## HANNING WITH ARRELL

By HENRY L. FARRELL  
(United Press Sports Editor.)  
NEW YORK, Sept. 1.—(U. P.)—One hundred and forty-nine of the best golfers from England, Canada and the United States will start play tomorrow in the annual American amateur championship at Brookline, Mass. While it is the most representative field that ever played for the title it is not numerically as strong as in the past, as thirty players were denied entry because of the new handicapping basis of entrance requirements. The first qualifying round of eighteen holes will be played tomorrow and the lowest sixty-four scores and ties will play the second elimination test on Monday at thirty-six holes. The thirty-two best scores and ties will start in the championship proper on Tuesday. Among the prominent entries are Jesse P. Guilford, the defending champion; Chick Evans, Bobby Jones, Francis Outmet, Jesse Sweetser, Robert A. Gardner, Henry Topping, Rudolph Knepper, Nelson Whitney, R. E.

Hunter, W. C. Fawnes and H. C. Fawnes and Gardiner W. White. Willie Hoppe, for years the world's greatest billiard player, went into retirement last winter after he had lost the title to young Juke Schaefer. He intended to stay away from competition, but he changed his mind and is now training for the coming championship tournament. Arrangements are now being made for an international tournament in New York in November that should be the greatest billiard exhibition ever staged in this country. The entries will be Jack Schaefer, Hoppe, Walker Cochran, Roger Conit, the French star; Edouard Horemans, the Belgian champion, and Hagenslacker. Hoppe wants to win back the title and if he beats that field he will be a real world's champion. Willie Kamm, the high priced San Francisco infielder is said to be figur-

ing on taking up the study of law. When he tried to talk the San Francisco club out of a cut of the \$125,000 that the Chicago White Sox paid for him, he probably found out that he knew very little about the technique of argument.

William Wreley is going to build a raw ball park in Los Angeles and says here it has no signs on the outfield fence. Maybe they'll be covered with sprigged vines and juicy fruit.

One hundred and fifty athletes have already entered the annual A. A. U. track and field championships to be held in Newark, N. J. on Sept. 9 and 11. One of the most interesting fights of years for the team championship is expected to be staged between the Eastern Athletic Association, the Illinois Athletic Club, the Los Angeles A. C. and the New York A. C. Illinois, with a team strengthened by a dozen star college athletes from the mid-west, looks to be the favorite.

LUNNENBURG, Nova Scotia.—A prospective entry for this fall's Nova Scotia fishing schooner championship races, the "Margaret H. Smith," was launched from the yards of Smith and Rhinland here. The vessel is said to be very similar to the "Mahaska," launched from the same yards this spring, with the rumored intention of being a Nova Scotian rival of the international champion "Elenore."

## BRITISH USING SHIPS FOR GUNNERS' TARGETS

LONDON, Sept. 1.—(A. P.)—Having found no buyers for the great group of battleships which the Washington conference decreed should be scrapped, Great Britain is using the monsters as targets for the gunners of the royal navy and the members of the royal air force. Like the United States and France, this country has a dozen or more specially fine cruisers and one-time dreadnaughts which must be relegated to the ignominious junk pile.

Thunderer, Monarch, Conqueror, Colossus, Lion, Ajax, Centurion, King George V., Princess Royal, Erin and Orion, monsters of 20,000 or more tons, once the pride of the Seven Seas, are all doomed. Costing more than \$15,000,000 originally, junk dealers have offered the government only \$20,000 apiece for them.

The navy is now engaged in a series of target tests on the famous battleships Agamemnon and Superb, which, like their sister ships are to find their graves in the ocean at the hands of the gunners and Jack tars that once manned them. The admiralty is trying by these tests to determine how a direct hit can be prevented from passing from the turret down the ammunition tube.

In the battle of Jutland, Invincible, Indefatigable and Queen Mary blew up because of a flash passing from the ammunition tube to the magazines below. So Superb is now in the English channel and is being shelled at punishing ranges to see whether or not the flash of explosion passed down to the powder and shell magazines under given conditions.

Agamemnon, too, may soon need a successor. She is a moving target, more difficult to hit than Superb, which is stationary. She is propelled by oil. The supply of oil is turned on her engines are started and the engines die from her before she catches too much headway. Her speed as her steering apparatus are controlled by wireless in another ship.

The most exciting part of these tests is that played by the stoop snapper. She is responsible for taking accurate motion pictures of what happens to the target as the result of the shots. At times she runs the risk of being hit by the monster arm-piercing projectiles as well as being rammed by the 20,000 ton Agamemnon.

## COMMUNITY SINGING MADE IMMEDIATE HIT IN NEW ZEALAND

WELLINGTON, N. Z., Sept. 1.—(A. P.)—Cyril May, who trained community song-leaders for the American troops during the war, has visited this city and introduced the idea of community singing. It caught on at once. A meeting of prominent Wellington business men was held at his instigation, the mayor presiding, and those present formed themselves into a committee to introduce the scheme.

"It met with immediate success," says the New Zealand Herald. "The attendance at the first sing numbering about 500 and at the last no fewer than 1,000."

The sings are held in the town hall from midday until 2 o'clock one day each week. There is an accompanist and a piano and a song leader who acts as conductor. Leaflets are distributed with 12 or 14 choruses of songs known to everybody. The leader announces which will be sung, gives them a start and off they go. There is nothing whatever of a commercial proposition about it.

A collection is taken as the people pass out, and they contribute from a penny to sixpence, according to the amount of enjoyment they got out of it.

The money is used for the hire of the hall, piano, advertising and printing. It is hoped soon to get a booklet printed containing 50 community songs. Hymns are not sung but just the good old-fashioned songs that everyone loves with a few timely, popular croonings to help keep people cheerful.

## Italy's Socialist Leaders

Deputies Turati and Medigliani are the socialist leaders who forced the recent crisis in Italy in a vain attempt to form a socialist cabinet. This photograph, just received in America, shows the deputies in a good humor at the time they thought they had achieved the coup.
