DEER SKINS MUST NOT BE SOLD, WARDEN SAYS

Deer skins cannot be legally sold in the state of Oregon. This is the gist of an opinion received this morning from the office of the state game warden in reply to a local request for a permit to buy and sell deer hides. Even though the deer is killed in open season and though the skin may bear the hunting license coupon duly made out, the hide cannot be sold. The letter from the state game warden's office follows:

"Deer and parts of deer are protected at all times so far as the selling of meat, bones, horns and skin is concerned. Under the provisions of the law, a person may preserve the skin or any other part of a deer for his own personal use by having same made into anything that will meet his fancy. Deer skins may be made into rugs, table covers, gloves, buckskin and any other thing for one's own use, but cannot be sold, traded or bartered. However, in order to hold these things the person so holding must have each article tagged with a metal game tag, furnished by the state game commission, the cost of which is five cents each. If a deer skin is held after the close of the open season same must be tagged with the metal tag or seal in order to be held lawfully.

SOY BEAN IS TAKING PLACE AS MAJOR CROP

WASHINGTON, Sept. 2.—(A. P.)—The soy bean is rapidly taking a place as a major crop in the farming systems of the corn belt, replacing oats to a considerable extent and taking part of the corn acreage, says the Department of Agriculture. Although primarily used for forage, pasture and ensilage, the growing of seed during the last few years has become a very profitable industry. The production of seed has now increased to the point where the supply greatly exceeds the demand for planting.

The department inspectors have found considerable acreage put to growing the soy bean in the northern and corn belt states, showing a considerable increase. The possibilities of using the bean for oil and meal are ascribed by officials as the reason for the increase. Such a commercial outlet affords the grower another cash crop as corn and wheat, it is said.

Mrs. Sherman Helped by Lydia E. Pinkham's Vegetable Compound

Lake, Michigan.—"About one year ago I suffered with irregularities and a weakness and at times was obliged to stay off my feet. I doctored with our family physician and he finally said he could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and I am entirely cured of my ailments. You may publish this letter if you wish."—Mrs. MARY SHERMAN, Route 2, Lake, Mich.

Finally they take Lydia E. Pinkham's Compound and Mrs. Sherman's experience is simply another case showing the merit of this well-known medicine.

If your family physician fails to help you and the same old troubles persist isn't it reasonable to try Lydia Pinkham's Vegetable Compound?

WIFE MADE DEPUTY, HUB PAYS ALIMONY

DETROIT, Sept. 2.—Mrs. Leoni Pvo, athletic deputy sheriff, has made her first "pinch." She arrested Leo Pvo, her husband, and brought him to court, where he paid Leoni \$100 in back alimony and heaved a sigh of relief as Judge Jayne discharged him from her custody.

Mrs. Pvo was specially deputized at her own request in order that she might keep an eye on Pvo until he paid. The Pvos went into court on the complaint of the six-foot wife that her diminutive husband had failed to pay his alimony.

The court favored sentencing Leo to the House of Correction.

"Don't do that, your Honor," pleaded Mrs. Pvo. "I'll never get my alimony. Just turn him over to me and I'll see that he pays."

Judge Jayne then announced that Mrs. Pvo would be appointed a special deputy sheriff and placed Leo in her custody.

"Nix, nix, Your Honor," Pvo replied. "If he doesn't pay bring him back please."
