Hogs Stay At \$12.25 at Portland

(From The Oregon Journal.)
North Portland hog market was firm and higher in spots, cattle continue on a nominal basis, while steadiness was indicated generally in the sheep and lamb division. Run for Thursday included five loads.

In the hog alleys the former extreme of \$12.25 for tops was made the regular quotation at the Thursday morning opening. Only a small run of 123 head was shown in the alleys and offerings were quickly absorbed at the rise.

General hog market range:
Prime light \$11.75@12.25
Smooth heavy, 230-300 lbs. 10.50@11.00

NEW YORK, July 28.—(A. P.)—Easy money rates caused further active buying of government war flotations in yesterday's bond market, small gains being registered by most of the active issues.

Consolidated Gas responded to the increased dividend rate on common stock. Several of the foreign and domestic oil bonds were firm to strong but Market-street railway consolidated 5s eased. Total sales, par value, were \$18,205,000.

New offerings today included \$6,000,000 Southern Colorado Power company first mortgage 6 per cent and \$6,000,000 city of Philadelphia 25-year 4 per cent.

Stock market prices were uneven in the early part of today's trading, but hardened very generally later under the influence of a demand for the rails and other standard shares.

Initial reactions were again primarily due to the weakness of Mexican Seaboard issues, which made low prices for the current movement on more aggressive selling, evidently from professional sources.

Covering of short contracts in transportation was attributed to more encouraging advices respecting strike conditions and figures showing that car loading at principal terminals had substantially increased.

Steels, equipments and other favorites of the industrial division reflected a tentative resumption of "bull" operations by pools. Extreme gains in these groups ranged from 2 to over 7 points, Crucible rising buoyantly on heavy accumulations.

Utilities also made a good showing, one of the strongest issues being Consolidated Gas, which made a substantial response to the announcement that the stock had been restored to its former 8 per cent annual basis. Sales amounted to 700,000 shares.

Additional railroad reports for June were of a mixed character. In the main further net gains were shown, but the Atchafalpa system was an exception, increased operating expenses of about \$1,700,000 being accompanied by a net decrease of \$1,900,000.

Money tendencies were easier, call loans opening at 3 1/2 per cent and holding throughout the session at that figure. In private negotiations, demand loans were made at 3 1/2 per cent.

The further collapse of German marks to within a fraction of their low record imparted some irregularity to foreign exchanges. Sterling was firm, with French, Italian and Belgian quotations, and nominal changes were shown by most of the neutral countries.

Best results are always obtained by yielding the right of way to a railroad train, a street car, or heavy truck.

His Idea of Getting Even

As an index of character, the teacher was asking the class one after another what they would most like to do. "And what is your greatest ambition Jimmie?" she inquired. "I think it is to wash mother's ears."

Insurance Agent—"Now that you are married I suppose you will take out a policy?"

Newswed—"Oh, no, I guess not. I don't think she's going to be dangerous."

Perhaps the railroads could make a little money, even at reduced rates, if the public didn't put them to so much expense picking silver fragments out of the locomotive running gear.
