Becoming imbued with the hiking fad, two of Milton's young men, Ray Cookburn and Paul Sevy, started on a trip to Corvallis, intending to walk all the way except where they would be invited to ride, by any one overtaking them, or be given a ride by any one whom they might signal to stop. The boys seem to have been very fortunate, for they reached Portland the first day, and Corvallis, their destination, the third day, although they stopped some time in the metropolis. They started Friday, May 29, and reached Corvallis the Sunday following. They are intending to attend school at Corvallis this winter and they went down to look the situation over. Whether they will walk (?) back or not is not known.

BATES ON THE PAYROLL ALL WINTER LONG

Oregon Man Says Tanlas Built Him Up 25 Pounds and Kept Him On Job By Completely Overcoming His Long-Standing Stomach Trouble.

"Tanlas not only built me up twenty-five pounds but it actually kept me on the payroll all winter," said C. T. Bates, 470 E. Matilla Ave., Portland, Ore., employee of the West Side Lumber Co.

"I suffered so bad from stomach trouble and a run-down condition for three years that even the slightest foods gave me indigestion. Gas on my stomach gave me awful cramps and my heart palpitated so I could hardly breathe. I had dreadful headaches and dizzy spells, and my kidneys bothered me too, with such sharp pains in my back I could scarcely bend over. Nothing helped me and I got so weak I had to give up my job when winter came for I didn't have strength to stand the cold.

"When I read how Tanlas helped other people with troubles like mine, I decided to try it. I improved from the very first, now feel fine all the time and will always have a good word to say for Tanlas. It's a world beater."

Tanlas is sold by all good druggists.

SCHOOLS

FIELD SCHOOL
Second Grade
Garden Fair at Field School
A garden fair and festival was held at the field school on Friday, May 26, as a result of a garden project which Mrs. Pratt has been working out with her second grade pupils.

Such an abundance of sandwiches and cake were brought by the friends of the second grade pupils that the whole school and all of the visitors were served.

First Grade.
May Day afternoon the 2nd and 3rd grades surprised the 1st. They came in each carrying May baskets of his or her own construction, filled with flowers, nuts and candy and edged with fluttering birds. Marching up and down the aisles they left two or three of the pretty baskets on each desk and eight on the teacher's desk thus making the first grade room a bower of bloom. Forming around the room they gave an excellent short program and marched out followed by hearty applause.

Last week, the bees of a neighbor very obligingly swarmed during the noon hour, hanging in a big dark mass from one of the trees in the school yard, affording much interest to the children. The study of the "Busy Bee" and his traits made interesting afternoon work.

In the reading test this week Sylvia Knight had highest rank and in number, Violet Swan.

AUSTRALIAN TO MAKE REPORT ON PROHIBITION

SAN FRANCISCO, June 2.—(U. P.)—Forty days in New York City without seeing a drunken person, and several months in the United States only having seen two or three, is the record claimed by Dr. Gifford Gordon, of Melbourne, Australia, who has been lecturing in this country. He is now enroute home with the message that prohibition in the United States has absolutely stopped drunkenness, according to his own acute observations.

Managers of the flower show, which is to be held in Redmond in August, have decided also to feature the early fruits and vegetables.
