

Social and Club News

SOCIETY HAS MEETING.

The Presbyterian Missionary Society met yesterday afternoon in the reception rooms of the church with twenty-five members and visitors present. Mrs. Louis Geiss gave a paper on "Spanish Speaking Americans" and Mrs. Alice Munro read a paper dealing with the "Background of Understanding." Mrs. J. E. Akey gave a book review on "The Kingdom of the Nation."

Husbands for the afternoon were: Mrs. J. F. Matthews, and Mrs. A. T. Perkins. Mrs. Charles Koch presided at the tea table during the social hour, and snowballs and peonies were grouped about the room. The next meeting will be at the Tutuilla mission in June, with the officers of the society as hostesses.

LIKE CLOUDS ACROSS A SUMMER SKY

Foretelling the dreaded storm are the symptoms of women's diseases which point the way to physical and mental breakdown. The nervous irritability, the headache, the dragging pains, are not only hard to endure, but they bring certain knowledge of collapse unless something is done to relieve the sufferer. There is one standard remedy which has shown the way out for nearly fifty years. The women who have "come back" through the use of Lydia E. Pinkham's Vegetable Compound present an argument stronger than words could ever be.

Autographic Brownies

The Brownies that fold—we stock them.

These cameras are Eastman made with Brownie simplicity in Kodak factories by Kodak workmen. There is no secret about their popularity.

Take the 3A, shown above, for example. It folds like a Kodak and has the exclusively-Eastman, autographic feature. The lens and shutters are carefully tested. Pictures are post card size—3 1/4 x 5 1/2 in. And yet its price card reads "\$14.50."

Ask to see the Autographic Brownies at our photographic department—it will prove worth your while.

REMAINS OF OLD FISH FOUND NEAR EUGENE.

EUGENE, Ore., May 26.—(U. P.)—The subject of the first fish story has been discovered, or at least this is the assumption of the University of Oregon campus, there being no information to the contrary.

This fish outdates that into which Jonah did his famous disappearing act, and Francis Linklater, of Hillsboro, Or., has a piece of the fossil to prove it.

Linklater found the bit of fish on the banks of the Willamette river near Springfield. According to Dr. E. L. Packard, of the university geological department, the bit is at least 2,000,000 years old. It certainly is not fresh fish.

"This is the first time that any remains other than those cartilaginous have been found in this vicinity," Dr. Packard stated. "The fish probably was 10 or 12 feet long."

Over the ouija board or via seance the ghost of the fellow who caught this fish might chuckle: "Wrong, doc; that fish was as long—as long as that, anyhow," spreading his writhing hands apart. "You ought to have seen the one just like it that got away."

'WHIZ BANG' BARRED FROM HAWAII ISLANDS

HONOLULU, May 26.—(U. P.)—The Fawcett Publishing Co., of Robtsville, Mo., publishers of the "Whiz Bang" may go to court here in order to try to obtain the right to circulate their magazine in the Hawaiian Islands, where it has been barred, according to a recent letter from Harvey Fawcett, head of the firm. Fawcett is well known here, having resided here at one time.

Fawcett in his letter declared that the "Whiz Bang" is not barred anywhere in the United States except in Honolulu, and in Orange county, California. Arrangements are now being made to send the company's special counsel to Orange county in an effort to compel the authorities there to remove the ban. Fawcett declared in his letter, which he duplicated and sent to a number of Honolulu officials.

VANCOUVER, British Columbia.—An interesting order to Western Canada is one just booked by a local shipping agent. It is for the movement of 19,000 tons of Western Canada oats to Trinidad. This is a new field for Canadian grain.

WINNIPEG, Manitoba.—Lake Winnipeg is expected to produce upwards of 1,500,000 pounds of whitefish this season, in addition to a large catch of pike, jackfish and tullibee.

HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

Laundering with lace
 * Pieces trimmed with lace should have the center of cloth part, ironed first and the lace last. If any part should dry out while ironing, dampen a clean white cloth and rub over the surface of the piece to make it slightly wet. Lace edges should be gently pulled out with the fingers, so as to bring out the pattern clearly.

* After ironing embroidery eyelets, lift them a trifle from the wrong side by inserting the point of a stiletto into each eyelet and then pushing it in just far enough to raise the work a little on the right side.

* Embroidery pieces should always be ironed perfectly flat—never folded—as a flat, unbroken surface adds much to their beauty. If embroidery pieces are not to be used immediately after laundering, lay them perfectly flat on a drawer where they will not be in danger of becoming wrinkled. Pieces too large to be cared for in this way should be rolled carefully on a smooth pasteboard tube, such as the tube on which tissue and oiled paper is rolled. If the embroidery piece is too wide for a tube of this kind, roll newspapers together to form a roll of the desired length. Always wrap a piece of paper around the roll before putting it away, so that the embroidery will not become soiled.

Laundering Embroidery Worked With Colored Thread
 * If the embroidery work is done with colored thread, a treatment slightly different from the foregoing is advisable. Wash the piece in lukewarm suds as quickly as possible, rinse it a couple of times in water, and iron it at once, following the directions just given for ironing. Do not roll it up or let it stand, but pin the piece entirely.—V. D.
