The perennial beauty of a valuable rug is the reward of frequent and thorough cleaning. Such cleaning is easy to perform with The Hoover, because it beats . . . as it sweeps, as it suction cleans. All injurious embedded grit is fluttered out by gentle beating. All stubborn litter is detached by swift sweeping. All loose dirt is withdrawn by strong suction. Only The Hoover combines these three essential operations. And it is the largest-selling electric cleaner in the world.

You may have a Hoover placed permanently in your , home for a nominal sum, and its purchase arranged on convenient terms. You may also have it demonstrated for you any time, either in your home or in our store.
