HAY GROWERS PROTEST OREGON R. R. RATES

The Oregon Co-operative Hay Growers Association, the C. S. McNaught Co., the Hermiston Commercial Association and the Stanfield Commercial Association represented Unadilla county yesterday in Portland when a vigorous protest against railroad rates in Oregon, which compel shippers of alfalfa hay in the eastern and central Oregon producing points to pay from 25 to 60 per cent more than eastern Washington producers pay to send hay similar distances to dairymen in western Oregon and tide-water marketing points was made in a hearing before the public service commission.

Testimony was heard by the entire commission—Newton McCoy, chairman; H. H. Corey and T. M. Kerrigan.

Points brought out in the Columbia basin grain rate war were cited in the hay hearing. L. A. Hunt of Hermiston, manager of the Oregon Co-operative Hay Growers, was star witness for the plaintiffs yesterday, being on the stand most of the day.

Instances are cited that the rates on Oregon railroads were materially higher than Washington railroad rates, citing numerous specific instances involving shipments from eastern Oregon to Portland, Astoria, Tillamook, Yacoma, Albany and Marshfield. Rates from east Washington and Idaho for similar distances are from 25 to 60 per cent lower, it was stated.

Some of the hay growing districts represented at the hearing, which will continue for the rest of this week, produce from 150,000 to 250,000 tons of hay annually.

Hai Wiggins attended the hearing as traffic expert for the commission. Frederick Stelwer appeared as counsel for the co-operative hay growers and conducted the examination of witnesses. Paul P. Farris represented the Southern Pacific, W. A. Robinson represented the Oregon Railway and Navigation company, and R. W. Pickard the Spokane, Portland & Seattle, Oregon Trunk, Oregon Electric & United Railways.

Defense is indicated. Though the case of the railroads has not yet been presented, examination indicated that it would be predicated on the fact that the Washington railroads now have a petition before the public service commission of that state seeking permission to raise the rates on hay shipments because of their present ridiculously low level—at least "ridiculously low" in the eyes of the railroads.

Establishment of terminal or through rates in Washington and failure to establish the same in Oregon was said by the plaintiffs in the case to constitute "an unreasonable, unfair and discriminatory practice in favor of dairymen living in western Washington as against dairymen living in western Oregon, forcing the Oregon dairymen living an equal distance from market, as compared with Washington, to pay an unjust, unreasonable and discriminatory freight rate upon the hay bought for local consumption."

The complaint was made by the Oregon Co-operative Hay Growers, represented by Mr. Hunt; the Oregon state granage, represented by C. E. Spence of Clackamas, state granage master; C. S. McNaught company of Hermiston, represented by E. P. Dodd, president; the Oregon state farm bureau, represented by George A. Mansfield; the Deschutes county farm bureau, represented by E. M. Ely of Redmond; the Bend Commercial club, represented by L. Antles, secretary; the Stanfield Commercial club, represented by James Kyle; the Tallamook Dairy association, represented by Carl Haberlach of Tillamook, and the Columbia county Jersey Breeders' association, represented by L. G. Smith of Scappoose, president.

ANOTHER AUTOIST TRIES TO BEAT TRAIN; THREE WOMEN WERE KILLED

RICHMOND, Calif., July 7.—(U. P.)—Autoist Ed Bieler tried to beat a train at a road crossing last night. Bieler will probably recover but Mrs. Ruby Bieler, Miss Marjorie Adams and an unidentified girl were killed.

BRITISH APPROPRIATION GREAT AID TO CANADIANS

OTTAWA, Ont., July 7.—The Empire Settlement bill recently passed by the British House of Commons makes available 15,000,000 pounds sterling annually for fifteen years for the purpose of financing British colonists who desire to settle in overseas dominions of the Empire. The bill, it is believed, will prove a great impetus to immigration to Canada from the British Isles.

The bill provides that one-half of the sum made available shall be devoted to paying the passage of settlers to the dominions they select as their future home and the other half is to be used to make loans to them after they have gone upon the land. The maximum loan to each settler is reckoned at \$1,500 by the government.

HARDING DECLARED DRY LAW VIOLATOR

WASHINGTON, July 7.—(U. P.)—President Harding is the "main responsible for the most open and flagrant violation of the eighteenth amendment," Senator Caraway, Arkansas, democrat, charged in a bitter denunciation of the administration in the senate. Caraway particularly attacked the sale of liquor on shipping board vessels.

BUSINESS MAN SINGS PRAISES

"I suffered for years with stomach trouble and gas continually. Doctors thought I had stomach ulcers or cancer. After last attack they advised going to Rochester, Minn., for an operation. A friend advised trying Mayr's Wonderful Remedy, which I did, and I cannot sing its praises too highly, as I can now eat anything and everything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and attacks the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

APPLIES PSYCHOLOGY TO HENS' EGGS

SYRACUSE, N. Y., July 7.—Webster's definition that psychology is the science of the human soul is due for an amendment as a result of the experiments of Mrs. Thomas Flanagan, of Lillian avenue, Eastwood, who has been delving into the effect of that doctrine on eggs.

If the chicken within the egg has no soul it has something that is susceptible to thought transference, and the mother hen can be influenced through the same medium, Mrs. Flanagan declares.

"I use psychology," explained Mrs. Flanagan. "After my hens began to set it occurred to me that I might get better results if I 'concentrated' on the hens and the eggs. So I began to picture in my mind that those hens were coming off the nests with large, healthy families of chickens."

"I set duck eggs under one hen, so I had to picture a fine family of ducks when I thought of her. When I went out to feed them I petted the hens, told them what good mothers they were, felt of the eggs and suggested to the developing intelligence inside the shells that they hatch out strong, healthy chicks."

"The results have been remarkable. Those hatches which have had 'mental suggestion' the longest have hatched out the largest and strongest families. I have fifty lusty chicks, fourteen out of one hatch, and seventeen flourishing ducks. I know that psychology works."

VANITY CAUSES DEATH BRIDE-TO-BE IN SILESIA

LONDON, July 7.—Vanity and too tightly laced corsets caused the death of a girl at Gronau, Silesia, just as her wedding was about to begin.

Her fiancé was waiting on the steps of the church and called to her to hurry. The girl started to run. When she was a few feet away from her prospective husband she fell dead.

A doctor who was hurriedly summoned made an examination on the spot and announced that her death was due to too tightly laced corsets.

FRIENDS RAISE FUNDS FOR MADAME VONSIATSKY

PARIS, July 7.—Paris's Russian colony is raising funds to send Mrs. Lubov Vonsiatky to America. Mrs. Vonsiatky, youthful, little Russian beauty, talks threateningly of her husband, Anastase Vonsiatky whom she is determined to have married for bigamy. Vonsiatky married Mrs. Marion Stephens, American heiress, in New York.

Russian friends say that in cases of bigamy it is often the custom in Russia for deserted wives to take the law into their own hands.

Mrs. Vonsiatky lives at present with her brothers and sisters in Paris. She has been trying to get an American visa on her Russian passport.

Three forest fires were reported in the coast mountains Tuesday night by Carl V. Ogleby, supervising warden of Western Lane county. So far little damage has been done.

ARCHDEACON FLAYS SLOVENLY DRESS OF YOUTHFUL PASTORS

LONDON, July 7.—The young "sky pilots" of the English Episcopal Church have just been severely taken to task by one of their archdeacons for slovenliness in dress and manners. Some of them have committed the heinous "sin" of walking up to the old lych gate in the country churches smoking a pipe and then sacrilegiously knocking the ashes therefrom on the allowed paths of the entrance way.

"This must stop," says the Archdeacon of Rochester. He carries on his threat that there will be no preferments in the way of minor canopies or well stipended rectories for those who transgress from the mild mannered behavior which the ministers of the gospel must at all times effect.

"There is a tendency," says the Archdeacon, "to discard the ordinary world as ordinary laymen. Such clerical dress and to appear before a change in the habits and conventions of centuries should surely not be adopted in a careless spirit, or to a merely blind following of fashion. Our vocation sets us apart and makes certain things in dress, manners and deportment, which may be lawful to other men, inexpedient to us. There is a danger that many of us are adopting a lower tone."

"I do not want the mild-mannered young curate to return, like the Rev. Robert Spalding in the 'Private Secretary.' That character was responsible a generation ago for a popular belief that clergymen were not as other men, but were merely half men. But the war changed that. On the battlefield and in the trenches the clergy shared the hardships of the ordinary soldier. Thus they were saved from the slur that they were unmanly."

"Not that there was one kind of young padre who thought he was commending himself in the messroom and the barracks by behaving himself like other men. Because the men swore he thought they would like him better if he swore, and swear he did. I am convinced that that type of man made a mistake. True that clergymen sometimes are under the impression that in certain circles their presence in clerical garb causes a feeling of restraint to cover over a gathering. That is as it should be and should not be made the excuse for throwing off the garb of their vocation and adopting the looseness of manner and speech of the layman."

AUSTRALIAN PRESS PAYS TRIBUTE TO J. C. HERBSMAN

Chautauqua Lecturer Praised as Noted Orator in Glowing Terms.
One of the finest tributes ever paid to J. C. Herbsman, the lecturer, who will discuss "Life's Balance Sheet" at Chautauqua on the sixth afternoon, appeared in the Melbourne, (Australia) Times, under date of Aug.

PAPER SHORTAGE HITS GOVERNMENT OF SOVIET

LONDON, July 7.—Exhaustion of the supplies of printing paper and coloring material has reduced the output of the Soviet Government's printing presses by 25 per cent according to a Copenhagen message. In consequence of this limitation of the paper money supply the wages of the Bolshevik workmen are said to be many million rubles in arrears.

With following Mr. Herbsman's electrifying speech in the Australian city.

"He is one of the most notable orators that has ever visited this country," said the paper. "After hearing his address in which he urged the closest co-operation between English-speaking peoples, one cannot fail to realize that if there are many Americans of this caliber, then Australia will derive an inestimable advantage in an international exchange of ideas."
