# News Notes of Pendleton

**CALENDAR OF EVENTS**

August 23 to 29—Northwest conference of the Methodist Church at Milton.

September 18 to 23—Second Annual Northwest Grain and Hay Show.

September 21, 22, 23, Round Up.

**Occasional Showers**

Occasional local showers and normal temperature is the weather forecast by the U. S. Weather bureau, for the week.

**Mother and Daughter Home.**

Mrs. Floyd Heathman and her baby daughter have returned home from St. Anthony's osital where the baby was born. She weighed 11 pounds at birth.

**Roads Are Good.**

Roads to Bingham Springs are excellent, say those who made the trip yesterday. The road from the springs to the Brace ranger station has been completed and is being used.

**Returns From Vacation**

Elvin Seibert has returned after a vacation spent in Portland and Tillamook. He is employed by the Pacific Power & Light Co. but will resume his studies at Oregon Agricultural College this fall.

**Seek John McFaul.**

A letter has been received at the office of the city recorder from the National Bankers' Service company of Chicago in which information as to the whereabouts of John Mabal McFaul is sought. "We have some information decidedly advantageous, but mail addressed to him is being returned," the letter received by Judge Fitz Gerald states.

**Winter Back on Job.**

Edwin Winter is back at work at the First National bank. He has been absent for two weeks on account of an operation.

**Total is $159,071.85.**

Umatilla county applicants for the bonus and loan funds from March 1 to August 15, total $159,071.85, according to a report just released by Sam Kozer, secretary of state. The total in the state is $6,362,311.01.

**Grand Chaplain to Visit**

Rev. John Dysart, grand chaplain of the Elks lodge, will be the guest of the Pendleton lodge August 30, according to information that has been received here. He will come to Pendleton as the direct representative of the grand exalted ruler. Special plans are being made for his entertainment while he is here.

**Several Pay Fines.**

The usual Monday morning excess of business in police court was transacted this morning. C. O. Collins forfeited bail of $10 on a charge of being intoxicated. F. L. Girtof was fined $10 for speeding. H. L. Kuck paid five dollars on a charge of wrong parking andFrank Yarno was fined $10 on a charge of reckless driving.

**Old Horse Is Pensioned**

A faithful old horse which has seen 10 years of service at the J. J. Hamley & Co. saddlery was pensioned today. He is to receive fair treatment and may be used as a mount for young David Hamley, son of Lester Hamley. At any rate, the white horse which has served as a sign at the saddlery has been taken from his stand in front of the building and is to be replaced by an electric device. The exterior of the store is being re-painted in anticipation of the coming Round-Up and the interior will be brushed up also.

**Returns From Hot Lake.**

Charles J. Hillyard has returned from Hot Lake where he recently underwent an operation. His sister, Miss Hillyard, is head surgical nurse at the sanitorium.

**Aged Sheepherder Dies**

Henry Miller, well known by sheepmen of Umatilla county, died this morning at 6 o'clock at St. Anthony's hospital following an extended illness caused by paralysis. He was a native of Germany but came to America as a young man. He worked for many years for the Veys and the Cunha outfits near Echo. The remains will be taken to Echo for interment. The funeral services will be held there tomorrow afternoon.

**Northwestern Still in Slough.**

The Northwestern, stamer chartered by the Pacific Telephone Co. as a repair boat, which was stranded two weeks ago on the rocks at Cold Spring landing, has not been liberated and it is doubtful if it will be possible to get the boat out before high water. The Northwestern, with a crew of about 50 men, was brought from Portland to do line repair work. In an attempt to turn around in the slough, the bow struck the rocks and the stern is in 25 feet of water.

**To Send Exhibit.**

Twin Falls county, Idaho, will send an exhibit of Dicklow wheat to the Northwest Grain and Hay Show to be held here during Round-Up week. Dicklow wheat is the most popular variety in sections where wheat land is under irrigation. The wheat, according to Idaho growers averages from 70 to 85 bushels to the acre and a prize of $200 is offered by the Idaho Seed Growers association each year for the grower who raises 100 bushels to the acre.

**Hotel Adds Annex**

In line with the general improvement program for the Hotel Dorian, work began today on the Hotel Dorian Annex, in the Temple building. An archway will connect the annex with the second floor of the hotel and will add 13 additional rooms to the 53 in the present quarters. The annex will include also the offices of Dr. I. U. Temple, owner of the hotel, Dr. W. H. Reynolds, Dr. R. B. Brundage and E. T. Wade. Dr. Temple returned yesterday from Portland where he purchased modern furniture for the addition. The other rooms of the hotel have been thoroughly renovated and the hostlery has been greatly improved.

**But the Bears Never Came.**

Mr. and Mrs. W. W. Green and son, and A. C. Funk and C. C. Proebstel, returned Saturday from a tour of Yellowstone park. They declare they had a good time, and incidentally, they added to the stock of nature stories by reciting several. Proebstel tells one about Mr. Green sitting up with a lantern for several hours when they camped in a vicinity where the bears were reported to be very good foragers. The lantern was left burning all night, but of course, Mr. Green didn't keep up his vigil after bed time. A bull moose also threatened the peace of a party of three composed of Proebstel, Green and Jack Allen. While the trio was under some trees for a shower to spend itself, the moose acted as if he'd like to see how hard he might strike, but he changed h's mind, and there were no casualties reported.

**Salmon for Fish Feed.**

Two hundred cans of salmon, to be used as the winter feed for the brood trout at Bingham Springs fish hatchery, were received there yesterday. Nine hundred thousand baby trout, 700,000 destined for the fishing streams of Umatilla county and 200,000 to be kept as brood trout to supply eggs for future hatching, are flourishing in the hatchery, which is maintained by the state game commission, under the direction of E. W. Rennie. The 700,000, Mr. Rennie believes, will be from two and a half to four inches long by September and will then be liberated. The fish kept for brood purposes will after from two to four years be ready to spawn. They will be liberated but after reaching a point 300 feet up-stream they will be trapped in a "V" and the eggs will be placed in the 20 troughs which comprise the hatching apparatus. The brood trout are kept separate from the other fish. The present diet is ground raw live rand cooked mush.

OTHER NEWS OF THIS DEPARTMENT ON PAGE 5

## Lorraine's Beauty

Mlle. M. Forrest, just declared "queen of queens" at Metz. That means she's the prettiest girl in Lorraine.

## LONDON CLAIMS BEST VENTILATED BUILDING

LONDON, Aug. 21.—What is said to be the most up-to-date and complete ventilating system in the world is that installed in the council chamber of the London county council's 4,000,000 pound palace at Westminstr, recently opened by the king.

Its unique feature is that each member is able to control his own immediate atmosphere. He has a "control" button below his desk, so that if he is feeling cold he can make the air that is automatically fed to him a little warmer—or vice versa—without upsetting his neighbor.

Apart from individual regulation, 40 tons of air are automatically admitted and extracted from the council chamber every hour.

A maze of pipes beneath th floor of the chamber connects the air inlets and outlets with a room full of wonderful machinery in the sub-basement, including large but noiseless fans, water sprays, thermometers, lynamos, polished gauges, and a network of brass control pipes.

Through the agency of this machinery the climatic conditions of any country in the world can be introduced into the council chamber and the large committee room.

A remarkable feature of the ventilating apparatus is that the effect of a sudden change in the outside temperature is immediately and automatically conveyed to the sensitive instruments in the sub-basement, so that they promptly adjust their efforts toward maintaining an even temperature inside.

A fall of rain on the roof, or a spell of sunshine, are felt by the instruments, and they act accordingly.

More remarkable still is the fact that a single member coming into the council chamber when overheated automatically effects the entrance of an additional proportion of cool air to balance the minute change.

**POLISH RAILROAD RESTORED**

WARSAW, Aug. 21.—The American Technical Commission to Poland, working under the direction of Colonel A. H. Barber, will bring its activities to a close this summer.

This Commission was formed in 1919 to advice the Polish government on transportation problems. Now that the Polish railroads are practically restored, the work of the commission is at an end. The help of Colonel Barber has been fully appreciated. In proof of this he was the first American to receive the order of "Polonia Restituta," established by the Polish government as a mark of honor to those who have served with distinction in the reconstruction of the new republic.

## SOVIET TO BARTER COAL IN ITALY

MOSCOW, Aug. 21.—(A. P.)—An agreement for the export of Russian coal has been signed by the soviet representative at Milan with an Italian company.

By it the soviet government has undertaken to deliver in Italy 200,000 tons of coal from the Don basin and 30,000 tons of mineral oil, while the Italian company has agreed to supply the soviet government with railroad rolling stock, other railroad materials, installation for coal mines, and agricultural machinery. The Italian company agrees to make its shipments before receiving the Russian coal and oil. Another clause of the agreement provides for the mutual agreement. The agreement increase of the amount of coal to be is to become operative within five exported to the Italian company by months from the date of signing.

## Just Us Three

Sally Coburn (left) and Lorna Whittemore were posing for their photo at the horse show at Stamford, Conn., when "Jingle Bell," the jealous thing, poked his head right into the picture.
