

HERMISTON ELEVEN TO PLAY COLUMBIA COLLEGE

(East Oregonian Special.)
 HERMISTON, Oct. 10.—Football will be king again here Saturday when the Hermiston high school gridiron warriors will do battle with the Columbia College eleven of Milton. The Hermiston team have sent pigskin streaks in this vicinity soaring by their defeat of the Pendleton high aggregation, the Round-Up city's first defeat in years, and their overwhelming victory over Stanfield last Friday. The Commercial club has come to the fore and purchased shoulder pads and other necessary equipment and the entire town has taken a sudden interest in the game that heretofore was unknown here. The largest attendance in the history of football here was recorded at the Stanfield game.
 Coach Grubbs, formerly of Willamette University, has been putting the boys through stiff workouts daily and his efforts have resulted in turning out the best football team that Hermiston has ever had.
 Keen interest is shown here in the conference game October 28 at Pendleton between the University of Oregon and Whitman College. Nearly the entire town have announced their intention of attending.

Probably to forget reparations and the drop in exchange Germans are trying to learn football. Are they apt pupils? Look at this picture taken near Berlin.

Work on the new postoffice is progressing rapidly. August Bessie, in charge of the excavation and foundation work, has a large crew of men working daily. It is expected, according to Postmaster C. H. Shimmer, to have the structure ready for occupation by December 1.

Elaborate preparations are being made by C. W. Kellogg, manager of the Hermiston Auto Co., for the reception of the "Ford caravan" which is scheduled to arrive here Saturday for a two-day stay. A varied entertainment will be presented, according to Mr. Kellogg.

The new log home of Mr. and Mrs. Shaw of Cold Springs is expected to be completed this week, according to Soren Jensen, who is in charge of the work. The Shaw home will be the first log structure of its kind to be erected in this vicinity. Artistic furnishings are being planned for the inside and this with its unique architecture will make it one of the most beautiful homes in this year of Umatilla county.

BETTER HOMES WEEK

Complete Home Outfits

This is the week to choose your "Better Homes" outfit. Our stocks are at the very peak of completeness and every new design, wood and finish is represented. To choose now is to choose from the very cream of what the markets of the world afford. Remember, too, that very liberal credit terms are extended on anything you need for the home.

A UNION OF INTEREST TO WOMEN

Healthy Housewife---Happy Home

Lydia E. Pinkham's Vegetable Compound Has Helped Form Many

For the ailing, half-sick housewife such a union is impossible. Often times even the slightest form of house-work cannot be accomplished. Yet the work must be done.
 Many women struggle along for years, suffering from some form of female trouble that make their lives miserable and their homes far from happy.

Lydia E. Pinkham's Vegetable Compound has helped thousands of just such women regain their health and strength. Just give your thought to the following letters and remember that the women who wrote these letters knew how they felt before taking the Vegetable Compound and again afterwards. It helped them—let it help you.

Had Nervous Spells
 Horatio, Ark.—"I had nervous spells and awful bad feelings. My right side and my back hurt me all the time and I had been going down in health for six or seven years. For three years I had not been able to do my work without help. I weighed only 95 pounds when my husband's mother persuaded me to take Lydia E. Pinkham's Vegetable Compound. Now I heartily recommend it to all suffering women, as I have gained weight and health. I can do all my work, anything I want to do."—Mrs. JIM REARICK, Horatio, Arkansas.

Reading, Pa.—"I was a nervous wreck and could hardly do my house-work. I always had to have help or I would never have got it done. Through the advice of friends I have been taking Lydia E. Pinkham's Vegetable Compound for my nerves and Lydia E. Pinkham's Blood Medicine for my blood and I am feeling fine and doing my work all alone. I can recommend these medicines to any one, for they certainly helped me. I suffered for five years and Lydia E. Pinkham's medicines pulled me through."—Mrs. WALTER U. STROYER, 1218 Mulberry St., Reading, Pa.

Recommends the Vegetable Compound

New Orleans, La.—"I have found relief from my troubles by taking Lydia E. Pinkham's Vegetable Compound and I praise it wherever I go. I could not do my work as it should be done for I would sometimes have to lie down because of the pains I had. A friend induced me to take your Vegetable Compound and I have got great results from it. I keep house and am able to do all my own work. I recommend your Vegetable Compound to my friends who have trouble similar to mine."—Mrs. T. FOTICKER, 1915 N. Derbigny St., New Orleans, La.

MOVE HISTORIC ENGLISH HALL TO SAN FRANCISCO

LONDON, Oct. 10.—Norland Hall, an ancient homestead, near Halifax, England, is being dismantled and prepared for removal to San Francisco, where it will be re-erected.

The stones and timber comprising the hall are being packed into crates, being numbered so that the whole building will be re-erected exactly as it stood in England.

CHESS CHAMPION IN N. Y.

NEW YORK, Oct. 10.—(U. P.)—The Ninth Annual American Chess tournament opened here today at the hotel McAlpin and will continue nine days. The chief attraction of this tournament is the participation in it of the young chess wizard, Samuel Reshevsky, who for the first time will take part in a tournament where masters and champions participate.

The other participants are: Frank J. Marshall, present champion of U. S.; B. Janovsky, champion of France; Edward Lasker, champion of Western States; Charles Jaffe, former champion of N. Y. States; S. Charles, champion of L. R. L. Progressive Chess Club; M. Shapiro, champion of Manhattan Chess Club; John F. Berry, champion of Massachusetts.

Cancer Is An Old Disease

NEW YORK, Oct. 10.—Cancer is almost the oldest disease of mankind, according to a statement issued here by the American Society for the Control of Cancer. Descriptions of conditions now known to be cancer are found among the fragmentary records of ancient India and Persia. It was known to the Egyptians before the time of Moses and is distinctly mentioned in the Papyrus Ebers 1590 B. C. Herodotus tells us that Democedes cured Atossa, daughter of Darius, King of Persia, of a cancer of the breast, 520 B. C., while Daniel was a captive in Babylon.
 Hippocrates accumulated a vast quantity of information of the subject.

He was the first to use the cautery, a hot piece of metal, on a skin cancer, 450 B. C. Leonides of Alexandria, 180 B. C., first described retraction of the nipple in cancer of the breast, and using a scalpel and cautery performed an operation almost as extensive as the one perfected by Dr. Halstead only 20 years ago.

Galen, the great Surgeon and Physiologist, who died A. D. 200, wrote extensively on the subject. His writings were still in use as late as the time of Queen Elizabeth, and with little exception there was no advance in our knowledge of cancer pathology throughout the Byzantine and Renaissance periods.

During the Dark Ages, cancer was looked upon as an evidence of Divine Wrath, for the hand of the church on medical as well as other scientific investigation prevented anything in the nature of research. As a result of

this belief, a great wave of faith cure and quackery spread over Europe, which reached its height during and immediately following the reign of Queen Elizabeth, so that every effort to ascertain the true nature or cause of cancer was defeated.

SHARK MEAT SALVATION OF CREW ON LONG TRIP

LOS ANGELES, Cal., Oct. 10.—Only the capture of a ten-foot shark off the west coast of Mexico saved the lives of the seventeen members of the crew and Captain R. J. Healey, of the auxiliary schooner Moonlite, which arrived here recently from Newport News after one of the longest voyages on record.
 Facing death by starvation, when they ran out of food, members of the crew successfully angled and caught

the huge shark, cut the meat into strips and cooked it.

SMILE WEEK IN WASHINGTON. OLYMPIA, Wash., Oct. 10.—(U. P.)—Yesterday started Smile Week in Washington. The whole state wore a grin.
