

People Here and There

John Devine of Echo was here today.

James H. Sturgis spent the day in Athens.

George A. Fifer, Milton banker, was in Pendleton today.

Ernest Muller, who farms in the Helix district, was a Pendleton visitor today.

G. A. Ferguson has returned from Portland where he has been for several days on business.

Mike and Pat Doherty are brothers and partners in the sheep business. They live at Gurdane and were Pendleton visitors today.

The land of his nativity is to be visited by Ed Doherty, who left yesterday for his old home in Ireland. He will make an extended stay there before returning to the United States.

It was in 1883 that S. A. Saylor first saw Pendleton. That is almost 40 years ago. Later he moved to Umatilla where he now resides. Interest there centers in the strike situation, he reports. He was a visitor here today.

Jack Allison, who represents the Holt Manufacturing Co., was a Pendleton business visitor yesterday. He was en route to Walla Walla and Colfax, Washington, after a motor trip to Condon, Tione and Moro in the interests of the Holt Co.

Rev. E. J. Conner, of the Tatuilla Indian church, Mrs. Conner and their children, Lizzie and David, yesterday left for a month's visit in Idaho. During their absence Rev. J. M. Connelson, Presbyterian missionary, will occupy the pulpit.

Harvey McPherson, of the Pendleton Cash Market, is in Portland for Buyers' Week.

"When the road up Reed and Hawley Mountain is completed, it will be possible for me to go from the highway to my front door on a five percent grade." This statement was made yesterday afternoon by Frederick Heath who was in Pendleton on his way to his irrigated farm near Stanfield. The building of the road is going to mean a great deal to farmers who live on the mountain, Mr. Heath declares.

SWITCH ENGINE TIPS OVER CAR AT SPOKANE

SPOKANE, Aug. 9.—(U. P.)—One man was injured slightly and a score shaken up when a switch engine went through an open switch at Hillyard, near here, this morning and crashed into a car on the Great Northern east bound limited, standing on the siding. E. J. Boatman of Newport, Wash., was injured. The car was tipped over on its side.

COLLINS GETS LEASE

(Continued from page 1.)

The big mill has been going full blast since the middle of July. The acquisition of the second mill by Mr. Collins is considered one of the most important deals in an industrial way that has been consummated for a long while.

FORMER TELEPHONE RATES MAY RETURN

SALEM, Aug. 9.—(U. P.)—Former Oregon telephone rates will probably be revived. Robert Duncan recently filed a suit in Multnomah county asking the cancellation of the old public service commissions' order which created the present telephone rates. The old commission filed an answer to the suit with intention of fighting it, but the new commission today voted to withdraw the answer. This undoubtedly will result in default of the suit and restoration of the former telephone rates.

HUNGRY RUSSIANS EAT OWN CHILDREN, CLAIM

LOS ANGELES, Cal., Aug. 9.—Reports that starving Russians have been eating their own children are not exaggerated, according to Captain F. Dunnet, of the steamer Orient, which has arrived in Los Angeles after completing a voyage to the Russian provinces on the Black set with wheat for the Russian relief.

According to Captain Dunnet, who saw service as a British officer during the war, there seems to be little hope for the Russian peasant being other than hungry and starving under the present regime. From what he learned while ashore, the captain said the workers would not produce anything because it would be taken from them by government emissaries. The producers have nothing left for their efforts and have grown hopeless and despondent, the captain said. Having nothing else to eat, he said, they are eating their own children under the most appalling conditions of starvation that could be imagined. The greatest hope of many of the people, the officer said, was for them to get out of the country. But government officers are very watchful and it is very difficult for them to leave, he said.

FUNDS APPROPRIATED FOR WAR ON DORYPHORA

PARIS, Aug. 9.—Parliament has voted 500,000 francs for war. But this was no military appropriation. The war is against the doryphora, chief enemy of the potato. Dory comes originally from the United States, and has no respect for French traditions regarding the birthrate. There are three generations of him each year. He is a beetle.

FRENCH SWIMMERS TRAIN FOR THE OLYMPIC GAMES

PARIS, Aug. 9.—(U. P.)—French swimmers are the first athletes of this country to begin preparation for the Olympic games to be held in Paris in 1924. Ten swimmers from each department will be asked to compete in a 500-meter elimination contest for places in the games. Next year the best half of that number will be invited to compete in a 750-meter contest, and in 1924 the victorious one-fourth of the group will again compete in a 1,000 meter race.

This Smile Was Made in America

The black hand of starvation unloosed, this Russian mother smiles as she feeds her little one in the child-feeding kitchen at Samara. The expression on the mother's face should pay any who helped feed the food.

FEDERAL AGENCIES HELP ENFORCEMENT OF PURE FOOD LAW

WASHINGTON, Aug. 9.—(U. S. N.)—Because of the co-operation brought about by the United States department of agriculture enforcement of the federal food and drug act, state food and drug laws and municipal regulations has been made much easier and more effective.

The bureau of chemistry of the department, established several years ago, keeps in touch with the various sectional organizations, state officials and many of the men in charge of administering city food and drug regulations. Although only appointed to office a few months ago, W. S. Frisbie, chief of the co-operation office of the bureau, has already visited more than half of the state officials and will complete the whole circuit before the end of the year.

"As a result of this close relationship the eyes of the law are multiplied," declares the department of agriculture. "The states, cities and the department exchange valuable information, and now most of the state inspectors carry authorization from the secretary of agriculture to collect samples for the department and are, therefore, participants in the enforcement of the national food and drug law.

Rules Standardized. "Another improvement being brought about is the standardization of rules and regulations, which is welcomed not only by the enforcement authorities but also by the manufacturers. This plan of uniformity is being fostered also by the National Association of Food, Drug and Dairy officials, as well as by several of the smaller organizations of these officials. The formation of these smaller organizations by groups of neighboring states is looked upon as a very favorable means of promoting co-operation, especially between the states and cities which are members.

"Seven group associations have been formed, and now every state is a member of one of them. The department is always represented at the meetings and many city officials attend.

"Not only is it now easier to collect information on violations of the laws, but more study of food and drug problems is made possible as the laboratories of the bureau of chemistry at Washington and at the different stations throughout the country may be used by state and city officials."

FAMOUS INN FOR SALE

LONDON, Aug. 9.—(A. P.)—The Leather Bottle, "clean and commodious ale-house" in the little Kent village of Cobham. It was thither Mr. Pickwick, accompanied by the faithful Snodgrass and Winkle, followed Mr. Tupman on receipt of the plaintive letter from Mr. Tupman which announced that he had been "deserted" by a lovely and fascinating creature. He wrote to Pickwick, "Any letter addressed to me at 'The Leather Bottle,' Cobham, Kent," will be forwarded—supposing I still exist. I waver from the side of the world which has become odious to me."

The old inn contains many Dickens relics. The hanging sign bears a picture of Pickwick addressing the club. The old-fashioned shutters which are still fitted to the small windows help to preserve the old world air which Dickens loved so much that he frequently brought down to Cobham parties of his friends to whom he exhibited all the old-time delights of the Leather Bottle. Dickens loved the Cobham neighborhood so much that he returned to it for his honeymoon. Later he took up his residence at Gad's Hill, close by.

REFUSED LICENSE WHEN HE LEAVES GIRL HOME

AKRON, Ohio, Aug. 9.—(U. S. N.)—While some persons have looked upon marriage variously as a failure, a dream, or a lottery—it has fallen to a sunnyside county farmhand to classify it as "a job."

"Where do I go to get a marriage license?" the young fellow from the rural district inquired, entering the courthouse here. "Where's your girl?" he was asked. "Heck!" he exclaimed. "Do I have to have her along, too?" "Certainly you do, the law requires it," he was told. "God damn!" said the young fellow. "That settles it. The job can't be done today!"

BEER KEG CORK POPS MAN IN EYE; HE SUES FOR \$50,950 DAMAGES

AKRON, Ohio, Aug. 9.—An "unsuitable cork," which popped from a keg full of temperance drink known as "cream beer," is responsible for the suit for \$50,950 alleged damages filed by Jacob Burger against the Heener Products Company.

Declaring that the company failed to tip him off that the keg of beer would generate a "kick" or gas, Burger told the court that he lost twelve weeks of his time, the sight of his right eye and 25 per cent of the vision of his other eye.

Burger stated that, when he bought the temperance drink the company gave him something to put into the keg "to make the beer suitable to the trade."

The cork, designated by Burger as "unsuitable," hit him in the right eye.

MUSEUM FEE FAILS TO DETRACT SIGHTSEERS

PARIS, Aug. 8.—Why and wherefore of the fee newly charged this month for entrance into French museums and historical monuments is made apparent by the announcement of the amounts collected the first day of the new charge. The Louvre took in \$250, the Chiny Museum, \$13 and the Luxembourg Gallery, \$26. The Louvre as a stamping ground of the American tourist, was unaffected in number of visitors by the imposition of the fee.

A total of approximately 70,000,000 feet of lumber was shipped from the Columbia river by water to the various markets of the world during the month of July.

THE Lady Mary
"Gifts that Last"

DELICACY of subdued ornament, graceful lines, and softly lustrous surfaces lend a quiet distinction to the simplicity of this early 18th Century design, fashioned from solid silver.

Just as Lady Mary Wortley Montagu was the 18th Century leader among women of culture, so today, the Lady Mary tableware and dinner service dominates all other distinguished patterns of that period.

All solid silver is marked "STERLING"

The word "STERLING" stamped on Lady Mary silverware is the mark which may be used only on solid silver—pure, enduring silver of the U. S. Govt. standard of quality.

Look for the "STERLING" imprint.

RIVOLI TODAY NEXT ATTRACTION HERE IS SPANISH DRAMA

Miriam Cooper, the pretty actress who bewitched thousands by her portrayal of one of the Cameron sisters in "The Birth of a Nation" and in "Intolerance," will appear at the Rivoli Theatre today in "Serenade," an R. A. Walsh-First National attraction.

In this picture Miss Cooper takes the part of a Spanish senorita, and invests the role with such an air of sincerity and fidelity that it becomes a classic in histrionic powers. Playing opposite Miss Cooper is George Walsh.

The action is laid in the Spanish possession of Macedonia, where Don Fulgencio, the governor, had ruled for many years with an indulgent and lenient hand, winning the hearts of all.

The peace of the land was shattered, however, when the powers higher up, coveting the prequisites of the governor, overthrew him and installed in his place Domingo Matias, grasping and avaricious. His son, Ramon, falling in love with Maria, determined to possess her—although she was affianced to Pancho, the son of the deposed governor.

The difficulties which beset the lovers before the intruders were overwhelmed and peace restored make a story that hold the interest from first to last. The supporting cast is a notable one.

FRENCH WOMAN HONORED

PARIS, Aug. 9.—For the first time in history a woman has been admitted to the French Conference of Advocates. She is Mile. Jeanne Rostars, of Paris.

R. A. WALSH presents

"SERENADE"

with Miriam Cooper and George Walsh

"Stop! Would You Break Your Vow?"

An exile, with a price upon his head, he had returned to his home at the risk of his life because he believed his love true.

"I am marrying him to save you from the gallows—because I love you," she whispered.

And again he thundered, "STOP!"

"She is marrying to save a man who does not want to be saved. I am the man who killed the governor's son. Take me!"

Just one of the thrilling scenes in a fiery romance of Old Spain—a tale of undying love and wondrous adventure.
