WHY ARE SOME WOMEN POPULAR.

happy, beloved and successful, while others drag out a negative existence, of no use to themselves or anyone else? Except in a few cases the answer is to be found in a state of freedom from the troubles known as "female." The well woman radiates cheerfulness and serenity, while the ailing one reels because of her lack of these qualities. It is not necessary, however, to harbor aches and pains, and the "blues" that make one a detriment to society. The use of Lydia E. Pinkham's Vegetable Compound has brought relief to such women, and given them a new lease on life.
