GENERAL

Including Pendleton Prices and Associated Press Reports

Hogs and Lambs Weaker at Portland (From The Oregon Journal.) Hogs were inclined weaker, cattle ruled quieter, sheep were steady and lambs weaker at the Wednesday North Portland openlink. Run for the day included seven loads. While a mere handful of hogs sold at \$11.50, the top of Tuesday for prime light, the swine market in general did not range above \$11.40, or a drop of 18c during the Wednesday morning session. Run of hogs in the alley was but \$47 head, but killers appeared to be affected by the heat of the day but did not respond to the offerings. General hog market range: Prime light \$11.25@11.50 Smooth heavy, 230-300 pounds 10.50@11.00 Smooth heavy, 290 lbs. up 10.00@10.50 Rough heavy 7.00@8.50 Fat pigs 11.25@11.50 Feeder pigs 11.25@11.50

Slage 5.00@7.50 With no carload shipments in for the day, Wednesday morning's North Portland cattle market was inclined to rule nominally steady with former prices continued. General cattle market range: Choice steers \$8.50@9.00 Medium to good steers 8.00@8.50 Fair to medium steers 7.00@8.00 Common to fair steers 6.50@7.00 Choice cows and heifers 6.75@7.35 Medium to good cows and heifers 5.75@6.75 Fair to medium cows and heifers 5.00@5.75 Common to fair cows and heifers 4.00@5.00 Canners 2.50@4.00 Bulls 3.75@4.75 Choice feeders 4.75@6.25 Fair to good feeders 3.25@4.25 Choice dairy calves 3.00@10.00 Prime light calves 8.00@9.00 Medium light calves 7.00@8.00 Heavy dairy calves 4.50@7.00 While sheep were steady, lambs

were weaker at North Portland for the Wednesday opening. Run in the division was 785 head but of these 260 head or one load went direct to outside killers. While lamb prices indicated weakness, former values were nominally continued. General sheep and lamb range: Best spring lambs \$12.00@12.00 Medium spring lambs 9.00@12.00 Common spring lambs 7.00@10.00 Cull lambs 6.00@7.00 Light yearlings 10.00@11.00 Heavy yearlings 9.00@10.00 Light wethers 3.50@10.00 Heavy wethers 3.00@3.50 Ewes 2.00@7.00

Coppers and Steels Domestic Market. NEW YORK, May 18.—(A. P.)—Trading in bonds yesterday was enlivened by the more active and broader operations in the stock market, where industrials especially coppers and steels, were the dominant features. Domestic and foreign war flotations held within narrow price limits, leaders of that division again closing at mixed gains and losses. Mexican 4s and 5s were the strongest, but British and French loans were practically featureless. Investment rails tended upward, but junior speculative rails were relatively dull in large fraction. Cerro de Pasco 8s and Chile Copper 7s featured the metal group at substantial gains. The better known steel bonds moved irregularly and Midvale 6s were not responsive to the sudden advance in the stock. The total bond sales, par value, aggregated \$15,973,000. For the first time in several years copper shares overshadowed all other issues as the foremost features of the stock market. Their rise of 1 to 5 points on very extensive transactions was attributed to improved conditions in the metal industry.

According to disinterested observers, however, the strength of metals was mainly due to the concerted efforts of professional interests, which apparently regard that group as the best vehicle for the further advance of quoted values. Predictions of an early rise in refined copper price to 14 cents per pound were freely made in trade circles. Attention was directed to the fact that silver and the base metals have shown almost steady enhancement recently. The speculative interest in steel stocks was revived on news that leading manufacturers had been invited to Washington to discuss present and future trade conditions with President Harding and other members of the administration. Steels had their inning in the last half of the season, when Midvale rose an extreme of 6 1-8 points and closed at a net gain of 4 5-8 as result of unconfirmed reports to the effect that the company will be absorbed by Bethlehem. Republics and Republic steels, as well as several others of that group, also closed 1 to 3 points higher, but Bethlehem was relatively heavy and United States and Lackawanna finished at moderate losses. Oils and motor equipments, as represented chiefly by Mexican Petroleum, Studebaker, Baldwin Locomotive and International Harvester, contributed substantially to the markets constructive side, Harvester gaining 5 1-2 points. United Drug was the strongest of the inactive specialties at a gain of 6 points. Secondary issues dominated the rails until well toward the finish, when Reading and Canadian Pacific were in process of accumulation with Rock Island, New Haven, St. Paul and Baltimore & Ohio. Sales amounted to 1,575,000 shares. The money market again ignored withdrawals of funds for federal account, call loans ruling at 3 1-2 per cent throughout. Time funds were plentiful supply at 4 1-4@1 1-2 per cent, but all but concessions were reported on prime commercial paper.

Cables from abroad suggested depression in London and on the continent, growing out of the latest political and economic developments. This was not reflected in foreign exchanges, the British rate holding firm, with only moderate reactions in allied bills and German marks. Far eastern exchanges strengthened, probably on the further rise of silver in London.

Inform Yourself About These New Uses for Kingsford's Corn Starch—Very Interesting to Every Housewife

IF your recipe calls for four eggs to one quart of milk, use three eggs, and for the egg omitted use half tablespoonful Kingsford's Corn Starch. It is not necessary to purchase both a bread and a pastry flour. By using one-fourth cup of Kingsford's Corn Starch to three-fourth cup of any good flour the percentage of gluten is decreased and the starch content increased so that home prepared flour will make a lighter and finer grained cake. For smoother, glossier gravies and sauces use a dessertspoonful of Kingsford's instead of a tablespoonful of wheat flour. For lighter, flakier biscuits, pie crusts and muffins, make your pastry flour with 1/4 cup of Kingsford's and 3/4 cup wheat flour. FREE: Ask your grocer or write Johnson-Lieber Company, Portland, Oregon, for beautiful folder of the new Kingsford Corn Starch recipes.

COLORADO COAL OUTPUT SHOWS HUGE DECREASE

DENVER, May 18.—A decrease of approximately 30 per cent in the production of coal in Colorado in 1921 over the previous year is shown in the annual report of James Dalrymple, State Mine Inspector, made public here this week. Production last year was 9,141,947, as compared with 12,514,633 tons in 1920. The decrease was attributed to "general depression, wage disputes and strikes." The report shows that fifty-eight fatalities occurred in the 249 mines operated in the State during the year, and 1,530 miners sustained injuries.
