ART NOT POLITICS INTERESTS ISADORA, FAMOUS DANCER

ISADORA DUNCAN

By EDWARD M. THIERRY
NEW YORK, Oct. 11.—Isadora Duncan, high priestess of a school of dancing all her own, is the first person who has come out of Russia and hasn't talked about one or all of these topics: Bolshevik politics; commercial treaties; Red propaganda; paper money; Lenin; Trotsky; food. Miss Duncan (whose married name is Mrs. Serge Yesenina, though she doesn't use it much) talked about these subjects: "I, the soul of the Russian people; idiotic movies; her husband (whom she calls by his last name, pronounced E-same) Ellis Island officials who kiss their hats on and talk through their noses; Walt Whitman; Russia's intellectual wealth; horrid persons who imitate her dancing without understanding what it is all about.

VENT PIPES SHOULD BE PROVIDED FOR GAS STOVES AND HEATERS, CHIEF SAYS

One of the greatest menaces to homes from fire risks in Pendleton is the lack of vent pipes in gas stoves and gas heaters, according to Fire Chief W. E. Ringold. A survey of many places has been made by the head of the fire department during this week, which is fire prevention week, and he has found many stoves not correctly equipped. The chief danger is that gas may accumulate where vent pipes are not provided, and then when a match is struck an explosion may occur. There is also danger to the health on account of fumes, the chief states. He urges local people to remedy these conditions during the week that there may be less risk to health and from fire losses.

STRONG ASSOCIATION FORMED TO WORK FOR SOUTH ROAD TO GRANT CO., BURNS, LAKEVIEW

WHEREAS, The improvement of the highway from Pendleton southward through Grant County, thence to Burns and Lakeview is of extreme importance for the following reasons:

- 1. The territory affected geographically embraces a very large portion of the State of Oregon.
- 2. This district has long been settled but its development has been retarded by the lack of transportation.
- 3. There is a particular need of a north and south road because only through such a road may many farmers and stockmen have proper access to market and financial centers.
- 4. The present condition of the road between Pendleton and Grant County is intolerable and has been defined by the State Highway Commission as the worst road in Oregon.
- 5. To improve this road would not only be of incalculable service to people in the intervening territory but would be an asset to the State from a tourist standpoint through providing a connection between the Columbia River Highway, the Old Oregon Trail and the Oregon-Washington highway via the John Day Highway.

WHEREAS, The improvement of this north and south road is imperative if the people living adjacent to such road are to have the service they are entitled to and if the interior country is to be developed in accord with its possibilities.

THEREFORE BE IT RESOLVED, By this association that its officers and executive committee be instructed to use every proper effort in their power to bring about the early improvement of the road for its entire length but that the securing of a better grade north from the north fork of the John Day River is particularly urgent.

BE IT RESOLVED, By this association that the county court of Umatilla county be urged to hold intact the \$65,000 of bond money voted for this road, so as to have the same for matching federal and state funds when the same can be secured.

BE IT RESOLVED, That copies of this resolution be forwarded to the county courts of Umatilla, Grant, Harney and Lake counties, the state highway commission of Oregon, the district forester in Portland and members of the Oregon delegation in Congress.

Mossie is President
With the above set of resolutions the association formed at Pilot Rock yesterday to work for the north and south road went on record for a determined move to bring about results. A live organization was perfected with officers and executive committee men who will work vigorously to arouse the entire district from Pendleton to Lakeview to support the demand for a good north and south interior road.

The following men are in charge of the association.
President—James Mossie, Ukiah.
Vice President—Felix A. Johnson, Range.
Hon. Vice President—Mrs. Mary Davis, Ritter.
Secretary-Treasurer—C. E. Barr, Pendleton.

Directors
G. A. Hartman, Pendleton; K. G. Warner, Pilot Rock; Albert Peterson, Ukiah; A. F. Schlarbaum, Albion; A. S. Arbogast, Ritter; E. O. Woodall, Long Creek; C. P. Haight, Canyon City; Sidney Green, Mt. Vernon; Frank McGier, Fox; Burns, to be supplied; Lakeview, to be supplied; John Day, to be supplied.

The matter of selecting an official name for the association was left to the executive committee. One suggestion, made by Senator Roy W. Ritter, is that the highway from Pendleton to Lakeview be called the Jaunquin Miller highway in honor of the noted poet who was the first county judge of Grant county. This suggestion of Grant county, this suggestion met with favorable response but action was left with the directors and officers.

Series of Meetings
At the close of the formal session at Pilot Rock yesterday the executive committee met and arranged for a trip south next week by officers and members.

Identity of Victim May be Established by Finger Prints From Withered Hand
NEW YORK, Oct. 11.—(U. P.)—The police this morning found the left arm and left leg belonging to the severed head and torso found days ago. Police believe they can find a solution to Gotham's "butcher murderer" by finger prints from the withered hand.

KEMALISTS MUST WITHDRAW 10 MILES

British Not to Bring Reinforcements Into Neutral Zone Pending Peace Parley.

MUDANIA, Oct. 11.—(U. P.)—The Near East armistice was signed this morning. Calling of the official peace conference comes later. The terms of the armistice are: The Greeks must evacuate Thrace, their army in two weeks, the civil force shortly thereafter; the Turkish renardians can enter Thrace after forty-five days of allied control. The police force cannot exceed eight thousand; the Turks must not advance beyond the present lines in the Ismid neutral zone; the Turks must withdraw ten miles from the British positions at Chanak; the British must not bring reinforcements into this area, and the Turks guarantee to protect minorities.

The armistice terms represented the utmost concessions the western powers would make to the Turks. Frenchmen to the conclusion of the armistice parley, Sir Charles Harington, British commander in chief, notified Ismet Pasha that the protocol had the backing of both France and Italy. No action has been taken on the French suggestion that the later peace parley be held at Scutari, November 1.

The copies of the armistice were signed, one copy to each Britain, France, Italy, Greece and Turkey. The armistice terms will be the status in the Near East, until after the final peace parley is held.

LONDON, Oct. 11.—(A. P.)—With the armistice signed at Mudania, two conferences are now being arranged, one fixing the general Near East peace terms and the other for the neutralization of the Dardanelles.

STATEMENTS OF COCA COLA KING CALLED LIES

LOS ANGELES, Oct. 11.—(A. P.)—Wilbur Le Duffe, formerly of Atlanta, Ga., now living here, volunteered a statement today that he was the traveling salesman mentioned by Asa G. Candler in statements published by Mrs. Omeina de Bouchele involved in the alleged reports of visits to her home in Atlanta during the Confederate reunion in 1913. Candler had broken off his engagement to marry Mrs. de Bouchele on account of reports that she had asked two men to her rooms at the hotel in Atlanta while she was acting as chaperone general of the convention, according to Mrs. de Bouchele's statement yesterday. "The whole story attributed to Candler is a lie," declared Le Duffe. "It is the fabrication of a scoundrel mongers. There is no finer woman on earth than Mrs. de Bouchele." He said that no man could have been alone with her in the hotel because she was always with young women whom she chaperoned.
